

A FEW REASONS WHY WE ASK YOUR TRADE

1st. Because our line of General Merchandise is as a whole the most comprehensive shown in this county; and is better adapted to your requirements than others for it was selected with the experience acquired in supplying the local trade for twenty years.

2nd. Because this experience has demonstrated the fact that only the better qualities are acceptable to you, and that poor quality at any price does not appeal to you. We therefore eliminate the cheaper grades from our purchases, and offer in every item the quality which we can and do guarantee satisfactory.

3d. Because with us your money is as good as your neighbors and you are entitled to the same price on the same terms and quantities purchased, and the same way with your produce in the same kind and quality. Therefore no discrimination.

4th. Because our discount for cash is a fair one between the cash and credit customers, and practically based on the interest rate for use of money. One gains the discount, the other the time, and in either case the goods cost but 95 cents on the dollar on the basis of 5 per cent discount, or six month's time; which on a majority of your purchases is just that much less than the amount asked you by the houses selling only for cash, and cutting a few prices only on the many thousand items you have to purchase. We therefore submit to you our claim of having the lowest average price on your requirements.

5th. Because we furnish you the most goods for the money, when quality and price are considered, and while we do not claim our price to be lower on every item, yet one could purchase a bill from us with his eyes shut and the price would average lower than from any other source in this market; and why?

6th. Because our methods and policies are adopted after careful consideration of the interest of our patrons as well as our own, and with the view of building a larger and better business each year by better service and lower prices. The anticipated results of these reciprocal measures have been more than realized by the marked growth of our business; resulting in a much larger outlet for merchandise and consequently placing us in a better position to hammer down the price when we buy.

In proof of our claims we refer to the following prices which are figured as the actual cost to you, based either on our cash discount or the benefit of time given on account. These prices in a great measure we have offered since the railroad reached Enterprise; with some gradual reductions which our facilities have made possible, even under the condition of an upward tendency in the general cost of production so apparent to every one. In submitting this list we have not only taken a few, but many of the goods required, and on which the merchant must necessarily make a profit to justify carrying on a business.

Space here prohibits a more extensive list of prices, but these fairly represent some of the money saving opportunities we offer, and we believe they will correct the possible erroneous idea in the minds of some that because we accommodate with credit, our prices must necessarily be higher than those quoted by others who refuse this favor. Soliciting your patronage on the merits of our goods and prices; with the desire to better serve you, and each year become a more important factor in the distribution of merchandise, and the development of Enterprise and Wallowa County, we are yours respectfully,

Stock Sales in Portland.

Blooded horses and cattle will be put on sale April 26-30 at Portland. Registered Shorthorns go on sale Tuesday, April 26, and the two following days will be taken up by sales of harness and draft horses from the Northwest and a few from the East. There will be one carload of registered Shetlands. On Friday, April 29, the Holstein herd of the Gearhart Park farm will be sold. There will be 50 head of these cattle.

The Imperial Window Glass Company, incorporated in West Virginia, and 16 officials and directors were indicted by a special Federal grand jury on three counts. The indictment charges conspiracy in the restraint of the hand-blown window glass trade in the United States; engagement in illegal competition and an attempt to monopolize interstate trade.

Oregon Trunk to Klamath.

Bids have been asked for grading on the Oregon Trunk south from Madras to the north line of the Klamath Falls Indian reservation, a distance of 111 miles. It is expected to have the work started May 1 and to have the grading completed by next January. The line will cross Opal Prairie, Juniper Butte, the Redmond and Rosland irrigated districts and will probably soon be extended to Klamath Falls as the indicated terminus is not a desirable one.

POINTS REGARDING THE CENSUS.

The census begins April 15 and must be completed in two weeks in cities and in thirty days in all other areas.

The enumerators will wear a badge inscribed "United States Census, 1910."

The law requires every adult person to furnish the prescribed information, but also provides that it shall be treated confidentially, so that no injury can come to any person from answering the questions.

The President has issued a proclamation, calling on all citizens to cooperate with the Census and assuring them that it has nothing to do with taxation, army or jury service, compulsory school attendance, regulation of immigration, or enforcement of any law, and that no one can be injured by answering the inquiries.

It is of the utmost importance that the census of population and agriculture in this state be complete and correct.

Therefore every person should promptly, accurately, and completely answer the Census questions asked by the enumerators.

Faker Bros. are having their bigivery barn repainted.

Gordon Martin is building a cottage home in the northeast part of town.

Prof. Sweetser, head of the biological department at the University of Oregon, will deliver a lecture at the high school, Wednesday night, April 20.

Locating the Obstruction.

These misadjustments and contractions are sometimes quite pronounced, as in the case of a spinal curvature; but more usually they are not in themselves very noticeable and can be detected only by the eye and hand of one especially skilled in this work. So that a considerable part of the usefulness of the Osteopath lies in his ability to locate these mechanical obstructions—and to recognize them as the real causes of the malady.

He knows that they are the causes—not only because he has been taught so during his long course in an Osteopathic college, but because he has himself conquered disease of almost every character by restoring perfect structural adjustments. He is not experimenting or working blindly, but is proceeding along a course that is made plain to him by acquired experience.—Right Way.

Umpqua to Be Surveyed.

ROSEBURG.—Senator Jonathan Bourne has notified the Roseburg Commercial Club that he has secured the adoption of a resolution for the survey of the Umpqua River from Scottsburg to Roseburg, as asked for in a resolution passed by the club a few months ago. This survey is for the purpose of determining the feasibility of improving the stream so as to make it navigable for steamboat traffic.
