**Beware of Ointments for Catarrh That Contain Mercury**  
as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.  
Sold by Druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

J. R. Williams, a street preacher of the Apostolic Assembly of Pentecost Faith is in the city this week preaching fire and brimstone and damnation to those who don't get salvation. Wednesday night he scored the churches and its ministers and the town people for the conduct of the children toward him during his sermons. He says that he can make it rain or shine through his faith in God. He predicted that destruction would come upon this city as it did upon San Francisco and other places if the people did not repent of their sins. He will open a mission here if he can raise funds to pay the rent.

Leonard Frink received a very painful injury to his left thumb Thursday while splitting kindling. He was holding a block of wood with one hand and splitting with the other. The end of the ax handle struck the splitting block causing him to strike his thumb, inflicting a severe gash and breaking the bone. It necessitated several stitches to close the wound.

Walter Inch and his surveying crew of Hoskins were here this week "witching" for water to supply the mill pond. Evidently their "Peach limb" pointed toward the Luckiamute as they made a survey from the mill pond running down Bridge Street to South Main and thence toward the river above the falls.

Its up to the Observer to get some more "inside information" in regard to the starting of the mill. Its last venture on the subject was that it would start September 1st. It reminds us of the old fellow who was going to have things happen on the change of the moon, with a proviso that it might happen three days before or after the change. As the moon changes every seventh day there was little danger of his missing his prediction very far. If the Observer will just continue predicting it will undoubtedly hit it.

**THE HIKERS**

Wednesday, August 16, 1916, promptly at 7:48, A. M., a party of fun-loving young people started toward Black Rock. A suitable camping ground was selected on the outskirts of the city. Of course camp life proved to be too tame for some and the city was explored. The swinging bridge was exciting to those who had never had the privilege of crossing one. The first night was enjoyed, all slept well. The next day three of the more adventurous ones crossed a high trestle, this was thought to be quite a stunt and these three were heralded for their bravery. Besides a few bumps and scratches and being called "Falls City Prunes," etc., (but we certainly are not Black Rock Peaches,) all had a glorious time and thanked their chaperon Mrs. Lane. All reached home Friday afternoon.

Those participating were: Mesdames Lane, Howell, Wingo, Gottfreid; Masters Glenn Wingo, Ira Lane, Revelle and Wilbur Howell; Misses Chloral Romellia and LaVita Howell, Ruby and Hazel Wingo, Viola Lane, Olive Deal.
