Northwest Land Products Show at Seattle, October 4 to 14.

Scattle.—Opportunity for all com-munities or counties in Oregon and Washington to make agricultural and horticultural displays is offered as a result of the holding of the Northwest Land Products Exposition at Seattle

October 4 to 14.

This will be the first show of the kind ever staged in Seattle and the whole of the Northwest is invited to whole of the Northwest is invited to participate. in the undertaking.
Oregon, Idaho and Montana will combine on a special day at the exposition. From Montana is coming an exhibit under the authority of the state and a special excursion party composed of more than 100 business men. It is hoped to have the gover-nors of Montana, Idaho and Oregon as well as the governor of Alaska and the Premier of British Columbia pres-

ent at the exposition the same day. Since Portland will not repeat its annual land show this year, the Seat-tle exposition will afford exhibitors at the Salem fair an opportunity to place their displays before thousands of visitors in the Washington metropolis and bring the truthful story of Oregon's countless opportunities to the attention of many men and women in-terested in a home on the land.

A Deciduous Tree.

John Drew was congratulated at the Players in Gramercy park on the abundant hair with which, despite his years, he is still blessed.

HUSBAND SAVED

Stopped Most Terrible Suffering by Getting Her Lydia E. Pinkham's Vegetable Compound.

Denison, Texas. - "After my little girl was born two years ago I began suffering with female trouble and could hardly do my work.

I was very nervous but just kept dragging on until last summer when I got where I could not do my work. I would have a chill every day and hot flashes and dizzy spells and my head would almost burst. I got where I was almost

a walking skeleton and life was a burden to me until one day my husband's stepsister told my husband if he did not do something for me I would not last long and told him to get your medicine. So he got Lydia E. Pinkham's Vegetable Compound for me, and after taking the first three doses I began to improve. I continued its use, and I have never had any female trouble since. I feel that I owe my life to you and your remedies. They did for me what doctors could not do and I will always praise it wherever I go."—Mrs. G. O. LOWERY, 419 W. Mon-terey Street, Denison, Texas.

The turpentine industry of southern France is a man-made industry. Out of shifting, barren sand dunes and a malaria, poverty-stricken region, the French government, through reclamation and planting of maritime pine, has made one of the most prosperous and salubrious sections of France. A century ago the barren sand dunes of southern France could be bought at any price. Today this barren land within the reclaimed area is worth at the lowest \$2.50 per acre, while the best brings as high as \$24.00 per acre.

Volunteer fire fighters, when needed, are summoned to the aid of the forest rangers by the blowing of a certain signal on steam whistles in many towns in or near national forests in southern California.
