THREE FRUIT-SALADS.

A simple Banana Salad is made in this way: Remove one section of skin from each of five small selected bananas. Take out fruit, scrape and cut fruit from one banana in thin slices. Cut fruit from other bananas in one-half inch cubes and marinate with a French dressing. Refill skins with cubes and garnish with slices of banana sprinkled generously with paprika. Stack around a mound of crisp lettuce-leaves.

Another excellent fruit salad is Colorado Salad. Wash both red and white cherries, remove the stems and stones, and cut in halves lengthwise. Remove the pulp from oranges. Remoce the skins from bananas, scrape with a silver knife, cut one-third inch slices and cut slices in cubes. Mix the fruits, using an equal quantity of each, and marinate with French dressing. Serve in nests of crisp lettuce leaves.

To make a delicious orange salad, cut three oranges in sections and free from seeds and membranes. Skin and seed white grapes. There should be three fourths of a cupful. Cut one third of a cupful of pecan nut meats in pieces. Mix ingredients and arrange on a bed of romaine. Pour over a dressing made as follows: Mix 4 tablespoonfuls of olive oil, one tablespoonful of orange juice, one half teaspoonful of vinegar, one teaspoonful of salt, one fourth of a teaspoonful of paprika, one eighth of a teaspoonful of pepper and one tablespoonful of finely chopped Roquefort cheese. Garnish salad with strips of red pepper. The dressing served on this salad is improved if allowed to stand in the ice box for a few hours.—Woman's Home Companion for May.

GIRLS COOK FOR GOVERNORS.

Governor West, ex-Governor Folk of Missouri, President W. J. Kerr of O. A. C., Pres W F. Gaskins of the Corvallis Commercial club, Dr. James Withycombe of the Experiment Station, Dean Cordley of the Agricultural college, Regent E. E. Wilson, and Prof. E. D. Ressler of the education department were served a luncheon in the model diningroom of the domestic science department of the O. A. C. at Corvallis, after Governor Folk's convocation address on April 12, the entire work of planning, cooking, and serving the meal being done by the girls in the advanced class in cookery.

WOULD BE HARD ON CONGRESSIONAL "STICKS."

From the Asotin Sentinel.

While the Sentinel has never been much of an admirer of Congressman Murdock of Kansas—and of course that does not cut any figure with the Congressman—nevertheless it cannot help but approve of the resolution introduced by that gentleman in congress this week wherein he proposes to block the printing of speeches in the Congressional Record, that have not been delivered. Heretofore it has been the custom, where a congressman desiring to appear favorably in the good graces of his people at home, but where congress was not willing to be bored with his address, on account of the obscureness of the congressman, to grant consent to the printing and publishing of the speech, as though it had been delivered. This done, the congressman could procure copies of his speech and mail to his constituency, and thus grow dishonestly in favor in his district. Murdock's resolution will expose and destroy this vain-glorious custom; and it ought to be done. There are too many sticks in congress, and perhaps always have been, and some of them from the West, too, that should not be bolstered up, when there is nothing to them to justify the bolstering. One term should be enough for such fellows.

WALLOWA COUNTY CATTLE.

Plato McNeill, from the Troy country, in Oregon, last Friday marketed ten head of three year old steers to the Inland Meat company at Lewiston, that were perhaps as fine stock as ever went out of the county, says last week's Asotin Sentinel. He kept them up for full two months and gave them all the corn he could possibly get into them, and after spending five days on the road in bringing these cattle out to the market, they carried an average weight of 1125 pounds each. Mr. McNeill received five cents per pound for them, but said he had expected to get better prices for them, but found all buyers practically full on beef cattle at this time.

A Gentle Method.

Little Edward had been visiting his uncle's ranch, where they were very much bothered by rats. When he came back, he started to school, where he received the information which he gave his grandma one day. He said:

"Grandma, do you know how to get rid of rats?"

"No, Edward. How?"

"Why, a soft answer turneth away rats."

CRAWFORD'S "DECISION."

From the Lostine Reporter.

The Attorney General A. M. Crawford has handed down a decision which says that the question of discontinuing or abolishing a county high school can be submitted to the voters of a county in the same manner as the question of establishing it was submitted. The entire text of the decision is too long for publication in our limited space.

Towns In Umatilla Getting Together

Will Hereafter Work For the Common Good—Madras Wants Land Office.

Portland, April 20—Umatilla county cities will work together for the common good to better advantage because of the enthusiastic rally held at Pendleton during the past week, when C. C. Chapman, secretary of the Oregon Development league, made an address and urged them to stand together. The same sentiment was brought out by other speakers and an era of better feeling among Umatilla communities may be said to have begun. It is a great county, raising 5,000,000 bushels of wheat, or 1 per cent of the crop of the United States, which is more than any other county grows. Fruit, too, is an important asset and now that the different towns are co-operating, with Pendleton building up the good will of the whole district, irrespective of distance from the county seat, it will be worth while to keep an eye on Umatilla, for you will see it grow.

The biggest month in colonization movements Oregon has ever had has just closed, bringing thousands of new citizens to the state. Favorable rates attracted people from all parts of the country who are valuable additions to the population. Every part of the state has profited by the heavy gain in new people. It is up to the older residents to make the newcomer feel at home for if they like this state they will induce their friends back home to come out also.

Madras wants a land office to handle the business that now goes to The Dalles or Lakeview from the vicinity of that town. With the settlement of Central Oregon and the many newcomers filing on land, there is business enough around Madras for such an institution and Senator Chamberlain has been asked to establish one there.

IN LATE WINTER AND EARLY SPRING

We seldom feel JUST RIGHT

At such a time KASPARILLA is the best and safest Blood Purifier, the most successful prescription for spring humors and such disorders of the blood as boils, pimples, pustules, blotches, sores and cutaneous eruptions. Kasparilla is admitted to be the best remedy for that lack of energy and the peculiar debility so prevalent during the close of winter and the opening of spring. For derangements of the digestive organs it is a natural corrective, operating directly upon the liver and alimentary canal, gently but persistently stimulating a healthy activity. Its beneficial influence extends, however, to every portion of the system, aiding in the processes of digestion and assimilation of food, promoting a wholesome, natural appetite, correcting sour stomach, bad breath, irregularities of the bowels, constipation and the long list of troubles directly traceable to those unwholesome conditions. Kasparilla dispels drowsiness, headache, backache and despondency due to inactivity of the liver, kidneys and digestive tract. It is a strengthening tonic of the highest value.
