The Business Man who stops his Advertising when times are dull discharges his best salesman.

To Advertise only when times are good, ceasing to Advertise when it begins to fall off, is the very same principle as applying grease to a wagon when it is running smoothly but refusing to grease it when the axles begin to dry.

Continuous, Truthful Advertising Pays. It always has paid, and it always will pay. It is the Principal Factor in every Business Success. But one Advertisement cannot bring lasting success, any more than one application of grease can last a machine its life time.

The Business Man who has learned the true meaning of Advertising considers his bills for such not an Expense, but an Investment.

At one time, Portland was no larger than Falls City; but it grew. When a stranger came to town in search of a location to engage in business did the people flock about him and say: Don't believe you can do any good here; more here now than we need? Oh no, they said nothing of the kind; but gave him the glad hand saying, Peace be unto you, abide with us. Thy interests shall be Our interests and together we shall become a Mighty people.

Falls City loses thousands of dollars of trade that rightly belongs to her merchants; not that they get goods cheaper elsewhere, but many people have a mania to go where there are lots of stores. A few more general stores would increase the volume of business to such an extent that all would prosper. Strangers would say: Falls City is a progressive berg; it has a great future and a good place to invest money.

Business men in different parts of the state have their eyes upon Falls City and are making inquiries. Let's bid them welcome.

### OREGON AND THE FERRIS BILL.

The Ferris bill that has passed the lower House of Congress and is now before the Senate proposes to give the Secretary of the Interior control of all power development within the state and part of the revenues from our water powers.

It is the extension of Pinchotism, and further conservation of the natural resources to hamper development of the great states of the northwest and keep them out of the manufacturing business.

Oregon has been covered with forest reserves, has been tied up in federal litigation over land grants, and is already hampered by conservation of its water powers, so that the state has not much to give away to the federal government.

Not one dollar in ten that is obtained from sale of public lands and conservation policies ever gets back into the state for reclamation purposes, and instead of extending Pinchotism the people are prevented from settling and developing the state and are crying out to be relieved from what we already have.

### KANSAS PLEADS FOR PEACE

Governor to Call Congress if Resolution Meets With Approval.

Topeka, Kan., Jan. 25.—Governor Arther Capper, of Kansas, will call a convention of the Governors of all the states and ten delegates from each state to discuss efforts to be made by the United States to bring about peace in Europe, if a resolution presented to the legislature by Senator Bailie Waggener is acted upon favorably.

The resolution directs the meeting to be held in St. Louis on April 5. It urges Congress to prohibit the furnishing of clothing, food, arms, ammunition, horses, mules and other war equipment to any foreign country engaged in war.

## UNCLE SAM FINDS JOBS FOR JOBLESS

Bureau For Unemployed Opened by Government.

### POSTMASTERS ARE AGENTS.

Carrying Out President Wilson's Idea, the Labor, Immigration and Agriculture Departments Lend Aid—Plan Tested and Found to Be Practical and Satisfactory.

Washington.—A national employment bureau reaching into every section of the United States has been put in operation by the department of labor, carrying out the suggestion of President Wilson in the Indianapolis speech for "a systematic method of helping the workmen of America."

Preliminary work for the bureau was completed by Commissioner Caminetti of the immigration bureau and instructions sent to the thousands of postmasters and rural mail carriers throughout the country and to nearly 200,000 field agents of the department of agriculture, who are co-operating with the labor department to bring the jobless man and the manless job together.

All agents of the immigration bureau also participate in the huge task, Mr. Caminetti said.

The general plan of the employment bureau was outlined by Mr. Caminetti as follows:

Notices are posted in all postoffices announcing that applications for work or workers will be received by the post-

COMMISSIONER ANTHONY CAMINETTI.

master, who will be supplied with forms to be filled out and forwarded to the labor department agent in charge of the zone in which the office is located. The distribution branch of the immigration service handles this part of the work, and to them also go the reports of the department of agriculture agents as to sections where help is needed in harvesting or other work. Applicants are then to be informed of the place where they can obtain work of the kind they seek and at the nearest point to them, the postal service acting as the distributing and collection agency for applications and replies throughout the transactions.

In announcing the readiness of the system, Commissioner Caminetti said the plan was not a mushroom growth, but the product of months of labor over details. Already, he said, it had been tried out in a small way, and the results had been most satisfactory. After the fire at Salem, Mass., last June, when nearly 4,000 factory operatives were thrown out of employment, the labor department succeeded in finding work for many of them.

### 'DEAF AND DUMB,' CRIES 'OH!'

Girl Asking Aims and Getting Them Steps on Electric Buzzer.

Brazil, Ind.—A deaf and dumb girl who represented herself to be from Danville, Ill., visited this city recently, soliciting charity. She carried a well worn document and several alleged sworn statements of officials of Danville that she was deaf and dumb and worthy of all charity which might be bestowed. She did well until she stepped on a doormat at the office of Dr. Robert Hawkins. The mat was equipped with an electric buzzer. The young lady was so startled by this buzzer that she jumped and shouted "Oh!"

Before the police could arrest her she had taken an interurban car for towns that have no buzzers under the doormats.
