ELECTRIC LIGHT FRANCHISE

The question of granting a franchise to the electric light company will soon come before the council. This is a matter that should be given careful consideration and not passed hurriedly. A franchise usually runs for a long term of years and any mistake in granting terms might prove to be a calamity. The average councilman knows but little regarding such matters and in good faith might do the wrong thing.

WILSON PROSPERITY ON THE WAY

That there were exactly 25 more hoboes on 11:57 south bound Southern Pacific train last night than there were passengers was the declaration this morning of Constable Catlin. "We decided to check up just for curiosity" said the constable. "The count disclosed the facts that there were fifty hoboes on top, along the sides and underneath the train, while there were only twentyfive passengers.—Albany Herald.

20,000 ACRES TO COLLEGE.

And a Mountain Peak to the Government Left by J. A. Battell.

Middlebury, Vt.—A tract of more than 20,000 acres of forest land in this state is bequeathed to Middlebury college, to be preserved as a forest park forever, under the will of the late Joseph H. Battell.

Mr. Battell, who was publisher of the Middlebury Register, was greatly interested in forest preservation and had been acquiring virgin timber lands for more than forty years.

A mountain in Lincoln and Warren, one of the highest peaks in the state, is given to the United States government.

The town of Middlebury receives two large tracts of land for park purposes and a fund of \$9,000 for park maintenance.

The lands bequeathed to the college lie along the crest of the Green mountains and extend into three counties and eight townships.

In addition the college will receive as a residuary bequest, at the expiration of a ten years' trust, the Battell block, a large business structure in the village; the Middlebury Register and a number of farms.

BELGIAN CHILDREN THANK AMERICANS

Twins Send Letter to President, Who Promptly Replies.

Washington.—An exchange of letters between President Wilson and two little Belgians in Brussels, in which the children thanked the president for food sent by Americans and the president expressed his appreciation of their gratitude, has been made known at the White House. The children, twins, nine years old, wrote:

Dear Mr. Wilson—Thank you very much for the good bread. The poor people in our villages were starving, for they have nothing to eat, but now that you have sent over to our dear little country a big provision of wheat, both rich and poor can live—thanks to the Americans. Best love and wishes from little

PUSSY DESPOELBERCH.
Pussy's brother added, "I join in with my sister in thanking you, too, for it is jolly good bread, enough to satisfy any schoolboy's hunger."

In reply the president sent this letter in his own handwriting:

My Dear Little Friends—Your letter touched me very deeply, and I thank you for it with all my heart. It makes me very happy to think that what generous Americans have done to relieve the hunger and distress in your country has brought you the help you needed and given you a little happiness in the midst of these terrible days of war. I hope that you will grow up to be strong to do the work that will have to be done in the days of peace that are coming. It would be a great pleasure to me if some day I might see you both when those happier times have come. Your sincere friend,
WOODROW WILSON.

SLIPPERS FOR HIS BURIAL.

Wanted Comfortable Footwear and Quilt in Coffin.

Los Angeles, Cal.—In case he was murdered \$5,000 was to be taken from his estate to aid in hunting his slayers. This was the provision E. F. Kellner, Arizona banker and pioneer, who died in Venice, Cal., made in his will.

In giving minute directions as to the method of his burial Kellner directed that a coffin be secured of copper from Globe, Ariz., where he resided many years; that he be dressed in a gray suit and comfortable slippers and covered with a quilt without decoration.

HAVE FLOWN 1,116,000 MILES

French Air Men in 10,000 Reconnoissances Have Lost Heavily.

Paris.—An official statement giving statistics concerning the aerial flights of the French air men during the eight months of the war says:

"Approximately 10,000 aerial reconnoissances have been made, amounting to 18,000 hours in the air. The distance covered has been 1,800,000 kilometers (over 1,116,000 miles).

"Unfortunately these results were not obtained without serious losses, which equal and sometimes even surpass other methods of warfare."

Rabbit Hunting on Firing Line.

London.—Officers of the British Fourth Dragoon guards have borrowed a pack of hunting dogs and between fights in Flanders hold hare chases.

LIVED FOUR YEARS AS A MAN.

Death of Massachusetts Woman Reveals Her Long Masquerade.

Springfield, Mass.—The death of Miss Florestine Albertine Beaudoin, whose body was found in Williamsett, revealed that she had lived disguised as a man for four years. She lived with her sister as "Albert Beaudoin" and worked in the paper mills of Holyoke. The only motive suggested for her long masquerade is that she could earn more as a man for the support of herself and her sister, who is a widow. Her death was due to heart trouble.

After her day's work in Holyoke she was loading a wagon with furniture from the house which she occupied with her sister. A policeman found her leaning against the wagon and asked the supposed "Albert Beaudoin" if he needed any help. The woman replied that she would be all right in a little while. Later she was found lying by the wagon, and she died soon after a physician arrived.

A Boost For Palermo, Cal.

Palermo is a city small,
Upon the Feather wide,
It has a levee tall,
Upon which beats the heavy tide.

It has of orchard land a bit,
And farming land galore,
And forests too, which make a hit,
With what people call the wild boar

It has a school,
Made of bricks so red,
The school is taught to the rule,
Of hickory stick so dead.

The children all go barefoot here,
The people are all very mild,
And drink no wine nor beer,
And all the pretty girls are very nicely styled.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.
