Getting It All.
The doctor told him he needed carbohydrates, proteins and, above all, something nutritious. The doctor mentioned a long list of foods for him to eat. He staggered out and wobbled into a Penn avenue restaurant.
"How about beefsteak?" he asked the waiter. "Is that nutritious?"
"The waiter didn't know."
"Are fried potatoes rich in carbohydrates or not?"
The waiter couldn't say.
"Well, I'll fix it," declared the poor man in despair. "Bring me a large plate of hash."—Pittsburg Post.

NEWS ITEMS Of General Interest About Oregon

Crop Shortage Will Be Offset by Higher Prices This Year

Washington, D. C. — The monthly bulletin of the Federal Reserve board, issued this week, discussing business conditions of the Pacific Coast, says:

"While the crops of this section will be less than the average, due to damage by late frosts and drouth, the farmers and fruit growers will be protected from loss through the greater prices which they will receive for their products. Peach growers who last year permitted their crops to rot on the trees because of the unprofitable prices prevailing are this year contracting to sell their product, which will be 40 to 60 per cent of the average, at more than double the prices prevailing at the same time last year.

"The damage from the frost to apples and pears in the Northwest has been quite serious and general but the prediction is made that notwithstanding this the year's crop will exceed that of 1915.

This year's grain crop of the twelfth district will be from 20 to 30 per cent less than that of last year. This shortage is due to the unusual drouth which has prevailed during the spring in certain parts of California. A material decrease in acreage is reported from the Northwest. It is asserted that the carry over from last year's wheat crop in Oregon and Washington equals 20 to 40 per cent of last year's crop.

"Mining during the past year has been the most profitable industry within this district. The next most profitable one has been livestock. "Recent rains in Idaho have greatly benefited the grazing lands. Sheep, wool and cattle are all bringing high prices in all of the states of this district. Dairying is also prosperous."

**Representative Sinnott Now
Wears Oregon Jackrabbit Fedora**

Washington, D. C. — High-grade felt hats can be manufactured from the fur of Oregon jackrabbits. This is no longer a theory, but a demonstrated fact, and Representative N. J. Sinnott, of Oregon, is today proudly wearing the first and only felt fedora ever manufactured in the country from jackrabbit fur.

Last winter Mr. Sinnott discovered that felt hat manufacturers were embarrassed because their supply of German rabbit fur was cut off with the war. It occurred to him that jackrabbit fur might be substituted and he sent to Oregon for a consignment of jackrabbit skins. These he turned over to the largest and best-known hat manufacturers in the East, with the request that they experiment with the rabbit fur and determine its suitability for hat manufacture.

The jackrabbit hat seems to be the equal of any \$5 felt hat on the market. It is of fine, soft texture, smooth to the touch and clear in color and grain. Members who examined it pronounced it a first-class headpiece and one that ought to command a good price in the market.

Mr. Sinnott was told by manufacturers, who entered upon the experiment with some doubts, that the Oregon jackrabbit fur made a much better hat than they had anticipated. He also learned from them that jackrabbits to be valuable for hat manufacture must be killed in the winter months, when the fur is heaviest, and must come from the colder portions of the West.

New Route Proposed.

Klamath Falls — A new road to shorten the distance from Eugene to Klamath county points and to make a new route for tourists from that section bound for California, is being considered in this city. Arrangements have been completed for taking the question up with the County court next week at its regular July term. The present route from Eugene to Crescent is via McKenzie Pass and Bend, a distance of 170 miles. The proposed route, in connection with the old military road, would make the distance from Eugene to Crescent 109 miles and would have the effect of routing the southern-bound tourist through Crescent via Crater Lake and Klamath Falls and on into California via Tule Lake road, through the Modoc lava beds.

New Coast Line Hinted.

Cottage Grove — The fact that several routes from here towards the coast have been tentatively surveyed and that it is known that owners of large bodies of timber in the vicinity of Cottage Grove wish to find a cheap way of getting it to market, leads to the belief that a railroad from here in a westerly direction is a possibility of the next few years. The extension of the Oregon Pacific & Eastern in this direction was announced about three years ago, but was abandoned on account of the stringency of the money market.

Record Mortgage Filed.

Astoria — One of the largest mortgages filed in Clatsop county for many years was recorded this week. It was given by the Crown Willamette Paper company to the Continental & Commercial Trust & Savings bank and Frank H. Jones, of Chicago. It covers all the paper company's extensive timberland holdings in Oregon and California and was given as security for \$6,000,000 in 6 per cent bonds, issued by the company.

The War Children of Paris.

How beautiful they are, the war children! How well cared for, how thriving, and how showered with love! Their prolonged stay in the Bois or in the gardens have freshened the bloom of their cheeks. Their immaculate pink-and-whiteness seems to testify to the mother's loving care of the now sovereign baby who for two years has had no rival. The mother's entire time is devoted to His Majesty; the baby, nor is he ever forgotten except occasionally when her thoughts wander to the absent one, she traces in the baby's dimpled face the sometimes fugitive, sometimes striking resemblance to his soldier-father. Sacred moments these when in the twilight the curly head and downy cheek resolve themselves into the pale or sunburnt features of one "somewhere in France."—Cartoons Magazine.

Start the year by getting Hanford's Balm. You will find frequent use for it. Adv.

Gypsies Use Automobiles.

"Even gypsies are abandoning horses for motors," says the July Popular Mechanics Magazine. "A band of about 40 of these nomads recently visited Columbus, Ohio, traveling in three covered automobiles which had been purchased a short time before. Each motor was fitted up in true gipsy fashion, and portions of the tops were painted in the bright colors characteristic of the familiar gipsy wagons. In all, three families inhabited the three cars. The sage of the group was a woman 75 years old; the youngest of the children was three months old."

The Best Liniment.

For falls on icy walks, sprains and bruises, rub on and rub in Hanford's Balm of Myrrh. Apply this liniment thoroughly and relief should quickly follow. Adv.

The Usual Way.

Out of a letter that came to us the other day we grab this little bit: You can tell a man your troubles. You can weep and moan and wail. You can tell him you'll go bankrupt. That you'll maybe go to jail. You can tell your innermost secret. You can bare your life's one blot—And he'll say: "I want to help you. But what assets have you got?"
—Detroit Free Press.

Nervy.

"That fellow's got his nerve with him!"
"What's the matter now?"
"He actually asked me to lend him a couple of gallons of gasoline until next Saturday."—Detroit Free Press.

The Smile of Serenity.

"That man is surely an optimist."
"How do you know?"
"He smiles continually."
"Maybe he's an optimist and maybe he's a diplomat."—Washington Star.

Sheep—Yearlings, \$6@6.50; wethers, \$5.50@6.50; lambs, \$6@8.25.

As Wheat Season Advances More Grain Bags Are Needed

Portland—There is more inquiry for grain bags now than at any time this season. Sales are not much larger but buyers are showing decidedly more interest in bags, and sellers believe an active market is not far off. It is the improvement in crop conditions in the Northwest that is causing the inquiries to increase. The rains of the past fortnight have led all grain men to raise their estimate of the wheat crop and they are now figuring on a yield of 10,000,000 to 15,000,000 bushels larger than they expected early in June. This condition naturally has produced a firmer bag market. Local quotations are still around the 12-cent mark, but there is not the probability of a decline that dealers faced a short time ago.

The entire coast crop is growing in size and there are no more bags in sight than there were. As a California authority expresses it, for every bag in sight two will be needed. In California, as here, there has not been much buying by farmers in anticipation of crop needs, but this is a condition that cannot last much longer. Much was heard earlier in the season of bulk handling of grain, but it is evident now that there will be but little relief for the situation on this score.

Road Increases Capital to a Million.

Chehalis, Wash. — The Cowlitz, Chehalis & Cascade railway company in supplemental articles of incorporation has increased its capital stock from \$100,000 to \$1,000,000. The name of the company has been changed to read as above, instead of the Chehalis, Cowlitz & Cascade. The company has a large crew at work all along its 22 miles of projected line rushing its work and expects to have the road completed to four miles southeast of Onalaska, near Salkum, by fall. The Chehalis Mill company has its plans all completed now to rush work on its new 75,000 sawmill in South Chehalis at once.

Sales Plan is Success.

Kennewick, Wash. — Encouraged by the success of the Kennewick-Richland Marketing union, which shipped and sold this year 95 per cent of the strawberries grown in this region at an average price to the grower of nearly \$3 per crate of 24 pints, the growers at a public meeting here last Saturday perfected plans for a similar permanent organization to handle the raspberry crop, asparagus, gooseberries, cherries, early potatoes, and, possibly, the peach, pear and apple crops. New by-laws and constitution were approved.

Some Grant Crops Damaged.

Canyon City, Ore. — Unsettled weather conditions have prevailed throughout Grant county for the past two weeks. Considerable rain has fallen and has caused damage to some crops and much inconvenience to sheepmen, who are in the midst of shearing operations. The first crop of alfalfa is ready, but owing to the weather conditions, the farmers are delaying the cutting until good curing weather.

GIANT Stumping Powder
4 1/2 Feet
6 Feet
—Six feet through at base, 4 feet 6 inches through at top, five feet above ground. Giant Stumping Powder did a clean job, taking out roots and all without tearing a big hole in the ground. Farmers who have used them know that

GIANT FARM POWDERS
STUMPING — AGRICULTURAL

always save them money, time and work. They save money because they lift and heave as well as shatter, and go further than high explosives that merely split the stumps. They save time and work because they get out the stumps—big or little, green or dead—in a condition easy to handle. "I get better results from Giant Powders than from any other powder I have used," says A. E. Adkins, Woodburn, Ore.

There are two Giant Farm Powders, both made especially for Pacific Coast farmers. Eureka Stumping Powder is most economical for dry work and Giant Stumping Powder saves money in stump blasting in wet soil. Try these two. Compare them with the powder you have been using, and you will always use Giant in future. Write us and we will have our nearest distributor supply a trial case at the lowest market price.

Five Blasting Books FREE
Better ways of removing stumps and boulders, making ditches, planting trees, and breaking up the subsoil are described in our five illustrated books. They were written for western farmers, to meet the conditions that you have. Write us for the book on the subject you are interested in.

Farm Machinery Driven By Motor Car
To enable a motor car to be used for driving various kinds of machinery, a convenient, although wasteful, power-transmission jack has been devised by a Minnesota man. Two parallel shafts carrying dish-shaped rollers at either end are mounted on a heavy timber frame which supports them several inches above the ground. This forms a cradle for the rear wheels of a machine, permitting it to run smoothly and without any strain on its working parts. A pulley held at an end of one of the shafts receives a belt that is extended to whatever machine is to be operated, as, for instance, a circular saw. A car is run onto the rollers by backing it over planks forming a track laid parallel with them.—From the July Popular Mechanics Magazine.

Quick Action.
"Messenger service is mighty good out my way."
"So?"
"Yep. No delay about messages consigned to us. Our place is near the ball park."—Louisville Courier-Journal.

After the Honeymoon.
Wife (angrily)—What do I get for doing the cooking for you? Nothing!
Hub—And what do I get for your doing the cooking—indigestion.—Boston Transcript.

A Mistake.
"Pa, is your business an unrefined one?"
"Of course not, daughter. What makes you ask that?"
"Because I heard you telling uncle about your gross receipts."—Baltimore American.

How It Happened.
"Strange, one of your twins is blonde and the other is a brunette."
"Well, we never could afford a maid. I washed one child and my husband washed the other, and that one grew up dark."—Louisville Courier-Journal.

Ruling Thought.
