DEMONSTRATION OF TUBERCULIN TESTS

WILL BE GIVEN BY STATE VETERINARY AT HARVEST FESTIVAL.

Portland, Aug. 16 - Portland's Harvest Festival, September 5-10, will have no end of amusements features and quantities of blooded livestock in view, together with stirring races by the best trotting, pacing and running stock to be had, but perhaps the most interesting feature on the grounds to many who will attend will be the demonstration of tuberculin tests for dairy cows to be given by Dr. W. H. Lytle, state veterinary. Animals with tuberculosis will be given the tests and their value explained in a lecture. The animals will be slaughtered and the evidence of tubercular conditions shown and discussed. This is expected to be a great attraction for large numbers of dairymen and others interested.

That field peas should be grown on the big acreage of summer fallow in Eastern Oregon each year is the opinion of experts. There is profit in the practice, while the fertility of the soil is increased and weeds kept down. H. Grebe, a wheat grower of Combs, finds he makes more off his peas, acre for acre, than from his wheat, and wheat sown on the same land the following year produces one-third more than land merely summer fallowed and allowed to lie idle. Hogs grow fat on the peas, adding enormously to the wealth of the grain growing sections of the northwest.

Eight big ocean steamers and one sailing vessel were in the Willamette river on August 9, loading Oregon products for various ports across the sea, in addition to the usual number of coasting vessels, one of the most formidable fleets fleets to assemble in a Pacific Northwest port for months. The combined cargoes amount to 23,000,000 feet of Oregon fir, together with miscellaneous freight, and destinations include Hong Kong, New Zealand, Manila, Shanghai, Australia and other oriental ports.

President Stevens of the Oregon Trunk Line, the Hill road up the Deschutes, announces that his company will build south to a connection with the Pacific & Eastern, reaching out from Medford. This will give the Hill system a main trunk

line down through central Oregon, from which will spring lateral branches into nearby productive territory.

DEATH OF A. PRICE THURSDAY IN PORTLAND

A telegram was received Thursday announcing the death in Portland that morning of A. Price of this city.

Mr. and Mrs. Price left Enterprise Wednesday morning for Portland where Mr. Price was to receive medical treatment. His death must have occurred soon after their arrival in that city. According to his wish the remains will be cremated, the services being held in Portland.

Mr. Price was for a number of years in the meat market business here, but was forced to retire because of falling health. His many friends here are saddened by the news of his death.

Fall Sown Wheat Makes Fine Yield

Heavy Fruit Crop of Fine Quality - Capitalists Buying Timber - Hopes of Railroad.

Grouse, Aug. 13 - The dry weather continues and the farmers are busy in the harvest fields taking care of their wheat, barley, oats, etc. The fall sown wheat is making a fine yield, while the spring sown is barely short of an average crop owing to the continuous dry season. Corn and garden vegetables of all varieties are under an average. The fruit crop is heavy and of a fine quality.

The timber of this county seems to be attracting the attention of eastern capitalists, as they have agents buying and contracting for all the timber that they can find for sale.

The rail road surveys up and down the Grande Ronde river will soon connect near the mouth of Grouse Creek. The people of the Grouse country are greatly enthused over the railroad question as the prospect is very flattering at present.

The Troy bridge will soon be completed. The concrete pillars are finished, the foundation across the river all in place and the steel is being put up as rapidly as possible.

Silver Brothers are progressing nicely with the new mill at Troy. The frame is up and the rustic on the outside is near completion.

D. A. Silver and T. H. Valen are out on a business trip to Lewiston.

Mrs. B. F. Mallory is on the sick list, and has been for some time. Dr. Gilmore of Flora has charge of the case.

Rev. D. F. Lillard is arranging matters to go east soon. The whole community regret his departure. He is a polished speaker and stands high among the people where ever he preaches. It is a shame for the people to not rally to his support and keep him in the west where such men are needed. Like all other professions he must have support or look out for a new field.

The postoffice inspector has been knocking the rust off the postmasters in the north end of Wallowa county. It is all right to have them cleaned up once or twice a year so as to make the machinery run smooth these dry, hot days. We are always pleased to have them visit us as we always get some good information if we only ask a few questions relative to the postoffice work.

The Expense of a Wife.

A wife is a decided addition to the demands upon one's purse. In that sense, however sensible and managing she may be, she is expensive. But everything worth having has its price of one sort or another, and there are some things which cost much without which life is hardly worth living.

Said Thiers: "Most men contemplate making some self denial when they marry. They think they will give up such and such expensive pleasures. Later on, when they discover that they cannot do so, and at the same time they lack the means to indulge, they complain that it is the extravagance of their wives which causes the inconvenience."

The Simple Diet.

There is a certain banker and broker doing business not a hundred miles from the bank, says a London weekly, whose health for some time has not been all that he could desire. Not long ago he was complaining to his brother, when the latter after a careful survey of his brother's countenance said:

"What you need, old man, is plain country food. Come to my place in the country and we'll soon set you up. This rich food is proving too much for you. Take breakfast, for instance. All I have is two cups of coffee, a bit of steak with a baked potato, some light muffins or a stack of buttered toast, together with a bit of water-cress or lettuce. What do you have?"

For a moment the city banker gazed in hearty admiration at his brother.

"A cup of hot water and two slices of dry toast," he replied soberly. "But, Jim, if you think a simple diet like yours will 'set me up,' why, I'm perfectly willing to try it."

OUTSIDE STOCKMEN ARE INTERESTED

WALLOWA COUNTY FAIR ATTRACTS INTEREST OF MANY ELSEWHERE.

Not only the stockmen of Wallowa county but those from surrounding points are manifesting a desire to be represented in the exhibit during the Wallowa County Fair, beginning September 26.

This is encouraging to the management of the Fair. Not only this, but the general interest, through the county, apparently taken by practically every resident, adds to the encouragement of the men having direct charge of the fifth annual exhibit.

One matter that has attracted wide interest, and merited so, is the care taken by the management to interest the girls and boys of the county in various contests. In each of these competitions the premium offered is sufficient to give any young lady or gentleman a neat sum of money.

What is now very pertinent to the success of the Fair is that everybody in the county, whether able to make an exhibit or not, should make the Fair a topic of daily conversation; to devise plans by which the management may reach the interest of all; and to keep the enthusiasm among the people stirred as it is at present.

INSTRUCTORS GIVEN THANKS OF TEACHERS.

The following resolutions were unanimously adopted by the teachers in attendance at the summer normal recently closed in this city, and shows that the efforts of Superintendent Conley and Prof. Smith were highly appreciated.

We, the teachers in Normal School assembled, desire to extend to our instructors, Supt. Conley and Prof. Smith, our thanks for their many acts of kindness toward us, and the patience with which they have labored with us during the past five weeks.

In confirmation of the above, we herewith affix our signatures this 9th day of August, 1910.
