Coquille, Oregon.

**DENTIST.**  
**A. F. Kirshman,**  
Office at Residence, one block east of  
Tuttle Hotel.  
Coquille, Oregon.

**Myrtle Point Encampment.**  
Last Saturday night, C. A. Harrington, district deputy chief patriarch, with about twenty other members of the three links fraternity from this place went to Myrtle Point and instituted Myrtle Point Encampment No. 53, I. O. O. F. The officers elected and installed were E. H. Harris, T. W. McClosky, J. W.; L. A. Roberts, H. P.; A. H. Bender, Scribe, Dr. K. A. Leep Treas.; Floyd Spiers, Jr. W. The appointive officers were filled also, but we failed to get the names.  
After the encampment was duly instituted and the officers elected, the following brothers of the subordinate Lodge were given a lively bout with the goat of the various degrees of the encampment; D. A. Huling, B. T. VanDaeer, P. L. Phelan, J. H. Matheny, Geo. Laingor, L. W. Traver, Chas Rackleff, B. C. Lehmanoskey, C. E. Huling, N. G. W. Perkins, J. A. Martin and Ernest Schneider.  
An elegant lunch was served at the Myrtle Point hotel at 1 o'clock. The work began about 9 o'clock p. m. and closed at 6 a. m. The boys from Coquille are loud in their praises of the new encampment for the royal manner in which they entertain visitors. It is needless to say that the band of union and fraternity already existing between the members of the order at this place and at Myrtle Point was strengthened by this visit. For real fraternity it is hard to beat the boys of the three links.  
One of the Visiting Gang.

**Postoffice Robbed at Newberg.**  
Newberg, Or., July 7.—The post-office at this place was broken into and robbed some time after midnight last night. The burglars entered the building by the rear door, using a skeleton key. The outside door of the safe was drilled in such a manner as to allow the combination to be manipulated, and the inner door was drilled and then blown off. The robbers secured about \$300 cash and between \$200 and \$300 worth of stamps.  
While all appearances indicate that the robbery is the work of professional safebreakers, owing to the fact that no suspicious characters or strangers have been seen in the town, or even in the immediate vicinity, of late, the officers advance the theory that the burglary was committed by local talent, and are directing their efforts along this line in an endeavor to secure a clue that will lead to the capture of the perpetrators.  
Another American girl who married a French Duke, by reason of the divorce which has been granted to her, loses her high-sounding title, and her dotting father is out some \$600,000. The pity of it all is she is the daughter of an ex-Vice-President of the United States, and should have known better.

**Wonderful Nerve.**  
Is displayed by many a man enduring pains of accidental cuts, wounds, bruises, burns, scalds, sore feet or stiff joints. But there's no need for it. Bucklen's Arnica Salve will kill the pain and cure the trouble. It's the best Salve on earth for Piles, too. 25c. at R. S. Knowlton's Druggist.

The cry now is to let each city inspect its own steamboats. There should be local inspectors held personally responsible, and the results of the inspection should be published monthly in the daily papers. A new life preserver is badly needed which will float a human being instead of dragging him to death. Rotten, granulated cork has had its day. It is gratifying to observe that excursions by steamboats are being tabooed. Children can be amused in a less dangerous and more sensible manner.

**Weak Hearts.**  
are caused by indigestion. If you eat a little too much, or if you are subject to attacks of indigestion, the stomach expands—swells and puffs up against the heart. This crowds the heart and shortens the breath. Rapid heart beats and heart disease is the final result. Kodol Dyspepsia Cure digests what you eat, takes the strain off the heart, cures indigestion, dyspepsia, sour stomach, and contributes nourishment, strength and health to every organ of the body. Sold by R. S. Knowlton.

**Leading Events of the Twenty-first Week of the War.**  
June 30th—Russian Vladivostok squadron which was out for several days in the Korean waters, eludes the Admiral Kamimura's squadron and reaches the harbor.  
July 1st—Report is current that a great battle is in progress on land and sea near Port Arthur.  
July 2nd—Admiral Togo reports that the 12th division of his torpedo boat flotilla, under commander Yamada, delivered an attack on the Russian guardship at the entrance of Port Arthur and that he has succeeded in sinking the ship and a torpedo boat destroyer. His losses were one officer and thirteen men killed and one officer and three men wounded.  
July 3rd—Admiral Kamimura reports that owing to the dense fog and also the superior speed of the Russian Vladivostok ships his scouting ships were unable to bring the Russians to accept a battle, he has, however, ordered his torpedo boats to chase and engage the enemy at any cost. The torpedo flotilla has succeeded in reducing the distance but then the Russians put all the lights out and in the darkness made their escape.  
July 4th—Japanese occupy Mao Tien Pass unopposed and continue their forward movement with rapidity.  
July 5th—Admiral Togo sends in four fireships and makes the fifth attempt to close the channel of Port Arthur, about 300 feet of which has been still left open since his fourth attempt.  
July 6th—General Oku reports that all the bridges between Pulantien and Wafantien have been repaired and the railroad is now used by the Japanese army.  
July 7th—Japanese gunboat "Kaimon" while in a special duty outside of Talien Wan Bay, strikes a floating mine and sinks. Nearly all of her crew are saved.  
July 8th—Japanese capture over ten guns and fifty prisoners near Kai Chou.  
July 9th—After a desperate fighting General Oku occupies Kaiping. While the full details of the battle are not yet obtainable it is persistently reported that this will prove the most bloody battle ever taken place since the beginning of the war.  
July 10th—Japanese are reported to have captured one of the most important forts, a key to the defense of Port Arthur.  
Admiral Togo makes a torpedo attack on Port Arthur squadron. The result is not given out, but it is rumored that another Russian cruiser of Diana class has been sunk.

The pill that will, will fill the bill,  
Without a gripe,  
To cleanse the liver, without a quiver,  
Take one at night.  
DeWitt's Little early risers are small, easy to take, easy and gentle in effect, yet they are so certain in results that no one who uses them is disappointed. For quick relief from biliousness, sick headache, torpid liver, jaundice, dizziness and all troubles arising from an inactive, sluggish liver, Early Risers are unequalled. Sold by R. S. Knowlton.

The public will now watch with some interest to see how many of the men indicted for manslaughter in connection with the Slocum horror are ever sent to state prison and put to hard work. As lawyer Douglass said in Washington, after the conviction and sentence of Machen, the Groffs, and Lorenz, "It will be many a long day before any of them are behind prison bars." And he was right—they are still at liberty to attend banquets or prayer meetings.

There are few topics more interesting to the agriculturists and fruit-growers than the question of plant breeding. Some recent experiments in crossing oranges and other citrus fruits made under government auspices have proved very successful. Not only have fruits with new flavors been the result, but the trees themselves will be able to exist in more northern latitudes. The whole matter is fully described and illustrated by H. Gilson Gardner in the July Cosmopolitan.

**NOTES AND COMMENT.**  
There is but one Eastern man left in President Roosevelt's cabinet, and he thinks of getting out. Westward the star of empire, etc.  
Efforts at retrenchment by the Pennsylvania railroad company have resulted in the discharge of 20,000 of the working force since the business reaction set in.  
An Indianapolis negro dropped a watermelon to rescue a child from under the wheels of an electric car. The almoners of Carnegie's hero fund should not overlook this incident.  
There are 30,000 telephone stations in the little state of Connecticut. The increase in the number of stations for the present year is estimated at 8,000. Evidently almost everything in Connecticut is done by talking.  
It is stated that no less than 11,000 young men are annually securing a military education in the civil schools and colleges of America. And that the instruction is being given under the direct supervision of the government.  
The old favorite of the children, Mrs. Tom Thumb that was, and Countess Magri that it, has just come over from Holland. She is still in the show world and brought with her sixty-four dwarfs from Budapest, where there is a colony of midgets.  
Judge Tillman, of Quitman, Ga., has discovered a process for so manufacturing cane syrup as to prevent its deterioration. It is expected that this will open the markets of the world to Georgia syrup, and add millions to the value of Southern agricultural products.  
Of the money earned by American railroads last year, \$1,684,447.408 was divided among stockholders and bondholders, and the remainder, \$2,526,680,118, went to the 1,789,315 employees. The owners of railroads are far more numerous than the workers on railroads.  
With the intent of conserving the flow of water, and preventing improper use of the land, the state of Massachusetts is planting a forest of some 3,000 acres in the town of Clinton, around the basin of the great reservoir which is to supply Boston. Two and one-half millions of tree will be set out, and the work has been going on for five years.  
Boston celebrates with great strenuousness Bunker Hill day. Why, at this late day, with all the sins of the British forgiven, it is hard to tell. At the last celebration no less than 300 children were injured, and had to be taken to the hospital for treatment. Fire crackers and toy pistols did the damage.  
Every little while notice appears in the press that some student at Yale is missing. He is sick; or he has lost his mind; or he has over-studied; or he has fallen out of a window; or he has eloped. When the last missing Yale Junior left New Haven he was undetermined whether to go to the Princeton-Yale baseball game, or to a prayer meeting. It is suggested that he was out of his head.  
The Filipinos now touring this country are unable to keep up with the American pace; they beg to be allowed to take a mid-day nap as they do at home. Several of the Commissioners were taken ill in Boston, and did not feel able to go to Lynn to see the marvelous process of making boots and shoes by just pressing a button. One of them has had the wit to say that the Filipinos are a very small people, and that they lack the vigor of soul and body which enables the Anglo-Saxons to accomplish such wonders. They are sensible that their civilization is not yet upon such a high plane as to require all the notions made in Yankee land. Give them freedom first, and perhaps they will become good customers. It is a question whether they will go home contented or sufficed with a divine discontent.
