THE NEW YORK PRESS SAYS

Osteopathy, the drugless science in medicine, is only about 10 years old. The word is not even in the Century Dictionary, edition of 1896. Its practice is going hand in hand with bloodless surgery, so in time we may expect to be cured without pills and without the knife.

Some principles are: "Health means perfect physical adjustment of all parts;" "health is natural; disease and death, between the time of birth and old age, are unnatural."

"All bodily disorders are the result of mechanical obstruction to the free circulation of vital fluids and forces." The characteristic generalization of Osteopathy in a nutshell is: "Most diseases of spinal origin."

If you wish to learn whether Osteopathy can accomplish something for you or for one of your friends, take the sensible course and go to the Osteopath. He will tell you, after a careful examination, what is the matter with you and just how he can benefit you.

Three From Here At State Assembly

Hockett, Hyatt and Miller Represent
Wallowa County Convention
Republicans.

Dr. C. T. Hockett, G. W. Hyatt and A. C. Miller returned Saturday from Portland, where they attended the Republican assembly as delegates. Being the only ones present from Wallowa, they cast the full 18 votes allotted to this county, voting them all for Bowerman for governor.

Mr. Hockett says it was a great meeting, and everything was harmonious. No other candidate for governor except Bowerman had a ghost of a show, as the Condon man had gone out early and secured the votes.

The convention took great pleasure in turning down Harvey Scott's nephew, Dunlavy, for state printer. Clarke, editor of the Gervals Star, was nominated for that office. That was practically the only deviation from the slate.

Several of the joint-county districts took advantage of the occasion and made nominations, but none was made by the Wallowa and Union delegates. The latter asked the Wallowa delegates to name someone for representative and Dr. Hockett was proposed, but he vetoed the suggestion because a larger representation of our county was not present.

CEMENT WALKS ON MAIN AND RIVER

AT SPECIAL SESSION COUNCIL
ORDERS PERMANENT WALKS
WITHIN 60 DAYS.

At a special meeting of the city council Monday night, the recorder was directed to notify property owners on both sides of Main street between East First and West Second hose on the west side of River street between Main and the E. M. M. Co's mill flume, and around the court house, to put in cement sidewalks within 60 days in accordance with city ordinance.

The recorder is also to notify County Surveyor H. E. Merryman to at once fix the grades of the streets and walks in the above district.

The vote on the cement sidewalks was: Yes—Ashley, Combes, Funk, Hockett. Absent—Keltner.

Marshal Hug was directed to assist Surveyor Merryman.

The recorder was directed to move the city books and furniture to the room in the court house that will be used in the future as a council chamber, and to buy the necessary table and chairs.

The order for the immediate putting in of cement sidewalks caused quite a stir along Main and River streets, Tuesday.

Several of the ardent property owners were indignant and one or two flatly said they would not obey the order.

Most of the owners are in accord with the order as many were already making arrangements to build.

Grouse Fruit and Corn Crops Fire

Long Spell of Dry Weather, However, is Bound to Injure
Spring Grain.

Grouse, July 16—The weather continues hot and dry, the mercury going from 90 to 100 for the last 10 days. Harvesting is in full blast on all the bench lands, while on the higher Grouse flats the crops are later and suffering from the continuous dry season. The crop is said to be under the average. The fruit crop is heavy and in fine condition. The corn crop is in fine condition, and with a few showers of rain the yield will be good, while if the dry weather continues through August the crop will be short.

D. A. Silver has the lumber for the Troy mill house all ready to be hauled on the mill site and ready for construction. The work will be commenced at an early date and proceeded forward as rapidly as possible to completion.

The railroad survey up and down the Grande Ronde river is progressing slowly. It will be several weeks yet before the corps of engineers meet.

The hotel at Troy is crowded. There are eleven regular boarders including the bridge men and a number of visitors daily. Here we are looking forward to a rapid development of this part of Wallowa county. We have the soil and climate with the grandest water power and timber resources of any section of the state. While we have so many natural advantages still we are far behind in the way of public roads. The first roads that are laid out usually are inadequate in any new

section. That is the present condition of this part of the county. As other improvements advance, however, our roads must also advance. The road supervisor said he could not keep the road in good repair three miles from Troy with the \$100 at his command.

The telephone line from Grouse to Anantone is now complete with the exceptions of a switchboard at Grouse which will soon be installed.

ROADBED OF BRANCH LINE WILL BE IMPROVED

Ross Newport, superintendent of the Newport construction company, has the recently awarded contract for widening and otherwise improving the roadbed of the O. R. & N. branch line from Elgin to Wallowa. The construction crew and camp have been placed on the ground at Elgin and work has begun. All cuts between the two stations will be widened to afford a clearance from the track of 25 feet.

County Court Gives Instructions

Orders Road Supervisors to Thoroughly Inspect All Road
Bridges.

The county court took up the matter of bridge inspection by the various county road supervisors, last Monday. The matter called for special consideration owing to the accident which last week befell Charles J. Shine at a road bridge across Bear Creek. Mr. Shine was hauling a log over the bridge when the latter gave way, precipitating the man and load to the bottom of the creek. Mr. Shine claims that he sustained the fracture of several ribs and other injuries, and calls upon the county for settlement. The county court heard the matter upon the arrival of Mr. Shine Monday evening. Settlement was made with Mr. Shine for \$50. The affair caused the county court to issue the following instructions of the road supervisors which will appear in detail in the official court proceedings:

In the matter of having all road supervisors to examine all county bridges within their road district:

Now at this time the court considers the matter of having all road supervisors examine the bridges within their road district to determine whether the same is safe for public travel, and after the court fully considering the same, it is hereby considered and ordered that each road supervisor shall inspect each county bridge within his district to determine whether the same is safe for public travel and if he should find any not safe he shall place a sign on the bridge reading as follows: "Dangerous: Cross at your own risk."

Signed: County Judge,
County Commissioners.

Just about now

AS we get along toward midsummer in the clothing business, we begin to look forward to the coming fall; the new goods are ordered for you for fall and winter; and that means that we ought to clean up our spring and summer stocks and dispose of all the goods we have on hand.

Now, that means that we must offer some sort of extra inducement to you to come in and buy; an inducement that will make it worth while to buy, even if you've already bought summer clothes; you'll never have more than enough of our kind.

Hart Schaffner & Marx

clothes are always bargains at the prices we ask for them; they're worth the money; the value is in them. That makes a reduced price all the more attractive on such clothes; it's like finding money.
