

It Pays To Be A Small Owner of Real Estate If You Can't Be A Large One

RECORD APPLE YIELD MADE

WALLA WALLA, Wash., Nov. 4.—(Special.)—One of the record apple yields of the Valley is that reported by E. O. Rader, of the State Line district, who has established what is believed to be a new mark for production.

Mr. Rader has 40 trees and they average 32 boxes to the tree. These apples are worth \$1.25 a box at the figure under the present market. The estimate of 50 cents a box for getting them ready for market leaves him 75 cents a box clear. This means \$24 a tree or nearly \$1000 for the 40.

Just as good yields, and many better ones, have been recorded in Wallowa County.

Valley View Orchard Acreage will be planted 50 trees to the acre, and pruned, trimmed and cultivated for three years for the present price per acre.

The closer to some good town and a good market the better. Land has made more wealthy men in Wallowa County than any other thing. Land is worth more around Enterprise than it was last year, and it will be worth more next year, and the next and the next. Such is the experience of every country. Many men can remember the time when the Sand Ridge or hill land in Grande Ronde Valley was considered worthless. Now the biggest and best apple orchards in Union county are on the Sand Ridge. Look what the people are doing on the hill or up-lands of Wallowa county. They are growing all kinds of fruit, even peaches, where a few years ago nothing but bunch grass grew. Go among the farmers on the hill land north of Enterprise and see what they are doing. Good apples are grown successfully in the Leap country, and in the Elk Mountain country. They are grown on Prairie Creek, on Alder Slope, and right in the town of Enterprise. Apple land, close to market, is the surest land to increase in value of any in the county.

THOUSANDS OF TREES

Shipments of thousands of trees are just now being received and delivered to the people of Wallowa county by the different nurseries. It is an established fact that this county will become a banner apple growing section of the Northwest. Skeptics who saw the exhibits at the late County Fair are now preparing to plant fruit trees. Those who wait will later be buying high priced orchards instead of having one of their own to sell or market the fruit from.

HOME RULE FARCE.

The voters for the Home Rule amendment are wondering who put up the job on them. The amendment purported, or it was vouched by the sponsors of the amendment, to give absolute control of the license and saloon questions to municipalities within their limits.

It does nothing of the kind.

Here are the final and vital clauses of the amendment: "and the exclusive power to license, regulate, control or to suppress or prohibit the sale of intoxicating liquors therein is vested in such municipality, but such municipality shall be subject to the provisions of the local option law of the State of Oregon."

Just read that last clause again and then tell us how a town in a dry county can become legally wet.

The leading lawyers of the local bar unhesitatingly say a town in a dry county (under the "local option law of the state") must be dry, no matter how much the town votes wet.

Prosecuting Attorney Ivanhoe is reported as saying there will be no legal saloons in Wallowa county until the Supreme court has passed on those clauses of the Home Rule amendment.

Continued on page 3, column 5.
