Some people have developed a habit of picking flowers and destroying trees and shrubs that grow near the streets. It is very annoying to have flowers purloined after going to the expense and trouble to grow them. A quiet session of the police court would very effectively cure this unfortunate habit, and it is threatened that if such depredations do not cease there will be a little family gathering.

**NOTICE OF SALE ON EXECUTION**

By virtue of a writ of execution against the real property hereinafter described, duly issued by the County Clerk of Polk County, Oregon, on the 17th day of May, 1916, and to me, the undersigned sheriff of said County directed, for the enforcement of a decree of foreclosure and sale given and made by the Circuit Court of the State of Oregon for said County of Polk on the 16th day of May, 1916, in a certain suit in the said Court wherein John T. Hughes was plaintiff and Alvah G. Lineback, Rida Lineback, Alex Christ, Rina Christ, Walter L. Tooze and Phil Arthur were defendants. (Register No 4313), which decree was given in favor of said plaintiff and requires the payment of certain sums of money, viz.: \$637.58, with interest thereon at eight per cent per annum from May 16, 1916, until paid, I am commanded to sell at public auction in the manner prescribed by law the following described real property, to-wit:

That tract or parcel of land, being a part of the Donation Land Claim of John Sheldon and wife, Notification No. 6832, Claim No. 41, in Township 8 South, Range 6 West of the Willamette Meridian, in the County of Polk and State of Oregon, and bounded and described as follows, to-wit: Beginning at a point which is 32.00 chains South and 25.00 chains West from the North east corner of said Claim; thence South 18.80 chains; thence West 5.00 chains; thence North 18.80 chains; thence East 5.00 to the place of beginning, containing 9.40 acres, more or less; subject, however, to the right of the public to travel and use, as an open and unobstructed roadway, a strip of land 20 feet wide off the North side of said parcel of land; and excepting therefrom the 40 ft. strip of land released for railroad purposes, as described in an instrument executed by W. H. Boals and recorded on page 428 of volume 3 of the Record of Satisfaction of Mortgages of said County.

Notice is hereby given that on MONDAY, the 19th day of June, 1916, at the hour of one o'clock in the afternoon of said day, at the front door of the County Court House in the City of Dallas, in said County, I will sell the real property hereinabove described at public auction to the highest bidder for cash on day of sale, subject to redemption in the manner provided by law, for the purpose of satisfying the said decree, with interest and costs of sale.  
Dated this 17th day of May, 1916.

**What the Engineers are Doing**

THIRTY thousand American engineers are making a card index survey of American industry so that it may be prepared for its vital part in defending the Country, if need comes. The past eighteen months have taught us here in America what lack of industrial preparedness has meant to some of the countries now at war. These nations had the ships and they had the men; but when the hour struck, their factories were not able to furnish the colors with arms and shells and powder. Their factories were not prepared. And our factories are not prepared. But it is not enough to draw a moral. In the United States five great Engineering Societies—Civil, Mining, Mechanical, Electrical and Chemical—have pledged their services to the Government of the United States, and are already working hand in hand with the Government to prepare industry for the national defense. They receive no pay and will accept no pay. All they seek is opportunity to serve their country, that she may have her industries mobilized for defense. All elements of the nation's life—the manufacturers, the business men, and the workmen—should support this patriotic and democratic work of the engineers, and assist them cheerfully when asked. There can be no better national insurance against war.

The Associated Advertising Clubs of the World, representing all advertising interests have offered their free and hearty service to the President of the United States, in close co-operation with these five Engineering Societies, to the end that the Country may know what the Engineers are doing. The President has accepted the offer. The Engineers have welcomed the co-operation.

This advertisement, published without cost to the United States, is the first in a nation-wide series to call the country to the duty of co-operating promptly and fully with the Engineers.
