A. C. POWERS, AGENT

The hop picking season is about over. The weather has been ideal for gathering the crop. Usually there is rain about hop picking season and hinders the work.

L. M. Robertson returned last Monday from a three weeks trip serving as fire warden. His whiskers had grown out and he would have passed as Robinson Crusoe.

Mr. and Mrs. J. Beezley of Salem came Monday to visit with her mother. Mr. Beezley returned Monday evening but Mrs. Beezley remained for a week's visit.

Miss May Reece attended the band concert at Dallas last Saturday night.

THANKS THE PUBLIC

We desire to thank our friends and the public generally for their valued patronage while we were in charge of the Madena Hotel.

Very respectfully,
Hutchinson & Abbott.

Justice Hubbard had a case in his court Tuesday. Mrs. Wolfe had Tom Scott charged with breaking in her house a few Sunday's ago and taking a gold watch, a revolver, three pocket knives and a pair of buckskin gloves. It was a jury trial and they were out only a few seconds when they brought in a verdict of not guilty. There was absolutely no proof of guilt.

Returned From Foreign Field

Mrs. Millican of Seattle, Washington, recently returned from a seven years stay in foreign mission field, will deliver a lecture at the Free Methodist church Sunday afternoon. Everyone should hear her as she will give an interesting talk. Lecture will begin at 3:00.

DISTRICT QUARTERLY MEETING

District quarterly meeting at the Free Methodist Church is in session this week. Rv. Coffee of Portland is in charge. Quite a number of ministers and laymen are in attendance. Services will hold over Sunday.

MADENA HOTEL CLOSED

Last Saturday the Madena Hotel closed its doors and the proprietors proceeded to pack their belongings and will open a hotel at Scio a town east of Albany. We regret to lose them, but do not blame anyone from bettering their condition when possible. We hope that they will realize their most sanguine hopes in their new location.

COUNCIL MEETING

The city council met Tuesday night in regular session, with a bare quorum present. The usual business was transacted such as allowing bills, ect. The session was painfully quiet and tame. The only thing that occurred to create a ripple was the cutting the of the electric light bill from \$85 to \$80 on account of poor service. For an instant there was a gurgling sound like the water sucking a whisp of hay into a leak in a dam and all was quiet.

The city attorney said that he was ready to commence proceedings toward the collection of delinquent street assessments. That as a preliminary he would notify all parties of amount due and set a day to meet with him and present any receipts for which no credit has been given, if any there be, otherwise the statements sent will be deemed correct and proceedings instituted accordingly. There is over \$1600 in assessments over due.

The council adjourned to meet Tuesday night, September 14.

BEAR HUNT

Last Saturday the tocsin of war was sounded and there was hurrying and skurrying, toarms. The report arrived by wireless that a detachment of bears were bearing down upon the city and were even at the outer gates. The local nimrods responded valliantly to the call gathering up all pistols, revolvers, air rifle, and houn' pups; commandeered several automobiles and went forth to meet the enemy. Details of the pursuit are lacking and unsatisfactory, but bruin was routed and the city saved. Pat Murphy is the only one that will talk intelligently on the subject and says that he doesn't believe there are any bares this side of the beeches at Newport; all he saw was tracks of some bare-footed boys. But some think Pat has a grouch because he was not in at the finish.

This Is Your Town And It Is What You Make It

By HOLLAND.

WHAT makes a town? People and business. You are one of the people. What you buy helps make the business. The more you buy the better the business; the more business the better the town.

You want the town to grow and improve, don't you? Then you should help it to grow by increasing its business as much as you can. Every time you send elsewhere for goods you give your town a blow. Enough of these blows will ultimately kill the town.

The mail order houses do nothing for your town except try to kill it. Are you helping them? You are if you send your money to them for goods that you could buy at home. If you are more interested in the growth of Chicago or New York than you are in the prosperity of your own town, your own neighbors, then continue to send to mail order houses for goods. If you want your own town to thrive

SPEND YOUR MONEY WHERE YOU MAKE IT.

NEEDS ATTENTION

Sheridan Sun

"The other day we went to a local store to get some fruit. An examination of the fruit on display showed that a preponderance of it was scaly and wormy.

"A few years ago a fruit inspector in southern Idaho went into a country store and examined some fruit on display. The fruit was apples, large, well colored and seemingly perfect. The inspector found no scale but in the box was one wormy apple. He confiscated the box. This strict application and scrupulous enforcement of the law has resulted in clean orchards for the Payette Valley of Idaho and healthy orchards, and when the consumer buys he buys healthy and not diseased fruit.

"But why this contrast of sections? Yamhill county, too, has a fruit inspector, so we are told, though there is truly no evidence of his work as it should be done here. Were his work done and done well we would not expect to find such fruit on display at the local stores as we do find. And why should we complain, because the law is not enforced, because poor fruit is thrust upon the market? Not necessarily. Sheridan is now in the center of 6000 acres of young orchards which will be in bearing next year and the years after. But we must qualify that with the condition the orchards are healthy. And to keep these orchards healthy the diseased trees around must be treated or eradicated. One diseased tree can in almost inconceivable time communicate the disease to an entire orchard.

"It is only justice to the growers as well as the consume that the fruit inspector be strict and scrupulous."
