

THERE'S a certain touch of smartness to Brandegee Kincaid & Co. Clothes," that clever dressers cannot overlook.

It doesn't make any difference where you happen to be, if you are clothed in these excellent garments you are beyond criticism.

In the village, in the city, in the metropolis or the country, their correctness cannot be questioned.

We can easily see how you might consider our conversation very lightly, but if you will inspect our clothes you'll appreciate the heaviness of every argument.

These clothes are not only smart as to their general lines; they are also made from fabrics which are very handsome and certainly very unusual.
