Catarrh

Whether it is of the nose, throat, stomach, bowels, or more delicate organs, catarrh is always debilitating and should have attention.

The discharge from the mucous membrane is because this is kept in a state of inflammation by an impure condition of the blood. Therefore, to cure, take the best blood purifier,

How to Read.

Reading is not a lost art to the same degree that conversation is, but it has in most cases an arrested development through so much reading that makes no demand upon aesthetic sensibility, so that one is apt to bring to a fine story full of delicate shades of thought and feeling the same mind which he yields to a newspaper, putting a blunt interrogation as to its meaning as conveyed in the terms of a rational proposition, and the writer's charm is wholly lost upon him. While the reader's surrender to the author must be complete, his attitude should not be passive, but that of active responsiveness and partnership.—H. M. Alden in Harper's Magazine.

In case of pain on the lungs Hamlins Wizard Oil acts like a mustard plaster, except that it is more effective and is so much nicer and cleaner to use.

Accounting for It.

Imogene—Why is it that so many weddings happen on Wednesday?

Esmeralda—Well, on Sunday everybody wants to sleep, you know; Monday is wash day, and Tuesday is ironing day. Wednesday is the first day in the week when there's really any time for marrying.

No Honey Factory.

"That was an error," said Senator Beveridge, apropos of an opponent's argument, at a dinner in Indianapolis. "Our friend made an embarrassing error. He reminds me of John Winslow. John spent his honeymoon at Niagara. He left the bridal apartment late one night to bathe, and on his return knocked, as he supposed, on his wife's door, calling softly:

"'Honey!'

"There was no answer. Winslow knocked again.

"'Honey!'

"Still no answer. Winslow thundered on the door.

"'Honey!' he cried, in a voice of agony.

"Then a reply came at last.

"'Sneak, you blooming idiot!' a male voice growled. 'This is a bedroom, not a blooming beehive!'"

Recipe That Breaks a Cold in a Day and Cures Any Curable Cough.

"Mix half ounce of Concentrated pine compound with two ounces of glycerine and half a pint of good whiskey; shake well each time and use in doses of a teaspoonful to a tablespoonful every four hours."

These ingredients can be obtained from any good druggist, or he will get them from his wholesale house.

The Concentrated pine is a special pine product and comes only in half ounce bottles, each enclosed in an air tight case, but be sure it is labeled "Concentrated."

A prominent local druggist says that he has filled this prescription hundreds of times and that it is wonderfully effective.

Bad Breath

"For months I had great trouble with my stomach and used all kinds of medicines. My tongue has been actually as green as grass, my breath having a bad odor. Two weeks ago a friend recommended Cascarets and after using them I can willingly and cheerfully say that they have entirely cured me. I therefore let you know that I shall recommend them to any one suffering from such troubles."—Chas. H. Halpern, 114 E. 7th St., New York, N. Y.

The Langworths lived in a corner house so easily accessible from the street that they were being continually annoyed by persons ringing to ask where other people lived. At last the son of the house, says a writer in the New York Times, decided to put an end to the nuisance.

"I guess," he said, complacently, 'there won't be any more folks asking if the Browns, the Biddles or the Hansons live in this house. I've fixed 'em."

"What have you done?" queried Mrs. Langworth.

"Hung out a sign."

"And what did you print on it?"

"Just five words," replied Harold, proudly. "'Nobody lives here but us.'"

AN EXCELLENT REMEDY.

Will Break Up a Cold in Twenty-four Hours and Cure Any Cough That Is Curable.

The following mixture is often prescribed and is highly recommended for coughs, colds and other throat and bronchial trouble: Mix two ounces of Glycerine, a half ounce of Virgin Oil of Pine compound pure, and eight ounces of pure Whisky. These can be bought in any good drug store and easily mixed together in a large bottle. The genuine Virgin Oil of Pine compound pure is prepared only in the laboratories of the Leach Chemical Co., Cincinnati, and put up for dispensing in half-ounce vials.

A Pet Anyhow.

The family lived in the suburbs of the city, and, much to the joy of Lulu, a little pig was given a home in the stable cellar. A few days later the little one was calling at a neighbor's, where she showed great interest in the bird.

The lady said, "Don't you keep a bird at home?"

"No," said Lulu, "we keep a pig instead."—Delineator.

Hard to Locate.

"How about this new student's ideas of orthography?" said one professor.

"He has me puzzled," replied the other. "I can't decide whether he is simply illiterate or a spelling reformer in advance of his time."—Washington Star.

U. S. NAVY SECOND

Tonnage of War Vessels Exceeded Only by England.

GERMANY SOON TAKE OUR PLACE

Kaiser Has More Battleships Under Construction—Will Be Second Power on High Seas.

Washington, Nov. 27.—Measured by actual naval tonnage in service, the United States ranks second among the nations of the world; Great Britain alone surpasses this country. But if to the tonnage in service is added to tonnage of warships authorized and in course of construction, the United States is compelled to yield second place to Germany. In other words, Germany has in course of construction more large battleships than has the United States. The relative order of warship tonnage of the great nations today is as follows:

Great Britain	1,758,350
United States	682,785
Germany	609,700
France	602,920
Japan	396,368
Russia	259,263
Italy	216,038
Austria	114,897

It will be noted that Japan is far inferior to the United States in its naval strength, standing fifth on the list. It will also be noted from the following table, showing the total naval tonnage of the great nations, as would be the case were vessels building now completed, that Japan retains her relative position on the list, with even less tonnage than the United States. Assuming vessels under construction were all completed, the navies of the world would show the following tonnage:

Great Britain	2,005,873
Germany	820,692
United States	785,687
France	766,906
Japan	489,704
Russia	412,250
Italy	257,818
Austria	167,297

These figures are interesting in several respects. Germany, for instance, which long stood fourth on the list of naval powers, has rapidly passed both the United States and France. Japan, on the other hand, supposed to have been making great strides in the development of her navy, is not building as fast as the United States. During the past year she increased her naval tonnage less than 50,000, and it is seen from the statistics above that her increase, according to her present programme, will not be equal to that of the United States. The tonnage of the American navy today exceeds that of Japan by about 286,000; with the present programme of both nations completed, the United States will lead by 296,000.

TAX REGULATIONS MADE.

Income From Corporations Expected to Be $25,000,000.

Washington, Nov. 27.—Corporation tax regulations are now complete and ready for the printer. It has been a great task to meet all the complexities of the law and expected attacks upon it by the corporations. Latest estimates indicate a net revenue from the corporation tax of approximately $25,000,000 annually, and 122,000 corporations probably will have to pay the tax.

In a far southwestern state it has been found that not more than 10 per cent of many thousands of corporations ever have actually done business. Improper registration in many cases is expected, but the series of penalties under the law will apply to all, even to those who fail to get the forms and regulations. The mailing of the forms and blanks to every corporation listed in the various districts is not required by law, and is merely to assist the corporations. Those not registered should apply immediately to collectors.

All returns are required to be in the collector's hands by March 1, then sent to the internal revenue bureau here, where the tax will be assessed and the taxpaying corporations notified by June 1, the tax to be paid by July 1.

Wild Man Is Captured.

Ukiah, Cal., Nov. 27.—Emilie Badoni, known in this section as "The Wild Man of Hopland," was captured last night by Constable Orr, of Cloverdale, and Game Wardens Lee and Miller, who brought him to this city. Badoni has lived in a cave near Coinsky station since last May, and had not spoken to any one for many months. During this time he has lived on sheep he has killed and food taken from cabins in the neighborhood. Badoni was found by the officers sunning himself on top of Squaw rock, and was captured before he could offer any resistance.

Mummy Rameses Arrives.

Boston, Nov. 27.—Rameses, king of Egypt, is resting aboard the steamship Aragonia, while the vessel is discharging a portion of the cargo here preparatory to proceeding to New York. The monarch, whose age is estimated at about 3000 years, was lifted aboard the steamer by the seamen at Suez with New York for destination. Rameses—just which one of the long line of Egyptian sovereigns of that name has not been determined—is a mummy.

Hail Hits Los Angeles.

Los Angeles, Nov. 27.—Hailstones as large as walnuts fell in various portions of this city late today for ten minutes. A sleet storm followed a sudden fall in the temperature, the falling sleet remaining on the ground some time, affording an unusual sight for Southern Californians.

Sunken Roman Galleys.

Beneath the waters of Lake Nemi, in Italy, lie buried two pleasure galleys. They belonged to the Emperors Tiberius and Caligula, and it is said they contain art treasures that have been covered for many centuries. Systematic efforts were made to recover the contents of the old hulks by Signor Borghi in 1895. Divers were engaged, and the two galleys located, measured and carefully examined, and from both bronzes, pieces of wood, anchors and ornaments of all kinds were collected. The larger vessel measures about 230 feet in length and 80 feet in beam, and the smaller 200 feet in length and 65 feet in beam. Some pieces of lead pipe were found in the vessels. They bear the inscription, "Caesaris Aug. Germanice," the official name of Caligula.

No Use.

"Can I interest you in the subject of noiseless sewing machines?" asked the man at the front door.

"No, sir," said the man of the house; "my daughter always sings when she's using a sewing machine, no matter what kind it is."

Then he slammed the door in the caller's face.

"De one has hooks in de back, an' de uddah has books in de back."

A Literal Distinction.

Bishop Potter was known as quite a wit, and often took delight in turning his humor loose on his associates, but here is an instance where the joke, although quite unintentional, was on the bishop. He was to preach at a certain parish in the West in the evening, and the congregation was not a little amused at the somewhat ambiguous announcement of their worthy pastor, who said:

"Remember our special service next Sunday afternoon. The Lord will be with us during the morning services, and Bishop Potter in the evening.—Success Magazine.
