**SHEAHAN AND COOLEY  
NEW LAW FIRM'S STYLE.**

Attorney D. W. Sheahan of this city has taken into partnership A. S. Cooley, lately of Wallowa. Mr. Cooley has moved to Enterprise and is now delving into the books and work in the Sheahan offices on West Main street. He is a young man who has already gained a reputation for being well grounded in the law, of being a careful counselor and successful trial lawyer. He is a man of high character and he and his estimable wife are sure of a cordial welcome here.

The senior member of the firm, Mr. Sheahan, is too well known all over this and adjoining counties to require an introduction. His enviable fame as a safe counselor and great success in general practice has brought him a large and lucrative business, so large indeed as to necessitate his securing help, and he believes he has chosen wisely in associating Mr. Cooley with him.

Can locate man on good homestead 7 miles from Enterprise, 60 acres good plow land, all in body. Plenty of water. Daniel Boyd.

Oakes carries a full line of Lowe Brothers' Paints. 108ft

**HOT LAKE MAKES  
SICK PEOPLE WELL****LARGEST SANATORIUM IN  
NORTHWEST DESCRIBED—  
DAIRY HERDS.**

Hot Lake, Sept. 22—We have all heard of sanatoriums, but few of us really appreciate just all that is meant by the term. Even after we have been made to understand that it is a place where sick people are restored to their proper health, unless we have had an

the dignity of a sanatorium in the true sense of the word.

The Hot Lake Sanatorium represents the acme of modern science so far as an institution of healing is concerned. It is replete with every appliance and equipment that scientific experience has found to be useful in caring for the sick. The sanatorium building is of modern design, 600 feet long and three stories high. The bath house is connected with the main building, therefore patients never leave the building and consequently run no risk of taking cold after bathing. The Hot Lake Sanatorium is so named because of the fact that it is situated on the bank of a steaming lake that is formed by the waters of the mammoth boiling spring

opportunity to visit a sanatorium and become familiar with such an institution, are apt to take a great deal for granted and place the sanatorium in the ordinary hospital class, losing sight of the real significance.

In order that readers may have a correct idea of what a modern sanatorium is, the following description of the Hot Lake Sanatorium is published as it offers a really interesting article and at the same time places readers in possession of facts sufficient to enable them to determine the qualifications necessary to an institution before it arises to

that daily flows nearly three million gallons of highly mineralized water at a temperature of 208 degrees. The water from this spring not only furnishes the bath with water and heat, but also heats the entire sanatorium building. This spring has long been known to contain curative properties, and under expert medical supervision the cures effected are truly wonderful. Nearly a score of trained assistants look after the patients in the bath house and every attention is accorded the bathers possible. Here, as else-

**REAL ESTATE DEALS  
MADE IN GROSSMAN****WILLIAM STACE SELLS FORTY  
FOR \$800 — JOHN LYON  
TRADES HOMESTEAD.**

Promise, Sept. 18—Wm. Stace has sold the forty he has been living on since he bought it a few years ago of Henry Thomson. There is scarcely any timber on it but it is good land with considerable under cultivation and a good young orchard. A man from Pomeroy, Wash bought the place and expects to make a fruit ranch of it. Mr. Stace will give possession soon and move again on his homestead which adjoins the 40 he sold. The consideration was \$800, and the buyer told him when the deal was closed he would have given \$1000 for it just as quick if he had asked it.

Mrs. Clemens had the misfortune to lose another horse recently. She lost one about a year ago.

P. C. Henderson has returned from Freewater where he attended camp meeting. He reports himself "satisfied," not only with the meeting but with his woodland home.

Mr. Stace hurt his hand quite seriously lately and as blood poison was threatening, Mr. Petersen took him out to the doctor's last week.

John Lyon has traded his homestead for Andy Petersen's 40 of well improved land, considerable of which is in fruit and grass. Mr. Lyon gets also the furniture, farm implements and horses beside \$200 in cash. Mr. Petersen expects to be in the valley this winter and perhaps make a trip to New Mexico.

Japalac, varnish stains, unseed oil at Burnaugh & Mayfield's.

**FARMERS ARBITRATE.**

During the dry spell, Mr. Kiefer, who lives on the Bridwell farm near Lostine, was burning brush. The fire got beyond control and burned some trees in Mr. Avery's orchard. The damage was recently settled by arbitration, Mr. Avery receiving \$165 for his trees that bears a lawsuit.

**Offers to Ride Any Horse.**

The fair board has engaged L. W. Minor of Wallowa, the noted broncho buster, and his dare-devil riding will be an additional attraction Thursday, Friday and Saturday afternoons. He offers to ride any horse.

**Much Interest In  
Singing Contest****Big Event of School Children's Day  
Will Prove the Popular  
Hit.**

Saturday is school children's day at the fair and the largest crowd of the entire week will be present. All the regular attractions will be repeated, the auction sales, high dive, broncho busting, racing, and in addition the girls' riding contest, high school football game, and above all the singing contest.

Everybody likes to hear a little girl sing, and everybody and his cousins are going to be on the ground when the contest for the \$10 first prize, offered by the Enterprise Real Estate company, and \$5 second and \$2.50 third prizes are decided. The contest is open to any girl 12 years of age or younger, who is a member of a Wallowa county Sunday school.

There will be a record breaking crowd in Enterprise that day.

**BIG ADDITION TO  
ENTERPRISE MILL****NEW AND COSTLY MACHINERY  
BEING ADDED ALSO  
BY E. M. & M. CO.**

A large addition is being added to the east end of the E. M. & M. Co. flouring mill and two new machines are being installed.

The addition is 24x40 feet in size and is two stories, or 22 feet high. It will be used for additional bin room and storage, with a capacity of 21,120 cubical feet. T. E. Hudson is in charge of the building operations, with Fred Calvin as assistant.

The new machinery includes an up-to-date scouring machine, and the latest improved pattern of the Missing Link. The latter is a machine for working the granules, making the grade of flour more uniform. Few country mills are equipped with this splendid machine, but the proprietors of the Enterprise mill never spare expense when it comes to equipment that will still further improve its output.

The E. M. & M. mill today is a model and is easily the leading mill in this part of the state in equipment as well as quality of its product.

**100 HEAD OF HOG STOCK  
AT PUBLIC AUCTION.**

We will sell at public sale in Wallowa on Saturday, Oct. 8, 100 head of high class Duroc Jersey breeding stock, also a few extra good Poland China sows.

No better lot will be sold in Wallowa county this fall. Sample of our stock will be on exhibition at the fair in Enterprise. 42a3 C. Murdock & Son.
