## NOTICE OF FINAL SETTLEMENT

Notice is hereby given that M.  
L. Thompson, administrator of the  
estate of Matilda Travis, de-  
ceased, has filed his final ac-  
count as such administrator in  
the County Court of the State of  
Oregon for the County of Polk,  
and that Monday, the 3d day of  
December, 1917, at the hour of  
ten o'clock in the forenoon of  
said day, at the court room of  
said Court, in the County Court  
House in Dallas, Polk County,  
Oregon, has been appointed by  
said Court as the time and place  
for the hearing of objections to  
the said final account and the  
settlement thereof.

Dated and first published Nov-  
ember 3, 1917.

M. L. THOMPSON,  
Administrator of the estate of  
Matilda Travis, deceased.  
OSCAR HAYTER, Attorney

Possibly it may be a coinci-  
dence, but had you noticed that  
since the services of city attorney  
have been dispensed with that  
real money has accumulated in  
the treasury.

## SOLDIERS' LETTER DAY--NOV. 11

On Sunday, November 11, write  
a letter to your boy, or if you  
have no boy or relative in the  
American Army or Navy, write  
a letter to your neighbors' boy,  
and send him a copy of the old  
home newspaper. Let him know  
you are thinking of him, that you  
believe in him, that you are back-  
ing him and you want him to  
make good physically and morally.  
Tell him to make use of the Army  
and Navy Y. M. C. A. It's the  
boy that is lonesome and heartsick  
for a letter from home that of-  
times fails. Many of the boys  
are homesick and a letter from  
home—from you will do much to-  
ward effecting a cure. Will you  
do it?

The conservation of food, or  
the prevention of waste, is a  
move in the right direction not  
only as a war measure, but for  
the reason that it is wrong to be  
wasteful at any time. A great  
many Americans are born wast-  
ers, and no difference as to what  
straights of want they are re-  
duced, they will waste.

The war tax will never be  
equitably adjusted, or distribu-  
ed until all alike contribute their  
share. So long as the manufac-  
turer or jobber can add to the  
price of an article a sufficient  
amount to pay the tax and net  
a handsome profit besides, and  
pass it on down to the next man,  
the plan is wrong. He evades  
payment of his share of of the  
war burden.

Come to the M. E. church next  
Sunday morning. Mrs. A. F.  
Courter will sing. The Pastor's  
message will be in commemora-  
tion of the four hundredth anni-  
versary of the nailing of the  
Ninety-five Theses to the door of  
the Castle Rock church at Witten-  
bury. Come and bring your  
friends. Strangers especially  
welcome.

The Epworth League meetings  
are growing in interest. The  
League room was filled Sunday  
night. You come next Sunday  
night.

At the evening service the Pastor  
will have a helpful message.

Special music will be rendered  
at evening service; also Dr. Ford  
will conduct the 1st quarterly  
conference Nov. 9. Full attend-  
ance desired.

A. F. Hanson, Pastor.

## LIVING LONG AND WELL.

In Every Case the Properly Balanced  
Life is the Winner.

What profiteth a man that he gain  
the whole world yet lose his health?  
In the race for power and place, for  
ease of circumstance and relief from  
the stimulus of hunger, the modern  
man is apt to forget that unless he is  
careful of his body he will soon be  
made to suffer for the infraction of  
Nature's inexorable physical law.  
With the loss in body tone comes an  
equal loss in mental acuity, and the  
brain, which for a time was able to  
operate despite the complaints of an  
overfed, underexercised, self poisoned  
body, stops working.

Statisticians have discovered that  
the mortality rate of persons in the  
United States over forty-five years of  
age is increasing. The strenuous life  
of today is not alone responsible for  
this. Lack of health giving exercise,  
superfluity of diet, lack of restoring  
sleep, overstimulation, the high pres-  
sure of the race for power, wealth and  
position, plus physical neglect—these  
bring early decay. The goal is reach-  
ed—wealth is amassed—honor, posi-  
tion and power are just being grasped  
when the apple of accomplishment  
turns to ashes of dissolution. The  
brilliant mind becomes clouded, the  
steady hand is no longer accurate, the  
eye which once gazed fearlessly on the  
whole world is dimmed, and it is not  
long before the final breakup occurs.  
All of this was entirely preventable.

Other things being equal, it is the  
man who leads the well balanced life  
who lasts the longest, whose work to  
the end is uniformly the best—he who  
neither overworks nor overplays, nei-  
ther overeats, overdrinks nor over-  
sleeps, he who maintains a standard  
of simple, healthy diet in moderation,  
who offsets mental work with physical  
recreation, who is as honest with his  
own body as he is with his own busi-  
ness. When success comes to such a  
one his physical and mental condition  
is such that he can enjoy in peace of  
mind and contentment of body the  
fruits of his labors.—Health Bulletin.

## OUR PORPOISE FISHERY.

One of the Oldest and Least Known In-  
dustries in America.

One of the oldest and least known  
industries in America is the porpoise  
fishery, which has been operated from  
Cape Hatteras, in North Carolina, for  
about 200 years. It should attain an  
unusual prosperity in the next few  
years, for the bureau of fisheries is  
urging more general use of porpoise  
hides in place of cowhide. It is an  
excellent leather and could undoubtedly  
be used more widely.

Heretofore the most valuable prod-  
uct of the fishery has been the oil  
which is extracted from the jaws of  
the porpoise and is worth about \$20 a  
gallon. It is universally used for lu-  
bricating watches and other very de-  
licate mechanisms. The body blubber  
is also valuable. Attempts to manu-  
facture fertilizer out of the carcasses  
have failed because of the distance  
from a fuel supply.

The porpoises are taken at Hatteras  
in seines operated from the shore, and  
it is probably the only place in Amer-  
ica where this has ever been success-  
fully done. During the fall, winter  
and spring many porpoises are seen off  
the south Atlantic coast and at Hat-  
teras they come within a few hundred  
yards of the surf. They are taken by  
spreading seines about 200 yards out-  
side the surf line. As soon as the por-  
poises have come inside the seine it  
is dragged ashore. Often a whole  
school of these sea creatures is taken  
in a single haul.—Baltimore American.

Take Hall's Family Pills for constipation.

It is very doubtful if the little  
South American countries will be  
of any material aid in the war  
against Germany so far as fight-  
ing strength is concerned. The  
first thing would be a loan from  
the United States to equip them.  
It might be better for them to  
turn their attention to producing  
munitions of war for the men in  
the field and not hamper the U.  
S. The indications are that this  
country will have to do the clean-  
ing up of Germany and if these  
little nations will keep out of the  
way a little while it will be done.

## YOU START AT ZERO

We all start out in life from Zero mark. It is uphill all  
the way. The higher we go the more we are looked  
up to. The man who attains success must take him-  
self seriously, look to his own interests and conserve  
his strength, wealth and ability. Many people are  
depositing their money with this bank, paying by  
check, and furthering their own interests, thereby  
raising their marks high above zero on the gauge of life

### SEVERE PAIN.

"I used to suffer a great deal  
with lumbago in my shoulders  
and back. A friend induced me  
to try Dr. Miles' Anti-Pain  
Pills and I am only too glad to  
be able to attest to the relief  
that I got from these splendid  
pills. They form a valuable  
medicine and do all that it is  
claimed they will do."
