Mormonism Under A Ban.

Vienna, Sept. 22.—Count Tizsa, the Hungarian Minister of the Interior, has rendered a decision prohibiting Mormon propaganda with-in Hungary, upon the ground that such a movement is not desirable from the standpoints of both state policy and religion.

The immediate occasion of the decision was the expulsion of two Mormon missionaries—Franklin Pingree and William Wetsol—who came from Salt Lake to Texas 18 months ago and attempted to organize a Mormon community among Hungarians who formerly had resided in Utah.

The two missionaries were promptly expelled, whereupon their Hungarian friends appealed to the Minister of the Interior, the result being the present decision.

Norway Items.

BORN.—To the wife of Price Robison, on Sept. 20th, a son.

MISS Etta Pope, who has been working in the woolen mill at North Bend, came over to spend her vacation with her parents at this place.

Mrs. Ward is spending the week with her old time friends, Mrs. G. S. Davis and family. This lady is lately from Ferndale, Cal., and has been visiting in Bandon with her son, Robert Bedillion.

Vander Randleman and family are up from Parkersburg visiting the families of his brother, J. L., and sister Mrs. J. H. Barklow.

Frank Burgess arrived in this place Friday night from Star, Idaho, where he has been working with his father in a creamery since last May. He made his sister, Mrs. Finley Schroeder, a short visit and then went on to his home in Parkersburg.

Walter Farrier and family moved to Bandon last week to spend the winter. They have been living in Norway all summer and we are sorry to lose them.

TRIXY TAICE.

Prizes Awarded.

Friday at 2 p. m., Prof. Davis called an assembly of all the pupils of the public school to attend the awarding of the prizes offered by the Woman's Study Club for the best gardens raised by children under 16. There were eight contestants.

Rev. J. J. Handsaker made the speech of presentation and the prizes were as follows: First prize, \$3, Ernest Jacobson; second, James Benjamin Hersey \$2; third and fourth tied by Gertrude Hungate and Byron Goodman, 75 cents each.

We hope that the club will offer prizes again next year and that parents will take greater interest in the matter and that all will urge their children to take part as only a few parents did this year. The judges report that some of the children planted seed at least three times before the crop came, that some had valiant fights with neighbors chickens, others carried water for a month to keep their gardens alive. The lessons of industry, patience, love of nature and of the beautiful which have been learned by these will be a far richer if less tangible prize than anything earned or lost.

Cattle for Sheep.

Will trade a fine lot of cows and several head of young stock for sheep. Inquire of J. D. Myers, on Rinck creek. Address Coquille.

Mr. Glass Here.

Hon. Mr. Glass of California addressed good audiences Saturday night and Sunday night here, going to Willowdale Sunday morning. We shall try to present some of Mr. Glass' facts to our readers a little later.

Have Heard Him.

A few in town have heard Rev. Bower who is to begin revival services at the Christian church next Sunday. Those speak in highest terms of his power as a plain, direct, interesting preacher. As those will be the only services next Sunday, Mr. Bower should have a good hearing.

School Opens.

Last Monday, the 19th, the Coquille public school opened for the year with an enrollment of 210 in all grades. During the week the attendance increased and it is an assured fact that the enrollment will be greatly enlarged in the near future. The building has been enlarged and improved, a corps of seven skilled teachers employed, and all indications point to a successful school year.

A two years high school course has been established and pupils in the surrounding districts who have completed the eighth grade, and who contemplate pursuing advanced studies, are urgently solicited to enter at once.

The first years course or ninth grade embraces algebra, higher English, physical geography, physiology, botany and English literature; the second years course or tenth grade embraces geometry, physics, rhetoric, English literature, latin and book-keeping, penmanship and drawing will be taught in both grades throughout the year.

The tuition for each year of the high school course has been fixed at \$6 per quarter, payable in advance. For further information address the principal, or the chairman of the board of directors.

Death of Mrs. J. D. Waugh

Mrs. J. D. Waugh died at the home of her daughter, Mrs. Ida Wooly, at Burke, Sonoma county, California, on September 6, 1904, of paralysis. The deceased was born February 6, 1846, in Buckanan county, Iowa, and moved with her parents, Mr. and Mrs. Joseph Collier, from Iowa to Jackson county, Oregon, in 1860, coming across the plains with ox teams.

In November, 1863, she was united in marriage to Robert M. Strang, to which union was born eight children, of whom five survive her, as follows: Chas. E. Strang, Mrs. Hulda A. Morris, Mrs. Ida J. Woolley, David H. Strang and Fred W. Strang.

In 1866 they moved to Coos county, locating on the Coquille river two and one-half miles below Coquille City, where they lived until the death of Mr. Strang in June, 1891. Some years later she moved to California, and in July, 1901, was married to J. D. Waugh, of Visalia, in that state. The body was laid to rest in Tulare county.

Peart Mine Sold.

On Saturday a check for \$4000 arrived as part payment on the Peart coalmine, thus making this deal of which we have made mention before, an assured fact. I. E. Brad dock, who was here a short time ago from Las Angeles, is a member of the firm, which will be styled, the Coquille Coal and Lumber Co. It is the purpose of this company to put on a large crew of men and push the development of this mine as rapidly as possible. They have secured a right of way for a road to Cedar Point and a site for a large bunker at that place from which vessels will be loaded. While Mr. Peart has done a great deal of good work on this property, it has been in a small way, but the work has been properly directed, and a well arranged mine is the result. Jno. Tawse, of Riverton, takes charge.

Baby Day.

No fewer than fourteen babies were the guests of the Christian Sunday school last Sunday. The exercises consisted of roll call by Mrs. J. J. Handsaker, superintendent of the Cradle Roll, a solo by Miss Eula Price and prayer by Elder M. O. Hooton. The babies stayed for church and listened, with the best of behavior to a sermon on "One Mother's Influence."

Outgoing passengers: T Raegan, Mrs A L Holder, Ruby and Dan Holder, J Lamont, Mrs J Lamont, Mrs Emma J Lyons, C Crewe, Miss Josie Lyons, Wm Crewe, G T Griffiths, E Doering, Mrs E Hempel, Florence A Rosa, Jas K Macky. Cargo, 250 M lumber, 30 tons miscellaneous freight.

Steamer Chico, arrived Sept. 17th, sailed Sept. 21st. Incoming cargo, 40 tons. Outgoing cargo, 225 M lumber; 25 tons mdse.

John Golden, of Marshfield, was in town yesterday looking after his property interests in this city.

T. H. Mehl & Co's hardware store is headquarters for the Amethyst Enamelled ware.

O. C. Sanford, our young and popular real estate man, started for St. Louis on Saturday. He goes by way of Vancouver, Wash., where he will visit his parents, Mr. and Mrs. R. D. Sanford, and brother, Curtis, who live at that city.

On Sunday evening considerable excitement prevailed in our city over the report that Miss Laura Fox and her sister-in-law, Mrs. Claude For, were lost in the woods near town. During the afternoon the young women went up to the city's reservoir and then on up the pipe line toward its source. When well up in the hills they concluded to return by the North Fork road which comes in by the Coquille creamery but took the wrong end of the road and about six o'clock found themselves at Mr. Shucks, place over on the Noath Fork, John Shuck hitched up and drove them to town, arriving here late in the evening, much to the relief of their folks.

Judge Schroeder and others who are entrested with him in the brick business have burned thier first kiln and they seem to be of fine quality. Only a few tiers near the top have been examined, and from all indications they will prove to be of exceedingly fine quality. On Thursday of this week the kiln will be opened for the purpose of supplying those wishing to purchase. This is an enterprise which our people should not fail to patronize, as it will certainly be a success as to the quality of brick. While the machinery they have is not all that is desired, if the proper encouragement is given, a plant will be ordered that will do better work and turn out a much greater quantity. Mr. Cogins, the burner, is a man of wide experience, and he expresses no fear whatever for the success of the undertaking so far as the merits of the output are concerned.

The late rains have been highly appreciated by all except J. B. Moomaw, of Arago, the hop man. They have interfered to some extent with the picking of the crop, but his injuries will amount to but a small amount. Mr. Moomaw is highly pleased with his experimental crop, and will add several acres to his yard next year, while there are others who are making preparations to start yards next year. This yard being planted last spring, and this the "baby" crop, the results are certainly flattering. In the valley, it is the rule that very little if anything is picked from the vines the first year, while this yard yielded a crop heavier than the average valley acreage. From his ten acre experiment, Mr. Moomaw will get about \$3,000 this year and it should be better next year being much heavier and ripening earlier in the season.
