Dolphin and Flying Fish.

A ship was lying at anchor at Boca Grande, says the Punta Gorda Herald, lately when the crew observed a dolphin chasing a flying fish, both coming directly toward the ship. On nearing the vessel the flier arose in the air and passed over the bow just about the foremast. As it did so the dolphin went under the ship and, coming up on the other side, sprang from the water and caught the flying fish on "the fly" just as it was curving gracefully down in its descent to the water.

DYSPEPSIA

"Having taken your wonderful 'Cascarets' for three months and being entirely cured of stomach catarrh and dyspepsia, I think a word of praise is due to 'Cascarets' for their wonderful composition. I have taken numerous other so-called remedies but without avail, and I find that Cascarets relieve more in a day than all the others I have taken would in a year."—James McGune.

Sleeping with Feet Raised.

Among the pernicious things that we have all been doing without knowing it is sleeping with a pillow under our heads. No longer if we value health and happiness may we bury our weary heads in these soft and soothing depths. It is the feet that want elevation, not the head, says a German doctor, and a pillow isn't big enough to raise them to the required height. The doctor has the foot end of his bed elevated about eight inches and says that in this position his circulation is better and that his brain and nerves have profited thereby.

Nor in the Thunderbolt.
"I sent you a communication a day or two ago," said the indignant caller, "and you wouldn't print it just because it didn't happen to agree with your views."
"What was it about?" asked the editor of the Morning Thunderbolt.
"It was about woman suffrage."
"O, yes, I remember."
"You threw it in the waste basket, I presume."
"My object, sir, was to show that a good deal can be said on both sides."
"Well, you said it, all right, sir—on both sides of the sheet. That's the reason why you can't say it in the Thunderbolt. Good morning, sir."

Preocious Foresight.

"Tommy," said the teacher, "you have made some inexcusable mistakes in your geography lesson."
"Yes'm," said the precocious youth.

One way is to pay no attention to it; at least not until it develops into pneumonia, or bronchitis, or pleurisy. Another way is to ask your doctor about Ayer's Cherry Pectoral. If he says, "The best thing for colds," then take it. Do as he says, anyway.

BOYCOTT ON MEAT

People Throughout East Combine to Bring Down Prices.

SWEAR OFF FOR 30 TO 60 DAYS

Women's Clubs, Labor Unions, City Councils, Churches, Etc., Join Against Beef Trust.

Chicago, Jan. 22.—Westward the meat boycott makes its way, gathering momentum as it passes. The "no meat" propaganda started in Cleveland has spread as far west as Denver and promises to project its influence to the Pacific coast.

Labor unions and federations, church organizations, women's clubs, city councils and even state departments of justice in the west are lined up in the fight against what is generally believed to be an intolerably high plane of prices for table foods. The feeling was intensified tonight when the announcement came from Washington that the federal department of justice was planning to proceed against the beef packers.

Dispatches tonight from Kansas City, St. Louis, Pittsburg, Milwaukee, St. Joseph, Memphis, Omaha, Montgomery, Detroit and other cities tell of the spread of the anti-meat campaign and of the pitch of indignation to which the masses are aroused.

If the prospects painted today in telegraphic dispatches are borne out by facts later, next week will see at least a million persons between the Allegheny and Rocky Mountains pledged to abstain from meat.

Advices from Kansas City are specific. The prediction is made there that 80,000 persons will join the anti-meat movement. Labor leaders are active, enthusiastic and effective in their efforts. The Carmen's union, with 300 members, voted today to abstain from flesh food for a month. The Allied Printing Trades council, representing 5500, the Building Trades council, and the Industrial Trades council, representing 13,000 members of 99 crafts, have called meetings with the avowed purpose of advancing the boycott cause.

"Assist in the movement to decrease the price of meats." A long list of vegetable dishes followed.

Omaha is taking up the same question. Des Moines citizens are freely signing petitions urging abstention. Word comes from the south that Memphis, Nashville and Baltimore are not only talking boycott, but are acting a bit. Baltimore has adopted a motion bearing the legend "I don't buy meat; do you?" This follows a resolution by the Federation of Labor endorsing the boycott.

The St. Louis Women's Trade Union league is discussing the subject, and petitions circulated by women advocating the abolishment of meat from all tables are being numerously signed. Ohio towns constitute a stronghold for the crusade. The Canton Central Labor union has adopted a strong resolution. In Cleveland the effect of the movement already is seen in a reduction of 15 cents per 100 pounds in beef prices. Eggs are down. Pork, however, shows no decline.

New England apparently is ignoring the movement, but in New York there is evidence of activity. Scores of laboring men and others are making pledges to abstain from meat for 30 days, while many others are only eating meat once a day.

ANTELOPE FEED ON HAY.

Sheridan, Wyo., Jan. 22.—Stock men in this section are still alarmed over the shortage of feed due to the prolonged unfavorable weather.

Heavy losses are reported in some districts, many sheep having died because the owners could not get food for them. Losses aggregating 20,000 head have been reported.

An additional cause for apprehension is felt among the stockmasters of the Powder river country, about 90 miles southeast of Sheridan, where 200 head of antelopes suddenly appeared this morning and took possession of the ranch of John Cooper on the middle fork of Powder river, between Kaycee and Sussex.

Nicaragua Is Torn Anew.

Managua, Jan. 22.—The Madrid government has ordered the arrest of all Conservative leaders in Managua, Granada, Masaya and Rivas. The discovery of a widespread conspiracy against the Madrid regime is given as the reason. Two Managua leaders, Benjamin Elizondo and Fernando Solerino, were the first Conservatives to be arrested here. Wholesale arrests are expected at once in Granada. The issue is now clearly defined. It is war to the death between the Liberals and the Conservatives.

Billboard Firm Loses.

Tacoma, Wash., Jan. 22.—Superior Judge Shaekleford today denied the petition of Foster & Kleiser for a writ of mandamus to compel City Building Inspector Trust to grant a permit for the erection of a billboard on Puyallup avenue. The court sustained the demurrer of the city attorney sustaining the validity of the new six-foot bill board ordinance. The petitioners contended that the city ordinance limiting the height of bill boards to six feet was invalid.

Revenues Receipts Grow.

Washington, Jan. 22.—Internal revenue receipts for the current fiscal year continue to show a marked increase over the fiscal year ended June 30, 1909. December receipts amounted to \$24,340,193, an increase of \$2,045,462 over December, 1908.

AVIATION MEET CLOSES.

Curtiss Wins Speed Contest; Paulhan Height and Endurance.

Aviation Field, Los Angeles, Jan. 21.—As dusk gathered over the old Dominguez ranch tonight four flying machines that had been circling in the air in rivalry of the meadowlarks that for so many centuries have held dominion there, settled softly to earth. The masters of the newest air craft walked to their tents, the great crowd filed down the roadway, and the first international aviation meet ever held in America was over.

All was peaceful and but few knew that one man had been near death in those last few minutes. Charles K. Hamilton was returning from a 15-mile flight toward the ocean, and while a mile from the aviation field the propeller shaft of his machine snapped. To ship it would have meant a helpless drift upon the sea. To the aeroplane it means so little that no one in the crowd noticed anything wrong. Hamilton shut off his engine and leveled and swayed his planes that he was wafted gently down, touching with scarcely a thud. It was the best piece of emergency handling of a machine that has been seen at the meet.

Curtiss and Paulhan—the great rivals of the meet—furnished the excitement for the closing day. Paulhan went up at 3:25 o'clock for an endurance flight. After he had gone two or three laps of the course, Curtiss started on a ten-lap speed trial, half a lap, or more than three-fourths of a mile behind Paulhan. Instantly it was seen that a great race was on—the first real race of the ten days.

The two airships, full power on, came over the grandstand with the speed of express trains. Curtiss, it was plain, was gaining. He crept swiftly on Paulhan's heels, and on the third lap after starting he reached Paulhan, flying above. The Frenchman for a few seconds held his own, then Curtiss, in his American machine, forged ahead by a nose, a length, and finally by half a lap. It was no race after that. The American machine was demonstrated as the faster beyond question.

As Curtiss rushed over Paulhan he received the greatest applause that any of his efforts have evoked. Paulhan went on until he had traveled 64.4 miles and had been in the air nearly an hour and a half. Curtiss came down after a 30-mile trip.

This race gives the whole story of the meet. The Curtiss machines have won all the prizes for speed, quick starts, perfect landings, and those events where a light, swift machine showed best.

Paulhan has won all the cross-country, passenger-carrying and endurance tests, having a heavier, slower machine and an engine which he trusts completely. Paulhan has taken more than \$15,000 in prizes, and has broken the world's records for altitude and for cross-country flights, alone and with a passenger.

A medal presentation took place after this, then Paulhan went upon his endurance flight. The French machine never seemed to run so smoothly. M. E. Cleary, Paulhan's distinctly English manager, was filled with emotion. He broke out as follows:

"Look at her! There she goes! Watch the turn when the sun glints the white planes! Isn't it mystical—something above men? By George—like a magnificent albatross after a thunderstorm. Now it's lost on the turn! It's great!"

THE REASON WHY.

The Boy—Have you caught anything, sir?
The Angler—No, not yet, my lad.
The Boy—Ah, I thought not. There weren't no water in that pond till it rained last night.—Leslie's Weekly.
