**Gave Surprise Party**

A very pleasant surprise was given Bert Seymour last Saturday evening in the form of a party, the occasion being his 59th birthday. On returning from down town about 8:00 o'clock his wife sent him to the library for a parcel. The room was in darkness, and on entering the lights were switched on and about fifty pairs of eyes stared him in the face, of course he stared back and it was the common opinion his were the biggest. Having forgotten it was his birthday the surprise was complete.

The youth and beauty of Falls City was well represented, the only "old fellow" who got mixed with the boys" being Floyd Seymour.

A spelling match, a peanut contest and other exciting and youthful games were indulged in until a late hour, when refreshments were served, after which all departed for their homes in the best of spirits.

As a consequence of the party new ties, socks, handkerchiefs, etc., will be in evidence for the next year, at the end of which time, Bert says, they may do it again.

**COTTON LACKS BUYERS**

**GROWERS TOLD PEACE IS ONLY REMEDY FOR SITUATION.**

**Transportation Near Normal, but Mills of Europe Have No Men or Money for Manufactures.**

Washington, Sept. 3.—Restoration of peace in Europe is the only real remedy for the situation confronting the cotton growers, Representative Slayden, of Texas, told the House today.

"The trouble is not a lack of transportation," he said. "Traffic is now moving out of Galveston, New Orleans and Atlantic ports in a way that bids fair to force a return to normal shipping conditions soon. The trouble is a lack of buyers. European mills can not buy cotton until they have men and money to manufacture it. These can be secured only through the re-establishment of peace."

The House committee on agriculture filed its favorable report today on the proposed Federal supervised warehousing system for cotton, grain and other non-perishable agricultural products. The bill, a consolidation of two measures, will be pressed for action at this session.

"The dire situation confronting the cotton producers," the committee reported, "emphasize most strikingly the utter inadequacy of the present system of marketing standard farm crops. The essential weakness is lack of adequate storage facilities and their non-relation to the country's banking system."

The bill provides that uniform warehouse receipts will be issued on agricultural products stored in Government licensed warehouses.

The system is not compulsory, however, and does not interfere with the warehouse systems now organized under state or local authority.

**HOP CROP AND YARD EQUIPMENT ATTACHED**

Independence, Or., Aug. 31.—The hop crop of the Alluvial Farm Company, which is owned by M. and Conrad Krebs, is ready for harvesting, and 150 pickers were to have started work this morning, but the crop and the entire paraphernalia necessary to harvesting the hops have been attached by Sheriff John Grant. The Sheriff attached an auto truck, two new hop stoves for drying hops, hop baskets, burlap for bailing, Krebs Brothers' bank account at the Farmers' State Bank here, and all other personal property, under a judgment held by J. L. Hanna amounting to about \$2000 with costs. The pickers are now trying to secure employment at other yards, but as all other yards in this vicinity have engaged all the pickers they can handle, they meet with little success.
