

The Little Tots' Favorite

H-O

The children prefer "H. O." because it is the oatmeal with the tempting flavor. It makes sturdy little bodies and keen quick-thinking brains—as it contains the properties that make energy and tissue in just the right proportions. "H. O." is more nourishing than meat or eggs, and can be prepared in only 20 minutes. Do not accept ordinary oatmeal or rolled oats, when you can obtain "H. O." At all grocers.

LUMBER SHIPMENT UP

Grays Harbor Will Send Out Billion Feet—Movements Heavy by Rail and Water—Break Record.

Aberdeen — Rail lumber shipments from Grays Harbor the past five months totaled 409,780,000 feet. The number of cars shipped was 13,666. Rail shipments for October showed a 30 per cent increase over September. October shipments by water showed an increase over August and September.

Lumber shipments this year promise to reach the 1,000,000,000 mark, 2,000,000 feet in excess of any previous record. Water shipments to date are 247,259,000 feet. Rail shipments for the past five months total 409,780,000 feet and while the figures for the first five months are not available it is estimated that these totaled about 150,000,000 feet. These figures place lumber shipments of Grays Harbor for sale this year in excess of 800,000,000 feet. Home consumption of lumber has been the heaviest on record, due to the shipbuilding boom since the war began.

FINE HEREFORDS SELL WELL

Stock Yards at Spokane Pay Top Price for Bull, \$630.

Lewiston, Idaho — The first sale of purebred Hereford cattle held in the West by the American Hereford society here Tuesday proved a decided success. Harry Cranke had charge. Fifty-two animals were sold for \$14,760, an average of \$284 each, and many of them were only a year old. The highest-priced animal, a magnificent bull with splendid breeding, goes to Spokane, having been bought by Mr. Roberts, of the Spokane Union Stockyards, for \$630.

The cattle sold go to all parts of the Northwest and will be used for improving the range herds of Washington, Oregon, Idaho and Montana.

Load to Capacity or Wait.

North Yakima — Agents of the O. W. R. & N. company have received orders to ask all shippers to load cars to their maximum capacity and to report the names of all shippers who refuse to do so. An intimation is contained in the order that shippers refusing to obey the request will not be given cars until those who do co-operate in carrying out the wishes of the national food administration shall have been supplied. The N. P. agents have been reporting the names of those who have failed to load cars to capacity.

PISO'S

This is a Duplex

THE FOUR-WHEEL DRIVE DUPLEX.

Here's the truck that was built to meet the conditions under which YOU must do your hauling. Here's the truck you don't have to lay up in Winter—the truck that goes through plowed fields and up un-roaded hills like stock take to the range.

READ THIS!

We have been very successful with the Duplex under the condition that the truck must work in this territory, due to the fact that it is exclusively a FARMING district and most of the work is done in the FIELDS, in WHEAT STUBBLE, or PLOWED GROUND.

M. A. Woods put his WHEAT in the warehouse for 2 3-4 cents a sack. Last year it cost him 7 cents a sack with teams. He hauled 11,000 sacks in 23 days, ALL OUT OF THE FIELD; never got stuck and never had to unload during the entire season. His farm is an average hilly one.—Excerpt from a letter from a Duplex owner.

On another occasion the DUPLEX negotiated a 45 per cent grade with 50 sacks of wheat where a TWO-WHEEL DRIVE TRUCK COULD NOT GET UP EMPTY. 4500 sacks were hauled over this road. The hill is three miles long.

Let's hear from you NOW. Give us the chance to show you how we can save you big money.

DEALERS!

There's a little territory still open on the DUPLEX. Live agents, here's your chance to get hooked up with a winner—and with one of the oldest, largest and fastest growing automobile concerns in the Northwest. Mail the coupon today.

The imported Norwegian cod liver oil always used in Scott's Emulsion is now refined in our own American laboratories which guarantees it free from impurities. Scott & Downe, Bloomfield, N. J.

COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to keep her Locks Dark, Glossy, Beautiful.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.
