A Carlyle Retort.
An empty headed duke once said to Thomas Carlyle at a dinner:
"The British people, sir, can afford to laugh at theories."
Carlyle, scowling, replied:
"The French nobility of a hundred years ago thought that they could afford to laugh at theorists too. But a man came and wrote a book called 'The Social Contract.' This man was Jean Jacques Rousseau, and his book was a theory and nothing but a theory. The nobles could laugh at his theory, but their skins went to bind the second edition of the book."

No Appetite

"I took H. O.'s Sarsaparilla when I was a very sick woman, had no appetite whatever, and could not sleep more than three hours a night. I was persuaded by a friend to try it, took two bottles of it, and it greatly benefited me, gave me a good appetite and sound sleep." Mrs. John Edens, 2229 W. 3rd St., Davenport, Iowa.

Hood's Sarsaparilla restores the appetite and makes sleep sound and refreshing by building up the whole system. It purifies the blood, strengthens the nerves, aids and perfects digestion. Take it this spring. Get it today in usual liquid form or tablets called Sarsatals. 100 Doses One Dollar.

A Skillful Aviator.

"Are you interested in these aviators?"
"Intensely. I watched one this morning who was an adept. He rose, dipped, circled, turned corners and alighted without trouble and without a mishap."
"Well, well! He must have been a bird!"
"He was; of the sparrow variety."—Washington Herald.

Military Rats.

An old military dictionary tells us that rats were sometimes used in war for the purpose of firing powder magazines by means of lighted matches tied to their tails. We cannot offhand recall any historical instance of this, but presumably it did occur, seeing that Marshal Vauban laid down special rules for counteracting it. Anyhow the dodge is as old as Samson, who, you may recall, used foxes in a similar way for a somewhat similar purpose.

As to the royal rat catcher, we may add that he had a special official livery. According to Pennant's "British Zoology," it consisted of a scarlet costume, embroidered with yellow worsted, in which were figures of mice destroying wheat sheaves. By the way, rats were not the only animals honored with a special catcher. Leicester, for instance, used to pay a yearly salary of £1 11s 6d to its municipal mole catcher.—London Standard.

Another Form of It.

Visitor—Come here, my dear; whose pretty little girl are you?
Housemaid—Sh, Mrs. James! The courts 'aven't decided yet.

Standardizing His Gratitude.

Wareham Long—What'd you say of Rockefeller wuz to give you a million dollars?
Tuftold Knutt—Tanks! — Chicago Tribune.

Thought He Had.

Speaking of the boycott of beef have you ever tried horse meat?
"O, yes, I presume so, and goat meat, too, I dare say. I've eaten in all sorts of restaurants."

Johnny's Mistake.

Against his little playmate's breast. By her "I dare you" goaded, He pressed the pistol—ah, you've guessed?
You're wrong! IT WASN'T LOADED!

Striking an Average.

"Glycerine McCurdy, I love you!"
"Orlando Spoonamore, I hate you!"
"Well, then," he sighed, forlornly, "I suppose we'll have to compromise on platonic friendship."—Chicago Tribune.

In His Mind.

"Old chap, where are you going for your vacation?"
"All over the country. In fact, I'm taking it now—reading summer resort literature."

Will Get It.

"You should insist," said the doctor, "on your boy's accustoming himself to cold baths."
"I don't have to insist," answered the worried father. "He'll be out skating before the ice is an eighth of an inch thick."—Washington Star.

Easily Answered.

The teacher had written a difficult problem on the blackboard.
"Now, children," she said, "what is the first thing to do with this?"
"Erase it!" shouted the bad little boy on the front seat.

How Would You Appreciate \$1518 in One Year on an Investment of \$325?

If it is possible to frame up an absolutely safe, sane and conservative investment, and at the same time give the investor big returns on his money, we have found it—read the following and judge for yourself.

No chance to lose, and you cannot help making a big profit. Here is our story:

Last week a client of ours read our advertisement for lands for colonization purposes. He thought he had what we wanted and came to see us. He brought with him a description of 6036 acres. It reads as follows:

Situated in a level valley, 40 miles wide and 90 miles long, completely fenced, 640 acres under plow, 3500 in hay and 1896 acres virgin soil, completely equipped for irrigation, all main ditches completed and lateral ditches sufficient to irrigate every acre except the virgin land, and the virgin land for a cost not exceeding \$25 each 40. The owner has a perpetual and exclusive water right; sufficient supply of water to irrigate the entire 6036 acres, and a surplus sufficient to supply another tract equally as large.

The property is ready for subdivision.

The proposition looked so good to us that we took a 30 days option at \$50 per acre, including water rights.

OUR PROPOSITION.

We propose to form a syndicate to buy this land, and immediately thereafter to put it on the market.

IT IS NOW PROPOSED

To organize a Purchasing Syndicate with capital stock of \$301,800. This capital stock to be represented by 100 units of the par value of \$3,018; that the Union Bank & Trust Co. shall have the management of the syndicate, cause the title of the property to be placed in the name of the Union Bank & Trust Company as trustee, and at once take the necessary steps to subdivide the land into tracts of 40 acres each; to sell the 40-acre tracts at \$4,000 each, payable \$800 down, \$800 in one year, \$800 in two years, \$800 in three years, and \$800 in four years.
