

COLLEGE TO FIGHT PESTS IN ORCHARDS

SIX O. A. C. STUDENTS TO BEGIN
WAR SOON ON FRUIT
DESTROYERS.

Corvallis, April 7.—A big campaign against the pests which destroy orchards in Oregon is to be started shortly by six experts from the state agricultural college, in accordance with the legislative bill providing funds for such work. Under the direction of Dean A. B. Cordley of the college of agriculture, Prof. C. I. Lewis of the horticultural department and Prof. H. S. Jackson of the entomology department, the college will establish division headquarters in the principal fruit centers of the state—Portland, Salem, Eugene, Roseburg, and perhaps Milton—and from there the investigations will extend over the entire state.

This is not the first work of the sort done by the college, though it is the first state-wide campaign against all kinds of pests. Many thousands of dollars have been saved the orchardmen of Oregon by the timely advice of the professors. The thirty-five acre apple orchard of Elsmann Brothers near Grants Pass was so badly diseased with anthracnose in 1901 that they were about to dig it up. Every tree was diseased with the fungus, and nearly half of the tops were dead or dying. The vitality of the orchard was so low that it did not produce enough apples to pay expenses. Though the owners worked hard cutting dead wood and dead spots, the fungus continued to gain on them. They tried a Bordeaux mixture spray suggested by Dean Cordley in the fall before the leaves were off, with immediate and pronounced benefit. Continued fall sprayings resulted in a production of 10,000 boxes of as fine, clean, healthy, four-tier apples, four years after, as could be produced anywhere in the United States. They sold 7,000 boxes of four-tier Yellow Newtowns and Spitzenburgs at \$1.50 a box, and 3,000 boxes of Ben Davis and Winesaps giving a gross receipt of \$15,250 from the orchard they had been ready to dig out.

William Heltwell of Yoncalla, Douglas county, had a similar experience with fall spraying for anthracnose, commonly known as "canker," "dead spot," or "black spot."

The protection of the rapidly increasing fruit districts of the state from such pests as are already attacking trees here, and from the introduction of new ones through import-

ed stock is the problem with which the college experts will wrestle. The details of the campaign have not all been completed, but will be ready for announcement shortly.

COUNTY CONVENTION OF MODERN WOODMEN.

Charles Thomas, O. H. Brady, J. M. Rodgers and David Steel, delegates from Eagle camp, attended the county convention of the Modern Woodmen at Joseph, Thursday. J. M. Rodgers of this city was chosen delegate to the state encampment that meets in Hood River May 3. Dr. H. L. Cummins of Joseph was chosen alternate. The next county convention in 1914 will be held at Enterprise.

The Modern Woodmen is the largest beneficiary order in the world. It has over a million members. There are four flourishing camps in this county, one each at Joseph, Enterprise, Wallowa and Flora. The great national camp that meets once in three years will be held this year at Buffalo, N. Y. Over 10,000 delegates and members will attend. Portland will try to secure the 1914 camp.

RAILROAD COMPANY ASKS PUBLIC ABOUT PASSENGER.

Assistant General Passenger Agent J. H. O'Neill was in town Friday on business for the O-W and took occasion to sound the patrons of the road on the subject of a daily round trip passenger service. He found everyone in favor of it, provided it was run so as to expedite and not retard the receipt of the Portland mail travel. If the passenger should leave La Grande at the same time as the mixed train does now, and return to La Grande in the evening it would be an ideal service. But if the train left La Grande in the morning, it would delay our mail six hours or more, possibly a full day. That would be worse than the old stage coach service.

Do Ghosts Haunt Swamps?
No, never. Its foolish to fear a fancied evil, when there are real and deadly perils to guard against in swamps and marshes, bayous and low lands. These are the malaria germs that cause ague, chills and fever, weakness, aches in the bones and muscles and may induce deadly typhoid. But Electric Bitters destroys and casts out these vicious germs from the blood. "Three bottles drove all the malaria from my system," wrote Wm. Fretwell, of Lucama, N. C., "and I've had fine health ever since." Use this safe, sure remedy only. 50c at all druggists.

Averts Awful Tragedy.
Timely advice given Mrs. C. Willoughby, of Marengo, Wis., (R. No. 1) prevented a dreadful tragedy and saved two lives. Doctors had said her frightful cough was a "consumption" cough and did little to help her. After many remedies failed, her aunt urged her to take Dr. King's New Discovery. "I have been using it for some time," she wrote, "and the awful cough has almost gone. It also saved my little boy when taken with a severe bronchial trouble." This matchless medicine has no equal for throat and lung troubles. Price 50c and \$1.00. Trial bottle free. Guaranteed by all druggists.
