Makes connection with train at Coquille
and up-river boats.
T. W. PANTER, Managing Owner.

**Oregon Development Con-
vention.**

Portland, Ore., July 15, 1904.—That the Oregon Development League Convention, to be held at the Marquam Grand theatre, in Portland, under the auspices of the Portland Commercial Club, August 2 and 3, will be a magnificent success is now assured. It is desired that all delegates who can do so will be at the Marquam Grand by 9:30 so as to register and receive badges, as it is especially desired that the Convention be called to order not later than 10 o'clock and get down to work immediately for complete and effective organization.

There will be but few set speeches and these will be delivered by practical men in the different industries, and after each address delegates to the Convention will be given an opportunity to ask the speakers such questions as they desire and to comment upon the facts presented. It has been suggested that it would add greatly to the effectiveness of the work if the delegates from different communities will perfect an organization of their delegation before leaving home.

If each and every delegation will prepare condensed reports of actual production, giving not only the results accomplished by growers and producers but the name of that grower or producer in the same plain, direct language that an Oregon farmer would use in writing to an old friend in one of the distant states, then we will have matter for the use of the newspapers and the Immigration Departments of the railroads that will secure results. These reports should be written in duplicate, not only for the use of the Portland papers, but to ensure a complete report of the proceedings. If the Convention can take the form of an experience meeting, in which long speeches are left unsaid, and bright, pithy, striking points are made, it will ensure not only the permanency of the Oregon development League, but will be of benefit to every section of this state.

A round trip open rate, good for everybody, has been put on by the railroads, and tickets are good for everybody, has been put on by the railroads, and tickets are good on all trains arriving in Portland on the afternoon of August 1, and morning of August 2, good to return until August 4, except that fares of 50 cents or less will not be reduced. It is advisable that those attending the convention should get definite particulars from their local agent as to the time of the departure of trains.

Residents of Oregon who take advantage of this rate and are not delegates to the Convention, will be welcome to attend the Convention, occupying seats in the balcony and gallery. The seats in the parquette will be reserved exclusively for delegates. Desiring to keep a record of this Convention, not only in type but in illustrated form for general circulation, a snap-shot photograph will be made exactly at eleven o'clock Tuesday morning, August 2. The taking of this picture will only occupy a minute or two of the Convention's time.

A committee from the Woman's Club of Portland will have charge of a trolley ride to be given to the wives, daughters, sisters and other ladies accompanying delegates to the Convention, for which four large cars have been supplied with the compliments of the Oregon Water Power & Railway Company. This special train of trolley cars will leave the corner of First and Alder streets exactly at 3 p. m., August 2, for a trip to Canamah Park, beyond Oregon City.

Delegates to the Convention and ladies accompanying them are cordially invited to attend a reception as the guests of the Commercial Club Tuesday evening from eight to eleven o'clock, and during both days of the Convention, the rooms and especially the tower of the Commercial Club will be open for the use of visitors and delegates. All those who have never had the pleasure of a bird's-eye view of

Portland should improve this opportunity.

The Convention will adjourn in ample time to give all the delegates and the ladies accompanying them an opportunity to enjoy a trolley ride over the city, in which ten open cars will be used, jointly supplied with the compliments of the City & Suburban Railway Co., and the Portland Railway Co. These cars will start from Third and Yamhill streets Wednesday afternoon, promptly at 3 o'clock, and two citizens of Portland will be upon each car to point out places of especial interest. TOM RICHARDSON, Mgr. Portland Commercial Club.

**Cure of Chronic Diarrhoea After
Ten Years of Suffering.**

"I wish to say a few words in praise of Chamberlain's Colic, Cholera, and Diarrhoea Remedy," says Mrs. Mattie Burge, of Martinsville, Va. "I suffered from chronic diarrhoea for ten years and during that time tried various medicines without obtaining any permanent relief. Last summer one of my children was taken with cholera morbus, and I procured a bottle of this remedy. Only two doses were required to give her entire relief. I then decided to try the medicine myself, and did not use all of one bottle before I was well and I have never since been troubled with that complaint. One cannot say too much in favor of that wonderful medicine." This remedy is for sale by R. S. Knowlton.

**Douglas County to Have New
Industry.**

Roseburg, Or., July 16.—Seven miles from this place, on the ranch of Hon. Plum Cooper, a syndicate of Portland capitalists has in hand a project to develop about 100 acres into a lime quarry.

Mixed in with the lime rock are other ores which may develop in sufficient quantities to make a paying proposition aside from the lime quarry.

Mr. Cooper has burned the rock successfully and in fact furnished the lime that the contractors used the county courthouse here.

Efforts are being made to have the railroad put a switch as near the quarry as practicable. From this switch it is the company's intention to run an endless track to the quarry, with the cars working by gravitation.

Louis A. Greenly of Portland is superintending the enterprise which will supply the county with a new industry.

Weak Hearts.

are caused by indigestion. If you eat a little too much, or if you are subject to attacks of indigestion, the stomach expands—swells and puffs up against the heart. This crowds the heart and shortens the breath. Rapid heart beats and heart disease is the final result. Kodol Dyspepsia Cure digests what you eat, takes the strain off the heart, cures indigestion, dyspepsia, sour stomach, and contributes nourishment, strength and health to every organ of the body. Sold by R. S. Knowlton.

A Sunday school picnic train having been run into in Illinois, and many killed, it is now proposed to call upon the legislature of Illinois to regulate the running of excursion trains. It is quite wonderful how little forethought resides in the American mind. Not until after the Iroquois theatre horror was it thought necessary to make theatres safe; not until the burning of the Slocum was it deemed necessary to have steamships properly inspected, and now not until after a train load of Sunday school children have burned up, is any move made for the safety of excursionists by rail.

A Very Close Call.

"I stuck to my engine, although every joint ached and every nerve was racked with pain," writes C. W. Bellamy, a locomotive fireman of Burlington, Iowa. "I was weak and pale, without any appetite and all run down. As I was about to give up, I got a bottle of Electric Bitters, and after taking it I felt as well as I ever did in my life." Weakly, sickly, run down people always gain new life, strength and vigor from their use. Try them. Satisfaction guaranteed by R. S. Knowlton. Price 50 cents.

Coos County Man Honored.

The Pacific Woodman, the official paper of the Woodmen of the World, published a splendid picture of Mr. Frank B. Tichenor, of Myrtle Point, who has recently been appointed state organizer. We clip the following:

"Mr. Tichenor is a young man of long acquaintance in fraternal work and comes bearing the largest recommendations for ability, progressiveness and untiring efforts in his chosen work. For nine years he has been engaged in fraternal work on the Pacific Coast, more recently in California, where he achieved great success."

He comes from one of the earliest pioneer families in Oregon. His grandfather, Captain William Tichenor, is a historical character in this State. He was born near Port Orford, Oregon, and during the thirty years of his life he has lived in this State, except such time as he was engaged in fraternal work in California. At San Bernardino he labored for the Woodmen of the World and was the one who inaugurated in California the scheme that the Woodmen have in that State of taking part in Arbor Day celebrations. In San Bernardino he caused to be planted on a single day 4,000 trees.

Mr. Tichenor conducted a campaign in Los Angeles and initiated 500 applicants to the lodge in a single night. At another time he conducted exercises at which 406 Woodmen were taken into the order at San Bernardino.

The Herald trusts that Mr. Tichenor will inaugurate schemes here for the better observance of Arbor Day, as well as find great success in his regular work.

Teachers' Institute.

The annual Teachers' Institute for 1904 for Coos county will be held in Coquille during the third week in August, beginning at 1 p. m. on the 15th, and closing with the evening session the 18th.

A very strong corps of instructors including State Supt. Ackerman, will conduct the daily work and address the audience at the evening sessions. All teachers and friends of education are cordially invited to be present. This should prove one of our most successful meetings. W. H. BUSCH, County Supt.

Have the British any right to complain of Russians for overhauling their ships in the red sea, in view of the frequency with which British men-of-war captured American transports during the South African war and confiscated their cargoes? The difference seems to be that it is now the Durham ox that is gored.

The pill that will fill the bill, without a gripe,
To cleanse the liver, without a quiver,
Take one at night.

DeWitt's Little early risers are small, easy to take, easy and gentle in effect, yet they are so certain in results that no one who uses them is disappointed. For quick relief from biliousness, sick headache, torpid liver, jaundice, dizziness and all troubles arising from an inactive, sluggish liver, Early Risers are unequalled. Sold by R. S. Knowlton.

There is a suspicion that the Canadian Government is doing what it can to induce Americans to emigrate into the northwestern territory. Large farms are offered far almost nothing, exempt from taxation. It is an odd move, but stranger yet is the fact that many citizens of the great, glorious and prosperous Republic are ready to leave its borders, its flag, its traditions, and all the other good things, and find shelter under the English flag. Possibly less taxation and a closer guarding of individual rights in the United States might help out the situation.

Hay Baling.

I am out with my hay press this season and am ready and prepared to do quicker and better work than ever before. Will be in the neighborhood of Coquille in a few days Terms, \$1.50 per ton.

ROY STEVENS,
Myrtle Point.
Phone 113.

NOTES AND COMMENT.

A grandson of Edward Everett Hale, the chaplain of the senate, is to build the great United Engineering building in New York for which Andrew Carnegie gave \$1,500,000. The plans drawn by Mr. Hale have been accepted.

It is now said that radium will cure corns. Take about \$1,000 worth, and give the toe three exposures of ten minutes each, and the corn will come away quite painlessly. A longer exposure might bring the toe away with the corn.

Speaker Cannon says it will be his duty to "spring the surprise" of his nomination on president Roosevelt in a five minutes speech at Sagamore Hill, on the 27th inst., Mr. Roosevelt will reply with a speech of 36,000 words, more or less.

France celebrated its fourth of July on the 14th inst. The president reviewed the troops; public balls were given in the evening and free performances were given at all the opera houses and theatres. This is an improvement on the American method of firecrackers, tetanus and vast loss of life.

People who have been taking automobile trips up the White Mountains have concluded that the enjoyment is dangerous. It is bad enough to be spilled out of the machine on a level road, tumbling over a cliff one thousand or five hundred feet high is too strenuous even for an automobilist.

San Francisco is to have a aquarium to cost from three to four millions of dollars. It will be the largest and most wonderful in the world. It is to be erected in Golden Gate park as a monument to Lloyd Tevis, who accumulated a large fortune in that city. The largest two are now at Naples, Italy and Brighton, England.

The Delaware and Hudson railroad company has decided that for the future no one shall be employed who is under 21 or over 35 years. A rigid physical examination will also be insisted upon. This is getting things down pretty fine. It would be interesting to know how old the men are who made this arbitrary rule.

Women who belong to the Christian Science church are sending in their resignations as club members, in accordance with the recommendation of the founder of the church. The motto of these women is "Church and home," and it is contended that through these agencies they can find opportunity to do all the work required of them.

The statement is made that a method has been discovered by which peat can be made into small bricks for burning at \$1.21 per ton. And they all heat except a pinch of ashes. And what is better there are vast deposits it is said within fifty miles of Chicago enough to supply that city with fuel for many years. Now look out for a peat trust and a merger with the coal trust.

In the year 1903 no less than 7000 persons died from consumption in Illinois. Most of these were between the ages of twenty and fifty years, and it is estimated that the loss to the state each year by reason of this disease amounts to \$36,000,000. It has been determined that climate does not cure consumption, and that one way to improve conditions is for a higher physical standard. A state hospital for the treatment of consumption is proposed.

Teachers' Examination

The regular examination of applicants for state and county papers will be held in my office in Coquille beginning at 9 a. m., August 10th, and closing at 4 p. m., August 12th, 1904.

Dated this 20th day of July, 1904.
