How Will You Vote?

"I have no lamp to guide my footsteps save the lamp of experience." The above in substance was spoken by Patrick Henry, in his immortal appeal to his fellow burgesses to arise and fight back the tyranny that threatened their liberties. As it was then, so it now is the safest guide for the footsteps of men.

We need to trim that lamp in order to enable us to judge how to vote next month.

No one will dispute that the progress of our country was very slow for sixty years after the adoption of the Constitution. In all that time Democratic policies prevailed. It is true there was not much money in the country for there are but two ways through which a nation can accumulate money, one from precious metal mines, one from trade. Our mines were insignificant, what material we had to sell was nearly all cheap material. But in 1849 a great new opportunity was presented. Gold was discovered in California. By a wise law of the fathers, foreign ships were not permitted to trade between our home ports.

This gave the work of carrying to California 300,000 people, and of providing them with what they needed, to our eastern friends.

Every available ship was called into service. Old hulks that had

lain for years in the ooze of eastern harbors, were drawn out, repaired and loaded for California, and marvelous to relate, every one of them reached San Francisco bay.

New ships, larger, fleetier and more beautiful than the world had ever seen, were built until our sea tonnage exceeded that of Great Britain. To this California made a magnificent response. It shipped through public agencies \$50,000,000 in gold dust annually from 1850 to 1857, beside what was sent through private hands. It aggregated more gold than the Republic had ever possessed, and electrified business in every direction.

But suddenly, business in the eastern states collapsed, the banks suspended payment and for the first time in our country's history, skilled laborers were forced to eat the free soup of charity. Investigation showed two lamentable facts. One was that all the gold about \$50,000,000 had been sent abroad, and all the warehouses on our eastern coast were tuffed with foreign goods.

The country drooped for four years and the government could not unload its own seven per cent bonds at a 10 per cent discount.

Then came the great war for which unparalleled sums were needed. Congress passed the Morrill tariff law and at once, despite the war, business all over the north and west revived.

We all know the mighty progress that has gone on since, a progress that never halted save when "men ate the insane root which took away their reason," and silver was demonetized.

The policies that ruled for fifteen years prior to 1861, rule now. Under Republican rule the country has so expanded that the vast center of our country prevents the same immediate disaster that followed the last former adoption of that policy, but the same causes are bound to produce the same effect. Every voter should study that history until he finally realizes its full significance and when he does, his mind will be opened and he will declare that he would be untrue to himself, his family, his neighbor and his country to vote a Democratic ticket next month.—By Judge C. C. Goodwin, in Goodwin's Weekly.

The Department of Agriculture is always making some important discoveries. They have just discovered that syrup can be made from cider. Syrup from apples, like "Punkin" molasses has been known to the backwoods gentry for lo, these many generations, in fact, the memory of man runneth not to the contrary when punkin and apple molasses was not. Some of these Department experts should visit Arkansas and get some useful information.

"Young Bloods" who are in the habit of visiting hen roosts by moonlight should take the precaution to tie their hats on with a bailing wire so that should it become necessary to beat a hasty retreat you will not leave some incriminating evidence. Better cut it out boys; some of these old fellows are crack shots with squirrel rifles and they may pin the cross of your suspenders to your back.

RESENTS ACCUSATION

The Dallas Itemizer bitterly re-resents the charge of negligence made against the County Clerk by Bro. Cates of the Observer, calling it "Dirty Politics." It is quit natural for the politician to holler "foul" when dealt a solar-plexus when the short-comings of his friends are exposed. If Bro. Cates has made false statements it would have been an easy matter for the Itemizer to show the statements false instead of indulging in a tirade of personalities, (which the Itemizer abhors). The Observer has certainly thrown

down the gauntlet and its up to the Itemizer to prove accusations false or shut up.

A DANGEROUS PASTIME

The first question an honorable man asks when he sees a girl flirting is whether she is a respectable girl or not. You see it raises doubt at once. This being the case no modest girl can afford to indulge in this pastime among strangers. When the down is brushed from a peach the beauty is so marred it can never be restored, and so when a girl throws lightly aside that sweet and modest reserve so becoming a maiden, she loses her greatest charm and becomes rather common and cheap. Flirting may seem to the giddy, thoughtless girl to be wonderfully amusing, and she may even get an idea she is quite fascinating, but it is a degrading pastime and should be frowned upon by every young lady who has an ambition to be a worthy and charming woman.

If We Only Had the Nerve!

Last week we received an invitation to buy a bale of cotton, Say, Willibald, the way things are going we'll be lucky if we can buy a spool of cotton! Gee! If we only had the nerve! What we couldn't do! Had we been born with the rind of some people we know, here's what you would find on these pages from week to week!

"On account of the European War, the subscription price of this paper has been raised to \$5 per year, cash in advance.

"On account of the loss from import duties, advertising rates will be increased to 50 cents per inch. Effective at once.

"We are pained to announce that owing to the almost complete suspension of the importation of chemicals, obituary poems will cost you 10 cents a line hereafter.

"It being impossible to export prunes to Przemysl, notices of church suppers will be charged for at the rate of \$2 each and two tickets to the supper.

"Resulting from the suspension of regular shipping facilities between this town and Gulf of Obigosh, all pumpkins, apples, potatoes, corn, grapes, etc., brought to this office under the pretext of exhibition to the editor, will be seized as contraband of war.

"All persons found owing this paper more than a year's subscription will be shot as spies."

"THE OLD MAN."

Boys, when you speak of your father don't call him the "old man." Of course you are older now than when you were taught to call him "father." You are much smarter than you were then, you are much more manly looking your clothes fit you better, your hat has a modern shape and your hair is combed differently, in short, you are "flyer" than you were then. Your father has a last year's coat a two-year old hat and a vest of still older pattern. He can't write such an elegant note as you can and all that, but don't call him "old man." Call him "Father." For years he has been hustling around to get things together, he has been held to the thorny path of uphill industry, and the brightest half of his life has gone from him forever. He loves you, though he goes along without saying much about it, therefore be not so ungrateful.

Two-thirds of all petitions coming to Congress at this time deal with one side or the other of the prohibition question, and the dry petitions outnumber the wet seven to one.—Anti-Saloon League. (Paid Advertisement.)

FRED J. HOLMAN

Republican Nominee for
TREASURER OF POLK COUNTY

A full day's work and faithful service. Your vote is solicited.
(Paid Advertisement.)

C. R. CANFIELD

S. B. TAYLOR,

DEMOCRATIC CANDIDATE FOR
County Surveyor

I ask your support as one fully qualified for this office, by over fourteen years' experience in surveying and engineering work. Eight years active work of my profession in Polk County, during which time I have had charge of the surveying on the railroad for the Salem railroad bridge, the Willamette Valley Lumber Co. Railroad, the Portland Cement Co. Railroad, as well as doing a large amount of work for individuals. I am at present City Engineer of Dallas and believe that I can serve Polk County efficiently in the capacity of County Surveyor.

WHY DESTROY the INDUSTRIAL PROGRESS OF OREGON

That's what the so-called "Water Front" bills, Numbers 328 and 330 on the ballot, will do if passed at the November election.

Why make it impossible to build saw mills or any other industrial, labor-producing plants on the rivers and bays of Oregon?

That's what the passage of these bills will do.

Why cripple the development of our great timber resources; why cripple all future manufacturing in Oregon?

That's what will take place if the people vote "yes" on numbers 328 and 330.

Why lock up the thousands of acres of over-flow lands bordering upon the navigable waters of the State and its miles of water front for the benefit of "future generations;" why not let the present generation have some of the benefit from the use of these lands?

Industries of all kinds will be driven from Oregon and intending investors will turn their backs upon the State if these so-called "Water Front" bills become laws. That is why every man, woman and child in Oregon will be adversely affected if these bills are passed by the people in November.

Oregon needs outside capital to develop its great natural resources but we will drive it away if we pass Numbers 328 and 330 on the ballot at the November election.

If these so-called "Water Front" bills are passed by the people, a vast amount of property will be withdrawn from taxation in this State and this great burden will be thrown upon the rest of the taxable property, resulting in a heavy increase in everybody's taxes.

These bills are vicious; they are destructive of the very best interests of the State; they ought never to become laws.

The way to defeat them is to vote "NO" 329 and 331.
