Saturday. "The teacher sent little Mary to school on her second year on Monday."

When she came home her mother asked:

"Well, Mary, what did the teacher say to you after the long summer vacation?"

"She said, 'Hello Mary,' the child replied.

"And what else?" asked the mother.

"She said, 'When you go home please tell your mamma that I sent her my rewards,' was Mary's second reply.

\$24,814 IN PREMIUMS

Awards at Lewiston Stock Show This Year Will Double Those of 1917—Medals Alone Cost \$1100.

Lewiston, Idaho—The Northwest Live Stock show this year will offer premiums totaling \$24,814, as compared with \$12,185 last year. In addition to the cash prizes the directors voted to award medals to the value of \$1100.

"This means that the Northwest Live Stock show will be placed on a standard with Chicago as to classifications, that our goal is to take a position with or close to the greatest live stock shows of the country," said Secretary Hendershot, who with President Thomas Wren and General Superintendent D. S. Wallace, is inspecting the live stock grounds and buildings this week to decide upon improvements.

Wilbur Aims to Lead in Crops.

Wilbur, Wash.—Wilbur farmers are seeding their crops, with hopes of leading this county again. In 1917 Wilbur ranked first in Lincoln county and Lincoln county was fourth in rank for wheat shipping in the state. Grain handled here last year totaled 331,500 bushels. One carload of flour from the Columbia River Milling company of this place was on the Tuscania, according to Henry Davenport, who was also on board. In the last few days this point has yielded over 1,000,000 bushels.

Ranch Brings \$10,000.

For a consideration of \$10,000 in cash Charles W. Rice has purchased a farm of 200 acres two miles northwest of Spangle, Wash., from Mrs. Ada O'Connor, of Hillyard, and Mrs. B. H. Mead, of Cusick, formerly of Spokane. The property has been used for the production of hay and grain. About 75 acres is a meadow, 25 acres are wheat land and the remainder pasture. The purchase includes the equipment and stock. The improvements include a house of five rooms, barn, blacksmith shop and machine shed.

To Seed Every Granger Acre.

Granger, Wash.—Every available acre of ground is being prepared for seeding during the coming spring. Many farmers, however, are discouraged over the potato situation, many of them purchasing seed potatoes last spring at \$80 to \$100 per ton and now receiving from \$16 to \$20 per ton, and so closely culled that enormous quantities are being rejected and wasted.

Rheumatism Yields

Only rheumatic sufferers know the agony of its darting pains, aching joints or twisting cords. But some few have not known that

SCOTT'S EMULSION

has been correcting this trouble when other treatments have utterly failed.

Scott's is essentially blood-food in such rich, concentrated form that its oil gets into the blood to alleviate this stubborn malady.

Get a bottle of Scott's Emulsion or advise an ailing friend. No alcohol.

The Norwegian cod liver oil in Scott's Emulsion is now refined in our own American laboratories which makes it pure and palatable.

QUIT MEAT IF YOUR KIDNEYS ACT BADLY

Take tablespoonful of Salts if Back hurts or Bladder bothers.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine.

The famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.—Adv.

The Wealth of the Ukraine

The states of Ohio, Indiana, Illinois, Michigan, and Wisconsin have a combined area about equal to that of the new Ukrainian Republic. Putting it in another way, Ukraine, according to a native writer, is as large as the German empire with the state of Illinois annexed.

Mere area in itself signifies little, but the extent of land surface comprised within the limits of the new republic of Ukraine contains the most fertile parts of the old Russian empire. It is known as the "Black Earth Belt" and has been not only the granary of Russia but the greatest granary of eastern Europe. In 1914 one-third of Russia's total farm products came from this "Black Earth Belt," which is really Russia's wheat belt. Ukraine produces 80 per cent of Russia's crude sugar and 59 per cent of her refined sugar. The tobacco production of the region is relatively as large as that of sugar. The Ukrainian supplies about 50 per cent of the Russian live-stock output.

Not only is the Ukraine a great source of agricultural wealth, but in mineral resources it has been to Russia what the northern provinces of France, now overrun by the Germans, have been to that republic. Of coal, it has produced 70 per cent of the total Russian product, an equivalent proportion of pig iron, and of steel nearly as much. Manganese, mercury, petroleum, peat, phosphorite, and kaolin are other important mineral products of the Ukraine.—From "The Ukrainian Republic," in the American Review of Reviews for March, 1918.

Hurrah! How's This

Cincinnati authority says corns dry up and lift out with fingers.

Ouch! ? ! ? ! ? This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn or hardened callous stops soreness at once, and soon the corn or callous dries up and lifts right off without pain.

He says freezone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of freezone will cost very little at any drug store, but will positively remove every hard or soft corn or callous from one's feet. Millions of America's women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have freezone tell him to order a small bottle for you.—Adv.

GRANDMA NEVER LET HER HAIR GET GRAY

She Kept Her Locks Dark and Glossy, with Sage Tea and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger. This ready-to-use preparation is a delightful toilet requisite and not a medicine. It is not intended for the cure, mitigation or prevention of disease.—Adv.

To The American People

There is no foundation for the alleged violations of law attributed to our Company by agents of the Federal Trade Commission and I want to say emphatically that Swift & Company is not a party to any conspiracy to defraud the Government. Nor has Swift & Company been guilty of improperly storing foods or of making false entries or reports.

Conferences of packers, where prices have been discussed, have been held at the urgent request and in the presence of representatives of either the Food Administration or the Council of National Defense. And yet the packers have been accused of committing a felony by acting in collusion on Government bids!

We have done our best, with other packers, large and small, to comply with the directions of the United States Food Administration in all particulars, including the furnishing of food supplies for the U. S. Army and Navy and the Allies, now being handled through the Food Administration.

We will continue to do our utmost, under Government direction, to increase our production and assist the Food Administration. We consider that the opportunity to co-operate whole-heartedly and to our fullest powers with this branch of the Government is our plain and most pressing duty.

The Trade Commission Attorney has, by false inference and misplaced emphasis, given to disconnected portions of the correspondence taken from our private files and read into the Record, a false and sinister meaning with the plain purpose of creating antagonistic public opinion.

The services of the packers of the United States are most urgently needed, and I regret exceedingly that we should at this time have to spend our efforts in defending ourselves against unfounded, unproved, and unfair assertions such as are being daily made public.

L. F. Swift, President
Swift & Company, U.S.A.
