Won't Need a Crutch.

When Editor J. P. Sossman, of Cornelius, N. C., bruised his leg badly, it started an ugly sore. Many salves and ointments proved worthless. Then Bucklen's Arnica Salve healed it thoroughly. Nothing is so prompt and sure for ulcers, boils, burns, bruises, cuts, corns, sores, pimples, eczema or piles. 25c at all druggists.

Hairs Upon Horses' Lips.

The fine hairs about the mouth of the horse are organs of touch of extreme delicacy. They serve to a certain extent the same purpose as our finger ends, the whiskers of the cat or the trunk of the elephant. Sensitiveness is due to specially developed endings of nerves in the skin, which are continually sending messages to the brain. The lip hairs of the horse first receive the stimulus, which is communicated to the end organs and so passes on to the brain. They come into play when the horse samples a new article of food. He first smells it and, having so far satisfied himself, touches it delicately with those sensitive hairs. The upper lip moves softly in quick sympathy and confirms the opinion suggested by the hairs. The tongue judges finally as to the fitness of the food. When the horse wishes to drink these hairs assure him that the water is free from foreign matter on the surface, for he drinks from the surface only. They detect the smallest particle of dirt and guide him to the purest place.

Took All His Money.

Often all a man earns goes to doctors or for medicines, to cure a stomach, liver or kidney trouble that Dr. King's New Life Pills would quickly cure at slight cost. Best for dyspepsia, indigestion, biliousness, constipation, jaundice, malaria and debility. 25c at all druggists.

Managing the Weather.

It may safely be said that control of the weather by sorcerers was altogether disbelieved in by very few persons in the sixteenth century. But if the belief was held more strongly along one coast line than another it was around the Baltic rather than elsewhere. As late as 1670 a traveler tells us how, being becalmed off Finland, the captain sent ashore to buy a wind from a wizard. The fee was 10 kroner (say 36 shillings) and a pound of tobacco. The wizard tied a woolen rag with three knots in it to the mast. Untying the first knot produces just the wind they want, southwest. That slackening, untying knot No. 2 revives it for a time, but knot No. 3 brings up a fearful northeaster, which nearly sinks them. "Qui nescit orare, discat navigare," was a much quoted phrase. True enough of one traveler, it would appear, seeing he is reported to have prayed during a storm: "O Lord, I am no common beggar. I do not trouble thee every day, for I never prayed to thee before, and if it please thee to deliver me this once I will never pray to thee again as long as I live."—Atlantic Monthly.

Saved From Awful Peril.

"I never felt so near my grave," writes Lewis Chamblin, of Manchester, Ohio, R. R. No. 3, "as when a frightful cough and lung trouble pulled me down to 115 pounds in spite of many remedies and the best doctors. And that I am alive today is due solely to Dr. King's New Discovery, which completely cured me. Now I weigh 160 pounds and can work hard. It also cured my four children of croup." Infallible for coughs and colds, its the most certain remedy for la grippe, asthma, desperate lung trouble and all bronchial affections, 50c and $1.00. A trial bottle free. Guaranteed by all drugists.

Drives away Flies, Mosquitoes and Gnats. It protects horses and cattle from attacks of insects, enabling them to feed and sleep in peace. It prevents loss of weight and strength from worry caused by attacks of insects, and from the irritation of their bites and stings. There is a satisfaction in the relief it affords domestic animals from the scourge of maddening parasites and flies, besides the profit in returns. Horses do more work on less feed and, cows yield more and better milk when relieved from the frenzy incited by constantly fighting a swarm of voracious, insatiable insects.

Four sizes, 25c, 50c, 75c and $1.25. Ask your merchant for it.

NEWS PARAGRAPHS FROM OTHER CITIES IN OREGON

Fines aggregating a total of $925 were paid in the justice court at Gardiner by three "bootleggers."

The Commercial Club of Springfield is preparing for the "coming of the railroads celebration" to be held there August 18, 19 and 20.

The first permanent laying of steel on the Southern Pacific Company's Natron-Klamath Falls cutoff began last week when 350 feet of 90-pound steel rails were placed.

A fire which has been burning in the timber between North Bend and Marshfield for the past week is becoming somewhat alarming for several of the residents of Marshfield Heights, an addition which has not been entirely cleared and which contains a number of scattering houses. The flames are coming uncomfortably near to the houses.

In response to inquiries from Adjutant-General Finzer, of the Oregon national guard, Attorney-General Crawford gave an opinion that the governor of the state can permit a provisional naval service, subject to the action of the legislature. Neither the commander-in-chief nor any of the officers, however, can create indebtedness which will be an obligation for the state to pay.

The lumber mill of the Johnson Lumber Company, near Coquille, was totally destroyed by fire and with it the electric light plant which furnished light for both Coquille and Myrtle Point, four residences and five carloads of lumber on the track of Coos Bay, Roseburg & Eastern road were consumed, and over 200 feet of trestle of the railroad was burned, cutting off rail communication with Myrtle Point.

Judge Galloway in circuit court held that the attorney-general had exceeded his jurisdiction in withdrawing the original ballot title of the employes' indemnity commission initiative measure, as filed with the secretary of state, and in finding a new title in lieu thereof. Under a statutory provision the holding of the circuit court is final in appeals of this nature and consequently the ballot title will stand as originally prepared.

The proofreading has been completed on 1918 pages of the codes and statutes of Oregon, being compiled under the direction of ex-Governor William P. Lord, under an act of the legislature of 1909. The first volume has been printed and the more than half of the second volume is off the presses. The present compilation, Bellinger & Cotton's statutes, contains altogether 7608 sections in the new code, while there are but 5797 in the present compilation.

Six counties have agreed to meet the expense of an exhaustive road building test which is to be made in western Oregon by Professor H. M. Parks, of the Oregon Agricultural college. These counties are Linn, Clackamas, Marion, Benton, Tillamook and Multnomah. It is Professor Parks' purpose to make a geological test of all rock of western Oregon so that he may gain an accurate idea how much roadbuilding material is available, where it is to be found, and what will be the cost of transporting. He will issue his information in pamphlet form when gained.

Be sure and take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with you when starting on your trip this summer. It cannot be obtained on board the trains or steamers.
