Enterprise-Joseph Game.
1 2 3 4 5 6 7 8 9—R H E
Enterprise 1 2 1 1 0 0 1 0 2—8 12 2
Joseph 0 0 0 0 0 0 0 0 0—0 3 8
Batteries: Bilyeu and Bauer, Enterprise; Holgarth, Hardin and Galbraith, Joseph. Hits off Holgarth and Hardin, 12; off Bilyeu, 3.

The game Sunday between Enterprise and Joseph on the Joseph grounds resulted in eight runs for the local team and a shut-out for Joseph. The Enterprise team got down to the brass tacks of baseball playing right at the start. Bilyeu and Bauer, the Enterprise battery, held the Joseph heavy hitters to pop-ups and flies which were eagerly pulled down by the in field and out field of Enterprise who clamored for more. The way the Enterprise team feasted on the Joseph boys was a caution, and the latter seemed unable to break the Nemesis of base ball defeat which seemed to hang over them like a pall from start to finish.

It would be difficult to feature the game played by Enterprise. Every man on the team did splendid, clock-like and fast work. Both fields were on the job, alert and hungry for action, every second of the game. But clean-cut playing characterized all the team, and when the game ended Enterprise had Joseph hopelessly shut out and a score of 8 to 0 gladden the hearts of the fans.

Next Game Sunday.
The return game with Joseph will be played here next Sunday. Appropos of this game, Manager Bilyeu of the local team handed in the following signed communication for publication:

"Enterprise, Oregon, May 18, 1910.
"Editor Enterprise Press,

"Dear Sir: In the coming game of ball next Sunday, no boisterous talk nor swearing nor ribaldry will be tolerated on the ground. Those persons who get full of booze and become boisterous will be turned over to the police immediately, and good order will be maintained throughout the game.

"Very truly yours,
"C. G. BILYEU."

Excellent Precaution.
This precaution taken by the baseball management is an excellent one, and it is enough thus to forewarn

any one so disposed to cause trouble, that quiet and order will be maintained by police force if necessary. It is universally commented on that the baseball fan who must depend on a bottle of whiskey for his enthusiasm is not a first-class fan, anyway.

Elgin-LaGrande Game.
1 2 3 4 5 6 7 8 9—R H
Elgin 2 0 3 1 3 0 7 5 3—24 16
LaGrande 0 0 2 0 0 0 0 2 0—4 7
Batteries: Aubin and Holgarth, Elgin; Brown and Starcher, LaGrande.

The game between LaGrande and Elgin, at La Grande, caught the latter team somewhat out of "form" and Elgin jerked 24 large, juicy runs away from the contestants, giving LaGrande 4. A return game will be played between the same teams Sunday at Elgin.

The opening of the four-team league starts off with considerable interest and good ball playing at least on the part of Enterprise—but the season is young and all the teams are known to be on the job constantly. Some excellent playing is looked for as the season advances. Good attendance is certain to follow good order, and the league management is determined to maintain good order during the entire season.

Improvement League In Many Matters

Will Ask to Ascertain if the Local Cemetery Can Be Purchased.

The Improvement League at the meeting held last week at the home of the secretary, Mrs. B. B. Boyd, discussed ways and means for beautifying the cemetery. Mrs. C. H. Zurcher, Mrs. C. E. Funk and Mrs. J. F. Pace were appointed a committee to confer with A. M. Wagner and see if the cemetery can be purchased. This committee will also ask Mr. Wagner's permission to do work there tending to place the grounds in order for decoration day.

A committee consisting of Mrs. Sheets, Mrs. Fosner, Mrs. Law and Mrs. Rodgers was appointed to meet with a committee from the Library association to discuss plans for a dinner or tea to be given May 30.

Will Contest Last City Election

S. D. KETNER PREPARING FOR THE "FRAY" BY SECURING LEGAL COUNSEL.

As a result of the recent city election and the issuing of election certificates as found in another column under council proceedings, S. D. Ketner, who was declared elected in place of A. M. Wagner, by the city council, will contest the election. As was stated at the time, the city council declared S. D. Ketner elected to the council in place of A. M. Wagner, whereas the election judges had declared by their count A. M. Wagner elected. The council then refrained from issuing election certificates, until such certificates were demanded issued to J. A. Burleigh, F. S. Ashley, A. M. Wagner, C. M. Lockwood, T. M. Dill and Fred Savage. Mr. Ketner's contest arises out of this situation.

BUILDING IS BEING RUSHED BY CONTRACTOR.

The new business block being erected by F. S. Ashley is being rushed as rapidly as the weather will permit. The plans were drawn up by W. A. Rigdon and Sam Harworth secured the contract on bid. The new building will afford a commodious home for the furniture stock and the undertaking rooms of Mr. Ashley, and its erection again indicates the steady, persistent growth of Enterprise.

112,000 POUNDS OF WALLOWA PORK

FAT ANIMALS FIT FOR STOCK SHOW SHIPPED TO SEATTLE LAST WEEK.

It would have made the Illinois corn-belt farmer green with envy to have witnessed the shipment of five cars of hogs from Enterprise, Wednesday of last week. The cars contained some 90 head or by actual count 448 head in total. They weighed an average of 250 pounds each, making a total shipping weight of 112,000 pounds.

From North Country.
The porkers came from the north precincts of the county—from up around Flora and that neighborhood, where they raise corn as well as the smaller grains, and fatten hogs easily. Where wide range is at hand and the development of the great American pig is assisted by all nature.

There was just one distinguishing fact about these hogs: They were all fat. There were no "scrubs" among them. They had hams that seemed to run entirely to the feet and jowls that were the prototype of plenty. And they brought a top-notch price in the market.

Mr. C. F. Walker purchased the shipment of Hotchkiss & Combes. All the hogs, it is understood, came from the following persons, up in and about Flora: Cole brothers, W. B. Fordice, J. H. Fordice, E. B. Carter, G. M. Cannon, Martin & Shurman, and Wm. Murrill. With the development of transportation facilities, all Wallowa county is showing the world what a large population she can feed and clothe. This will increase as the county is settled and the land now crying for cultivation increases the production of the county. Raising food stuffs out of the soil, sending it away and getting good hard coin in return, and putting the coin in banks and in local improvements—this is what Wallowa county is engaged in doing. Come to Wallowa county.

GAME WARDEN CLEMONS CALLS AT ENTERPRISE

Joe Clemons, game warden for Union and Wallowa counties, was in Enterprise Tuesday. In conversation he stated that the gates at the hatchery on the Minam river had been raised, and that fish had free access now to ascend the streams. This is the second or third time Joe has caused the gates to be raised, much to the gratification of those who desire to fish in this portion of the county. He had just returned from the hatchery. Riding every day and inspecting every niche and cranny of the two counties, Joe's statement comes with authority when he says that this section of Oregon has some of the finest fishing streams of any in the west.

Former Resident Dies in Kansas

Charles L. Gally Succumbs to Serious Shock Resulting From Expulsion.

Charles L. Gally, at one time a most successful and widely loved resident of Enterprise, died at Sterling, Kansas, May 10. The body was interred in the cemetery at that place.

The death of Mr. Gally was the direct result of an accident which occurred some three weeks ago. He continued his profession of dentist in Sterling, as when here. Several weeks ago while working over his vulcanizer it exploded, injuring him about the face and head. He never recovered from the severe shock.

Mr. Gally leaves in and around Enterprise a wide number of personal friends who knew him while here. In addition he leaves to mourn him the following relatives: Mrs. L. A. Gally, the mother, of Sterling, Kan.; W. E. Gally, a brother, of Anaconda, Mont.; Mrs. L. O. Hoffman of Price, Utah; Mrs. F. F. McCully, of Joseph; George M. Gally, a brother, engaged with the E. M. & M. company of his city; and Misses Clara F. Gally and Elma Gally, both of Sterling.

THE OSTEOPATHIC PRIMER.

What a "Lesion" is.
Growing out of this common sense reasoning, osteopaths have come to adopt the technical term "lesion" as representing any departure from the normal of the body's tissues. That lesion or part of the human machine which is out of its natural position and relationship constitutes a "lesion."

Ordinarily it refers to a disordered locality in the body, yet as bad habits or even improper mental states may likewise cause sickness, in a broader sense the term is also used by osteopaths to mean, the first cause, the starting point, of a chain of disordered functions.

All diseased states may be defined in simple terms such as disturbances of the bony framework of the body, or a disturbance of the nerve supply of the parts affected, or a disturbance to the blood supply of some locality, or an abuse of functioning, or improper mental activity or bad sanitation and hygiene—which latter promptly comes back to mean some abuse of function. These are the simples which underlie disease, the termination and correction of which spell "cure."

Nature wants us each to have good health, is trying to give it to us all the time. Some of these errors come about and interfere with Nature's plans. The osteopathic way is to find out what has gone awry in the machine and correct it. Nature does the rest.

Osteopathy is the only system of therapeutics which pays attention to the diagnosis of hidden lesions. It is the only system which corrects such lesions and thereby puts the human machine in good mechanical order.—Osteopathic Health.
