

FLASH NEWS TO FAROFF SAILORS

Uncle Sam's Boys Find Joy In Baseball Scores.

VIA THE NAVAL WIRELESS.

Secretary Daniels Arranges For 200 Word Message Every Evening to Warships In West Indies—Captain Bullard, Superintendent of Naval Radio Service, Conceived the Idea.

Washington.—Even the oldest inhabitant of Port-au-Prince, Haiti, can't remember the time before now when the Haitian tropics received the baseball scores every evening.

Somehow one doesn't associate the thought of the blue Caribbean and scorching semi-equatorial sunshine with the thought of "New York, 4; Pittsburgh, 6." But it's an actual fact, just the same.

Not only baseball scores, but the latest word about the kaiser and the war and William Jennings Bryan's latest opinion penetrate the tropical evenings. The officers and men of Uncle Sam's warships in West Indian waters are now able to learn of the things going on at home and abroad.

Secretary Daniels worked the scheme through the innate patriotism of a telegraph company and a big press association. Let there be no more talk of soulless corporations, says the navy.

Every night the day's news is boiled down to 200 words—just as it should be, some one says—and is telegraphed

CAPTAIN W. H. G. BULLARD.

to the naval wireless station at Key West, Fla. Then the wireless sparks begin to jump, and out over the gulf, the Caribbean and the south Atlantic flashes the news "from home."

Captain W. H. G. Bullard, superintendent of the naval radio service, is the man who conceived the idea, and through his suggestion Secretary Daniels obtained the co-operation of the news agency and the telegraph company. Only officers and sailors who are thousands of miles from home, in strange waters by strange shores, can fully appreciate the value of a service of this kind.

The men are more interested in the baseball scores of the National and American leagues than in any other point of the day's news. The latest boiler explosion west of Pittsburgh, however, gets their avid interest.

The naval radio service looks upon the idea as a great development of its resources. For several years the service has been sending out the official Washington time through the Arlington (Va.) station and the radio station at Darien, in the canal zone. This time flash has been sent broadcast over the continental United States, neighborhood waters and distant American dependencies.

Not long ago some 300 jewelers informed Secretary Daniels that they had equipped themselves with radio apparatus just to catch this twice daily time flash from Washington. Time signals are said to be of immense benefit to vessels on the high seas, which now possess for the first time an accurate means of checking their chronometers, which is of the greatest help in fixing longitude.

As soon as the new wireless section in the Philippines is completed it is believed that an interchange of messages between the Philippines and the United States can be made in thirty minutes.

The news bulletin service is regarded as of still greater importance as an advance in the naval radio service. It contrasts strongly, old officers say,
