Sold by Burnaugh & Mayfield and all good druggists.

Irritation and Pain. A sharp distinction should be drawn between irritation and pain. Irritation is not pain, but only a frequent cause of it. Thus a crumb lodged in the larynx near the vocal cords produces violent irritation and prolonged coughing, which often results in actual pain. So, too, a speck of dust in the eye sets up violent irritation and inflammation, followed by acute pain. Of the surface of the body the finger tips and the end of the tongue are most sensitive—for instance, a burn on the fingers is much more painful than one on the back would be, while one on the tongue would be more painful still. Deep wounds are not painful, as a rule, save as regards the surface injury.

"It Beats All." This is quoted from a letter of M. Stockwell, of Hannibal, Mo. "I recently used Foley's Honey and Tar for the first time. To say I am pleased does not half express my feelings. It beats all the remedies I ever used. I contracted a bad cold and was threatened with pneumonia. The first doses gave great relief and one bottle completely cured me." Contains no opiates. Burnaugh & Mayfield.

The forty odd candidates for county offices in the various counties of the state who violated the primary law by failing to file their expense accounts within the legal time of ten days after the election, and who were actually nominated, need not fear that the county auditors can keep their names off the official ballot for the general election. This point was settled absolutely by the state supreme court in an opinion rendered in the case of Hiram G. Fuller, republican candidate for treasurer in Lincoln county, against Ira N. Corey, county auditor.

For More than Three Decades. Foley's Honey and Tar has been a household favorite for coughs, colds, and ailments of the throat, chest and lungs. Contains no opiates. Burnaugh & Mayfield.

DO YOU WANT YOUR TAXES INCREASED?

One of the Results of County Division Would Be to Make Assessments Larger.

Many people in Oregon own property in different parts of the state. Nearly every property owner, in one way and another, would be affected if the county division scheme is not voted down. One of the results of the scheme would be to increase the people's taxes; in some cases, taxes would be doubled. But the people will be guided by sane judgment and will vote "No" to all these measures which, declares the Eugene Register, were foisted upon the public by professional politicians and ambitious little towns. That paper says editorially:

"Nine county division schemes are bidding for enactment under the initiative, in imitation of Hood River county's success two years ago, and the end is not yet. Here is direct legislation gone to seed and disseminating trouble through the fair expanse of Oregon, says the Oregonian.

"The latest is Deschutes county, presenting a petition to the secretary of state and asking to be carved out of the northwest part of Crook county. Umpqua, Williams and Nesmith, with overlapping boundaries, seek independence from Lane and Douglas counties. Umatilla county is wrestling with the ambitious schemes of Orchard and Hudson. Clark desires separation from Grant, Otis from Malheur and Harney. A strip of Clackamas seeks annexation to Multnomah.

"Politicians, office seekers and ambitious little towns are putting up these county partition schemes. More counties will provide additional official places and other patronage. They will also make higher taxes and more trouble for property owners.

"It is reaching a point in Oregon where the electorate will feel obliged to vote uniformly against all these new counties. The voters cannot inform themselves on the many local details involved, in order to legislate, therefore they are likely to take the view that their safest action will be that of voting "No" on the "whole bunch."

"The Oregonian's position on this matter is correct. It should add, however, that it is important for those who oppose this wholesale formation of new counties to be sure and vote as they feel about it, and put a "No" in front of each one or every proposed new county will carry. The people can put it up to the legislature to frame a fair and just division law that will leave formation of new counties to the territory thus affected and relieve the whole state of responsibility for county formations. This is what the people want and they will get it if they vote "No" on all proposed county schemes at the November election."

ABUSE OF THE INITIATIVE.

It is a gross abuse of the rights guaranteed by the Initiative and Referendum Amendment to the Oregon Constitution to bring up woman suffrage at every general election. This measure was submitted in 1900 and beaten by a plurality of 2137. In 1906 it was again proposed and was beaten by a majority of 10173. In 1908 it was again on the ballot and it was beaten by a majority of 21649. Notwithstanding these repeated defeats, more decisive at each election, the same measure is again on the ballot this year. The ballot title is misleading and indicates a proposal to give votes to taxpaying women only, but the measure to be voted on is the same proposition which the people have so often and so recently condemned. It should be voted down this year by an increased majority, especially because of the fraud undertaken to be perpetrated on the people by the use of a false and misleading title on the ballot.

DEFEAT COUNTY DIVISION.

(Albany Herald)

"There are no less than eight applications for the creation of new counties to be voted upon by the people of Oregon at this fall's election. Though there may be one or more of these new county schemes possessing some degree of merit and are prompted by good faith, it would appear that in the main they are not entitled to the favorable consideration of the people at large, and as a matter of expediency and good public policy all of them should be defeated.

"In the first place the Herald believes that the creation of a new county is a matter devolving upon the legislature and should not be submitted to a vote of the people at large, who cannot possibly have any intelligent idea of the demand for such proposed new counties and are, therefore, in no sense competent to vote upon the measure. What does the average voter of the northeastern part of the state know about the practicability or wisdom of the clamor of the southwestern portion of the state for the creation of a new county? Certainly, in the majority of cases, he would not be able to cast an intelligent vote on the proposition.

"The submission to a vote of the people of the whole state of these various county division schemes, therefore, would seem highly impracticable, if not unwise. Moreover, the success of these various division schemes would establish a bad precedent, which might tend to retard the healthy growth and reasonable prosperity of many counties of the state.

"There are doubtless counties in Oregon which should be divided into two separate county divisions, but these, the Herald believes, should be taken care of by the legislature and not voted upon by the people of the state at large, who cannot possibly judge of the merits or wisdom of the proposed division of a remote section of the state, and in which the voters at large can have no reasonable interest.

"Many of the county schemes up for consideration this fall are without question ill-advised and prompted by impure motives, and the Herald suggests a negative vote on all county measures as the most practical remedy for the present county division epidemic.

COUNTY DIVISION

Under the present laws in the opinion of eminent lawyers, counties can only be divided or boundaries changed by the vote of the people.

All laws should be obeyed. Some laws should be repealed or amended. The law creating new counties is unfair as voters are asked to create new counties where they cannot know the local conditions and might form a new county where four-fifths of the residents of the old county are opposed to it.

What do the voters of Clatsop know of the needs of Grant, Malheur, Crook, Umatilla, Douglas, Lane, Washington, Clackamas and Multnomah. They could vote just as intelligently for the county officers in these counties as for their division or the changing of the boundaries.

There is strong opposition to division in all the counties mentioned and it would seem to be but justice that these localities should settle their own local differences.

You will have the privilege of voting for a bill to leave the function of new counties and municipalities to the districts interested. As between man and man, would not this plan be the more equitable?

The average voter will certainly take this view of it. In all fairness now, will not your conscience and sense of right tell you to vote against all division and vote "Yes X 352," which will relieve you of the task of voting for measures with which you can not be familiar.

STATE PRESS AGAINST IT.

"The Nesmith county boosters, traveling in an automobile, were here this morning. The atmosphere being exceedingly chilly they soon moved on. Our people don't believe in county butchery to further the personal ends of a few schemers."—Roseburg Review.

"If all the voters of Oregon who are opposed to the proposed wholesale formation of new counties vote "No" at the November election, they will all be defeated, but if those opposed merely pass the county propositions up without voting on them at all, they will carry by the "Yes" votes cast for them. This is a fact that it would be well to remember on election day."—Eugene Register.

"There are seven new counties proposed, and may be more for us to vote on next November. Don't you think our taxes heavy enough at present without taking on this unnecessary additional expense? Look into this matter before voting time."—Echo Echoes.

INNUMERABLE BILLS CONFUSE THE VOTER

Numerous Division Measures Would Change State Map Beyond Recognition.

"Business men of Oregon will do well to take note of the innumerable county division bills for the consideration of the people next fall. Already so many division measures have been filed with the secretary of state that if half of them are adopted the map of Oregon will be so changed that it will not be recognized even by a native son," declares the Pendleton East Oregonian in its issue of July 25.

"Furthermore the indiscriminate creation of new counties cannot fail to increase taxation. This state cannot create ten new counties and provide for ten additional sets of county officers and hope to get along with present levies. The divisionists make assertions to the contrary. But that is 'campaign' talk. That same argument was advanced in favor of the creation of Hood River county. Yet E. A. Echiffler, a Pendleton tailor who owns property in Hood River, found his taxes increased 61.4 per cent the first year of the new county's existence. It is the history of every new county that division brings on increased taxation. This is only natural.

"Another feature of these division fights is the fact that division measures are sprung when the people residing in the proposed new counties do not want division at all. Take for instance the Orchard county scheme. Manifestly the people residing in the greater portion of that proposed county do not want division. Two of the four towns included in Orchard county are hotly opposed to the division. They are Weston and Athena. They have good reason for being opposed. Division will mean increased taxation and that business now held by Athena and Weston will be diverted to Walla Walla. Milton people imagine they will get that business. But they won't. Milton is practically a suburb of Walla Walla and such it will always remain. If Orchard county carries, that business will be lost to this state.

"The Orchard county measure was drafted in secret by a little clique of Milton business men. It is purely a selfish measure. Representative men living right in Milton and in Freewater are opposed to the proposition. In communications to this paper they have so declared themselves. Even the newspapers of Milton and Freewater have failed to take up with the proposition. Neither the Freewater Times or the Milton Eagle advocates the division measure editorially and this fact has caused much comment. The Weston Leader and the Athena Press have declared themselves as utterly opposed to division.

LET POPULATION INCREASE.

Counties Where Division Agitated too Sparingly Settled.

The Prineville Review sizes up the situation wisely when it says that the population in most of the counties where county division is being agitated is too small and scattering. Many of the districts are too sparsely settled to permit the scheme. Residents and property owners would be taxed so high that it would mean ruin to a large number. Wait until the counties have more people and the list of taxables warrant county division. advises the Review as follows:

"It would be unwise to make any sort of division of Crook County just now. It is too thinly settled yet. In due course of time, when the parent county shall have attained 25,000 or 30,000 and the list of taxables warrants it, division will be sure to come; it is inevitable. But it is not business sanity to divide a county of less than 10,000 souls, and a moment of sober reflection should convince any one of this. When the proper time arrives and a just county division law is enacted, the three cities most concerned, Madras, Redmond and Bend, all of which have division schemes in mind, can settle the matter between themselves. But so long as the whole state is required to vote upon a matter with which only a small part is even remotely concerned, we would advise electors to vote an emphatic NO, not only on the Deschutes proposition, but every other county bill."

NESMITH COUNTY.

"The idea of creating Nesmith county is commendable, but is the manner of creating it commendable. It is hoped that in time a Nesmith county will be formed, but it should be done in a way that would be approved by him if he were with us today. Just as well ask the people of Portland to vote for the county officers of Lane county, or the city officers of Eugene, as to vote to create Nesmith county and this applies as well to all the proposed new counties.

Capt. Bogardus Again Hits Bull's Eye

This world famous rifle shot who holds the championship record of 100 pigeons in 100 consecutive shots is living at Lincoln, Ill. Recently interviewed, he says:—"I suffered a long time with kidney and bladder trouble and used several well known kidney medicines all of which gave me no relief until I started taking Foley Kidney Pills. Before I used Foley Kidney Pills I had severe backaches and pains in my kidneys with suppression and a cloudy voiding. On arising in the morning I would get dull headaches. Now I have taken three bottles of Foley Kidney Pills and feel 100 per cent better. I am never bothered with my kidneys or bladder and again feel like my own self." Burnaugh & Mayfield.
