SATURDAY, APRIL 24, 1915

The allies are laboring under difficulties that the Germans do not have. The allies are a divided people and each nation will easily believe that the other fellow is not doing his part. The Germans are as one man and like the "bundle of sticks" will be difficult to break.

Japan's conduct with regard to the stranded cruiser in Turtle Bay, Lower California is reprehensible to say the least. It has been stuck in a mud bank ever since December, and it is said that they refused help to pull her out. The crew seem to be very comfortably and permanently quartered on land and no indication of moving soon. Japan is a treacherous nation and seems to be trying to get into trouble. She has made demands of China that have been refused and the indications are that she will try to force the issue. Not only does she look toward China with covetous eyes, but California and Mexico look good to her and it would be nothing strange if the cruiser sticking in the mud banks of lower California would result in something more than the United States has reckoned on.

After Judge Teal's Scalp

Wrought up over what he charged was a deliberate policy of discrimination on the part of the county court against the city of Dallas, Councilman Chas. Westover, at the meeting of the city council Monday evening, stated that, in his opinion, the time was ripe for a recall to be invoked on County Judge John B. Teal. He further intimated that he would be one of a number to circulate such a petition.—Dallas Itemizer.

It might not be premature at this time to discuss the advisability of celebrating the Fourth of July. The celebration last year was a very credible affair drawing large crowds from the country and near by towns. It was late before it was finally decided to celebrate and if we begin early the crowds will be greater. Falls City is the ideal spot to hold a picnic and but let the word go out that there will be a celebration and any nearby towns with incipient notions in that direction will gladly give way to Falls City.

COUNCIL MEETING

The city council met in regular session Tuesday night with Mayor Hubbard, Auditor Clement, Councilmen Hollowell, Brown, Titus and Gottfreid present. There was no business of special importance transacted. The committee selected to examine the electric light franchise and ordinances failed to report and as this is a matter of great importance and vital interest to the future of Falls City it was deferred for further consideration.

A report was had from the street committee in regard to the repairs begun on Dayton street bridge. After several days work some of the beams gave way and it was found that the bridge was in such a condition that it would not be profitable to repair it. A motion prevailed to close the bridge indefinitely and board it up so that teams could not cross and put up lights and notices to pedestrians that if they crossed they did so at their own peril.

The status of the Mathews condemnation proceedings was discussed. Attorney Toose stated that owing to an error of the city engineer in the description of the property that they lacked a few feet of getting to the river. They secured the right of way from South Main street 200 feet toward Third street and that he had made overtures to Mathews through his attorney with a view of settling the difference of the few feet to the river.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.
