### Awkward.

A draper is bemoaning the loss of a customer. A lady was in the shop on Baturday and bought some goods. "How much is it?"

Two shillings.

"Dear me! One-and-ninepence is all I have with me. Cannot you let me have it for that?"

"Really, I could not," said the dra-per, "but you can pay the next time you are in."

"Oh, but suppose I should die?" laughingly inquired the lady. "It would be a small loss," rejoined

the draper, but he saw from behind the injured look the customer wore as she crept out of the door that he had mistake somewhere though -London Tit-Bits.

### Incognito Beer.

The change of attitude on the part of the public toward the liquor trade is seen even in the brewers' advertisements. At present in some New York street cars appears an advertisement of a certain brand of beer which will be sent "incognito to your home in a new plain case." Beer drinking is losing its respectability, even the brewers themselves being judges.the The Christian Guardian.

Columbus, Ohio. - "I had almost given up. I had been sick for six years with

female troubles and nervousness. I had a pain in my right side and could not eat anything without hurting my stomach. I could not drink cold water at all nor eat any kind of raw fruit, nor fresh meat nor chicken. From 178 pounds I went to 118 and would get so weak at times that an to take Lydia E did not dawn upon him until too late. **INFERTILE EGGS** Sugar advanced 15 cents again yesterday, making a total increase of 65 cents within the past 30 days. This nearly wipes out the sensational drop of 75 cents made about two months ago, and all signs point to a continued advance to higher prices than early this summer, when all records were broken. Granulated cane sugar is now \$7.75 a sack. Potatoes are advancing in price. The middle western crop this year is said to be from 40 to 60 per cent short and already the Yakima crop is being drawn upon for eastern shipments. The local crop is not all dug yet, but is said to be normal. The price now ranges around \$21 a ton for locals and \$25 for Yakimas. Frosty nights have caused some of the fresh local field products to be-come scarce. Tomatoes are being picked green by growers who want to save what they can before a killing frost destroys the remainder of the Blackberries in the valley were crop said to be badly damaged by Monday night's frost, but the local demand is light and prices failed to advance. Tokay grapes are still jobbing at \$1.35 a crate but an advance is expected soon. Elberta and Crawford peaches are still running strong at 60 cents a box. Peaches are rapidly nearing the end of their season. Cantaloupes are getting scarce. Apples are arriving in large quantities.

farm woodlots of the United States contain about 10 per cent of the total standing timber in the country

Grazing experts of the Forest Service estimate that the cost of produc-ing lambs in the northwestern states is \$1.82 per head.

Los Angeles was the first city on the west coast to establish a vacation camp on the national forests.

The stand of timber on the two great national forests in Alaska is estimated by the forest service as over 70 billion board feet, while the annual growth will, it is said, produce pulp-wood alone enough for the manufac-ture of 3,600 tons of wood pulp a day.

The state of Washington consumes 225 cubic feet of wood per capita an-nually, which is more than twice the average consumption for the United States and six and a quarter limes the average for Germany.

Over 98 per cent of the trees planted by the forest service this spring at Hebo, Tillamook County, Oregon, on

the Siuslaw national forest, are still living. This has been the most successful planting operation in the for-ests of the northwest.
