### A Peculiar Picture.

In one of the German picture galleries is a painting called "Cloudland." It hangs at the end of a long gallery, and at first sight it looks like a huge, repulsive daub of confused color without form or comeliness. As you walk toward it the picture begins to take shape. It proves to be a mass of exquisite little cherub faces like those at the head of the canvas in Raphael's "Madonna San Sisto." When you come close to the picture you see only an innumerable company of little angels and cherubim.
