ACCORDING TO MARK TWAIN.

When Mark Twain was editor of a weekly newspaper one of his subscribers wrote him that he had found a spider in his paper when it reached him and inquired whether it was a sign of good luck. The noted humorist replied that the spider was simply looking over the paper to see which merchants were not advertising so he could visit them, spin a web across their door and live contented ever afterward.

 School has commenced. Were your children backward in their studies last year? If so it may be due to eye trouble of some kind. An education obtained at the expense of eye sight, is of small value. It is better to obtain both by seeing that the children's eyes are right. Children cannot tell you whether their eyes are right or wrong. Bring them to Dr. Turner and let him give their eyes a most thorough searching and scientific examination with the latest improved electrical instruments, and he will tell you whether they are right or wrong. Is not such information almost beyond price? Yet there is no charge for consultation or examination. If they do not need glasses, Dr. Turner will most positively not recommend them. You owe this to your children. Dr. Turner will be at Falls City Hotel Monday Nov. 20th.

A Good Position.

Can be had by any ambitious young man or young lady in the field of railway or commercial telegraphy. Since the passage of the eight hour law by congress, it has created a demand for telegraph operators. Positions paying from \$75 to \$90 per month with many chances for advancement. It will pay you to write Railway Telegraph Inst., of Portland, Ore., for full particulars. Adv.
