HIGH SCHOOL NOTES

A measure that is attracting no little attention among the prominent politicians of this country and which will be submitted to the coming Congress for its rejection or approval, a revised form of the old "Anti-Dumping Law." This bill, in brief provides that no foreigner will be permitted to place commodities of any kind, which are produced in this country, on our market at a price lower than the standard market price for the article in the home country.
The Administration sees the dire necessity of protection of home industries at the end of the European struggle, for the reason that the cheap labor that will follow as a result of this great conflict will give the European Producer an unfair advantage over the American Competitor. It will be to their advantage to place a commodity on our market at a price lower than that at home, if in so doing they may secure the control of our markets.
On its face this bill appears to be beneficial but there is a chance that there might be a "nigger in a wood pile." We wonder if the present abnormal deficit in our National Treasury, which, incidentally, is a result of our present low tariff, has anything to do with the attitude of the Democratic Administration in forcing through a measure to provide more revenue, yet which has been given a misleading name in order that the uninformed public will not recognize it as a protectionist's measure? Would not it be expedient for Mr. Wilson to repeal his War Tax providing he gets a substitute in the form of the proposed measure? Has not the Administration come to realize that some drastic step must be taken; either that of the revision of the tariff upward—An admission of Political failure—or a cleverly devised substitute? Will this bill offer as great a protection as a protective tariff?
The present War Tax has been found insufficient to overcome the deficit, so something must be done to relieve the Administrations embarrassment—hence the, "Anti-Dumping Law."

numerous duties required that he remain in Salem for two years, but recently a board of physicians declared him sane.
The following is a brief outline of our esteemed candidate's platform, formulated during his sojourn in Salem:
(1) The revision of the tariff downward with the exception of the following articles: Hot air and "The Real Tobacco Chew."
(2) A special tax law for bachelors and old maids; additional war tax to be paid by all parties entering the holy bonds of matrimony.
(3) Favors the abolishment of the Federal Reserve Board and will himself, reserve all the government finances that he can lay his hands upon.
(4) His election of a Cabinet comprises the following persons:
Sec. of State—Miss Elythe Johnson.
Sec. of War—Pancho Villa.
Sec. of Treasury—Jas. J. Murphy.
Sec. of Navy—Gunboat Smith.
Sec. of Interior—Ty Cobb.
Sec. of Agriculture—Lester A. Bowman.
Sec. of Commerce—W. J. Bryan.
Postmaster General—Bill Nye.
Attorney General—Hall Wade.
Sec. of Labor—Maurice Selig.
—Like an armed warrior, like a plumed knight, Lester W. Gardner strides down the Hall of Fame and throws his lang full and fair against the brazen foreheads of the defamers of his country and maligners of his honor. Such a man is worthy, indeed, to support the integrity and honors of our fair land and direct her diplomatic relations with the world.
Let us all sing that familiar and well loved hymn "Jack the Ripper Lost his Slipper, Coming Through the Rye."
The Parent-Teachers day was November 12th and was a success from every stand point. The attendance this year was slightly below that of last, but this was chiefly due to the weather.
A long lanky Freshman and a short and somewhat "saved off" Senior were overheard the other day quarelling over the geographical question:—Which is the best country on earth? The Freshie contended strenuously for Beulah land, but the Senior sturdily maintained that Fatland was the better.
The Eighth Grade began testing milk Tuesday, and they invite any farmers, who desire to have milk tested, to send it upon Friday.
The Sixth Grade room is attractively decorated for Thanksgiving with a border of pumpkins and leaves. The pupils of this room are preparing to render a program soon.
The pupils of the Seventh and Eighth Grades are receiving good instruction under the supervision of Miss Fatland. She is not only an excellent teacher but a great help along social lines.
The drawing material for the grades has arrived. Very efficient work is being done in this branch, and by the end of the term it is expected that Falls City will contain more than one renowned artist.
A Senior lost his dignity so far as to fall down on the sidewalk last week. Street cleaning should be left to the Freshies.
One of the teachers, desiring the names of all the pupils in the study room requested the pupils to write their names on a piece of paper which was passed around the room.
One optimistic pupil, looking ahead to the humorous side of the future, added an extra name—John Jones. The next day when the teacher assigned John Jones to his seat he was not present, nor has he put in his appearance since.
The epidemic is spreading and James Bohle and Loleta West, the authoress of the former item, has fallen a victim to it. On Parent's day a mischievous pupil, slipping gently down the stairs, saw that

Tice-Throckmorton
Robert Throckmorton and Mrs. Hattie Tice were married last Sunday at 10:30 at the Methodist Church in Salem. After the ceremony they took the train for Portland for a short honeymoon.
The happy couple are well and favorable known here in Falls City and their many friends extend them greeting and wish them many happy days.

Shall We Vote a Special Road Tax
Saturday, November 27, is the day set for voting on a special levy for roads. The election will be held at 2:00 P. M., at the Oakhurst school house. This is a question that the majority of the taxpayers should determine; but will they? It too often happens that people are indifferent at the time of the election and afterwards register a kick. Last year a 3-mill levy was voted and the people have had an opportunity of knowing if it served the best interests of the people and if it was judiciously used. Turn out and vote your sentiments.

Oakdale Items.

"Go To School Day" was true to its name as a goodly number of parents and friends were at school Friday afternoon believing their presence would be an encouragement to teacher and pupils.
The regular lessons were gone through thus giving those present an idea of the way in which the school was conducted; there is always room for improvement yet we can truthfully say both teacher and pupils did very creditable work.

During the afternoon a Parent-Teachers Association was organized. Mr Joe Murphy being chosen as President. After considerable discussion it was decided the Association would meet the second Friday of each month; each one present showed an interest in the work and at each meeting some time will be spent in listening to Mrs. Neal and her pupils going through their regular school work thus giving the parents a chance to see the work their children are doing.

Mr. and Mrs. Floyd Ellis have a new piano in their home.

Mrs. S. H. Tetherow visited in Dallas last Saturday and Sunday.

Several strangers in town this week looking for real estate deals.

Candidates for the office of Councilmen seem to be very bashful.

Lester Dodd went to Corvallis Friday to stay with his brother Percy.

Miss Anna Percy and Miss Geraldine Selig are at home this week with the mumps.

Quite a number of horses are affected with distemper in the Peden neighborhood.

Rev. B. L. Hicks of Newburg was in Falls City greeting friends Tuesday and Wednesday.

L. B. Murray returned Wednesday from an extended trip in the northern and middle west States.

Mr. and Mrs. Daue Courter and son Orel who have been spending the past week in Salem returned home Monday.

The boilers at the Falls City Lumber Company's mill were "fired up" Tuesday and the machinery set in motion in order to oil the belts.

Mrs. N. Gilbert and daughter, Barbara visited at the home of Fred Holman in Dallas Friday and Saturday of last week.

Miss May Johnson, until recently employed in the postoffice at this place, has accepted a position in the telephone office at Dallas.

Met After Forty Years

H. K. Blair of near Denver, Colorado arrived Monday on a visit to his nephew, W. B. McKowan. Although forty years had passed since uncle and nephew had met, Mr. McKowan recognized him at a glance. Forty years had dealt kindly with him, and "Mac" said that he looked as young as ever.

Mr. Blair combined business with pleasure and is looking after some valuable mining interests in the West and also visiting relatives. He visited his brother, Col. Blair of Portland and will visit here and a niece, Mrs. Wm. Ridnour of Black Rock and then take in the San Francisco fair before returning to his home.

Mr. Blair is engaged extensively in farming and stock-raising in Colorado and has acquired large holdings in that state. He is an energetic business man and one that we should like to see become interested in this section of Oregon.

At the coming election the American people will be called upon to select a pilot for the Ship of State. Public attention has been directed upon several men, whose personal integrity and high moral standing would warrant their selection as the chief executive of the greatest nation on the face of the globe. Senator Burton of Ohio, Elihu Root of New York, and Supreme Justice Hughes are most frequently mentioned as presidential possibilities.
We admit that these men are all deserving of the honor, but since "honor to him to whom honor is due," it is only proper at this great crisis to propose the name of one whose personal character and inestimable worth as a public servant, entitles him to the greatest honor that the American people can bestow on their most distinguished citizen.
Lester W. Gardner is a native of our own dear Oregon. He was born in the great metropolis of Bridgeport on a beautiful Sunday morning in June in the year 1897. Mr. Gardner, or "Brieh" as he was familiarly dubbed by his numerous friends, showed "striking" originality at the early age of three when he struck his older brother over the cranium with a neck-yoke, thus showing his aptitude in using the "Big Stick." At the age of four came the turning point in his career, when he inadvertently swallowed a bottle of mucilage, which unfortunately has impeded his flow of "hot air." The mucilage has had the effect of making Mr. Gardner "stick" to everything but the truth. "Brieh" at the age of ten became affiliated with the Royal Free and Accepted Order of Hen Lifters, and since has been constantly under the public eye and especially under the scrutiny of Pat Murphy. Mr. Gardner's
