

RELIGIO-SCIENTIFIC SKETCHES ON HUMAN PROGRESS

THE FIRST DAY OR EPOCH

The Genesis account tells nothing about the formation of the Earth itself. It says, "In the beginning the Earth was—without form and void"—shapeless, empty. There were neither mountains nor valleys, trees nor shrubs, rivers nor oceans, but the Earth was. How long before that it had been created, is not stated. The account of the Days of Creation given in Genesis relates not to the construction of our globe, but to the ordering of it for human habitation.

There are various theories regarding its formation. We follow the one most closely harmonizing with the Bible. It is called the Vallian theory. It assumes that Saturn's rings and Jupiter's belts illustrate Earth's development as a planet.

The Earth was once molten, as indicated by the igneous rocks of the Azole period; so called by scientists, but not discussed in the Bible. When the Earth was molten, its water and minerals were thrown off a great distance in gaseous form. As these cooled and took shape, they constituted great rings at a distance from the Earth.

Gradually the motion of the rings became different from that of the Earth in proportion to the distance from the center of gravity. These rings of water and mineral gradually approaching the Earth would be kept off by centrifugal force, particularly strong at the equator. The "brooding" of Holy Energy developed a light, probably resembling the Aurora Borealis—not sunlight. The Sun did not appear until the Fourth Day.

"Let there be light! and there was light." Thus, briefly, is summed up the result of the 7,000 years, styled the First Day. Not that God's Word would not have been sufficient for any miracle, but because He prefers to work out His glorious designs along natural lines.—Genesis 1:3.

There are scientists who claim that the Earth still has one ring about it, an electrical ring which, falling, will in a few years destroy fermentation, microbes and parasites, and greatly assist plant and animal life.

SAVE THIS COUPON. IT IS WORTH FIVE CENTS.

No. 2

Send this coupon with eleven others from this paper, each bearing a different number, and 15 cents in stamps for packing and postage, to the INTERNATIONAL BIBLE STUDENTS ASSOCIATION, Dept. "Clean Up the Bowels and Keep Them Clean"

There are many remedies to be had for constipation, but the difficulty is to procure one that acts without violence. A remedy that does not perform by force what should be accomplished by persuasion is Dr. Miles' Laxative Tablets. After using them, Mr. N. A. Waddell, 315 Washington St., Waco, Tex., says:

"Almost all my life I have been troubled with constipation, and have tried many remedies, all of which seemed to cause pain without giving much relief. I finally tried Dr. Miles' Laxative Tablets and found them excellent. Their action is pleasant and mild, and their chocolate taste makes them easy to take. I am more than glad to recommend them."

"Clean up the bowels and keep them clean," is the advice of all physicians, because they realize the danger resulting from habitual constipation. Do not delay too long, but begin proper curative measures.

Dr. Miles' Laxative Tablets are a new remedy for this old complaint, and a great improvement over the cathartics you have been using in the past. They taste like candy and work like a charm. A trial will convince you.

Dr. Miles' Laxative Tablets are sold by all druggists, at 25 cents a box containing 25 doses. If not found satisfactory after trial, return the box to your druggist and he will return your money.

MILES MEDICAL CO., Elkhart, Ind.

USE PRINTED STATIONERY

If you do not want separate stationery for each member of the family, at least you should have the name of the head of your family on it.

If it is a private letter the printing heading could be just your name and below it the name of your town, thus:

James W. Andrews
Bath, Mo.

Then all members of the family could use it for their private correspondence.

The cost is no greater than you are continually paying for stationery when you buy it in small lots.

We make you low prices on lots of 250, 500 or 1000, with envelopes to match, and also printed.

You can have it either plain or fancy, and in single sheets or the fashionable fold, as you desire.

HERE'S THE WHY OF IT:

Fashion is inexorable in its decrees, and fashion has decreed that you have your name and postoffice address neatly printed on your stationery.

This does not apply alone to the business or professional man, but to every man and woman—or young man and young woman—who writes a letter.

Of course not every person obeys the dictates of fashion, but to be considered up-to-date you should do so.

It is but question of time when your printed stationery will be as much a part of your personal equipment as your hat or your tie.

It is better to lead than follow, for the being of a leader indicates that you have both character and initiative.

Neatly printed stationery is an assurance that your name will be correctly spelled, that there will be no mistake in your postoffice address, and that your mail will be returned to you in the event of its non-delivery.

Strangers to whom you may be writing will not be required to puzzle over your signature, or your address, and errors will be few.
