Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

R. M. Wonderly was immensely surprised the latter part of last week by receiving a birthday postal surprise shower from his friends back at his old home in Ithaca, Mich., where he formerly lived 25-years ago. One of the cards stated that the gift he made before he came west was still doing good service and except for a little wear was as good as ever. He also received cards from New York and Nebraska.

A very pleasant evening was spent at the home of grandma Harrington, Aug. 21, when about thirty-five of her friends and neighbors gave her a complete surprise, the occasion being her 70th birthday. Music and singing added much to the enjoyment of the evening. The loving tokens of remembrances were not forgotten by the various friends. After a bounteous lunch was served all went away feeling that not only themselves had been benefited, but that much cheer and encouragement was added to her who had trod life's pathway to these 70 years.

It is particularly fortunate for Falls City that Governor Withycombe has selected Walter L. Tooze, Jr., our city attorney, as a delegate to the International Irrigation congress to be held at Stockton, Sacramento and San Francisco, September 13 to 20 inclusive. It is presumed that irrigation has something to do with getting water to run down hill, and if Walter studies the water question under such favorable circumstances perhaps he may be able to give the city council some useful suggestions in extracting more water from the mountain streams that go roaring through the gorges.

UNDISPUTABLE FACTS

We must face the facts as they are. Exact science has proved to us the correctness of the claim of the efficacy of CHIROPRACTIC treatment.

My observation is that people are ever ready and anxious to avail themselves of any science that will alleviate human suffering. By the employment of CHIROPRACTIC adjustments we are able to assist nature to carry on its normal function.

The universe was made for man, and all of nature's forces are beneficent and are placed here for his utilization. By intelligent conformity to nature's laws health may be maintained; but for violation of or opposition to nature's laws, diseases, impotency or premature death are the penalty.

Do you know that if you were to put your arm in a sling for a given time that you would lose the use of it? Just so with any part of your body, cut off the nerve supply and you lose the usefulness of the same. CHIROPRACTIC releases the nerve and the body becomes normal.

We are at times confronted with the question, "How do we know CHIROPRACTIC will cure thus and so?" We know from our having cured others with the same ailments.

Space will not permit of going into detail. However if you are sick and feel that you would like a new lease on life come in to my office and see for yourself what I am doing for others right here in Falls City. I do not ask you to take my word, talk with my patients at Falls City Hotel, Monday's, Wednesday's and Friday's. No charge for examination.
