Daily except Sunday.

Rebellion in Poland.

Berlin, Jan. 31.—The Zeitung this morning reports that a condition of civil war exists in Warsaw. The rebels have erected barricades in the streets. Hundreds of shops have been plundered by the rebels, and they have also wrecked the telephone exchange. They pruned trees of petroleum on the streets, to which they set fire.

A woman posted on a balcony was picked off with a rifle by a cossack who was trying to drive the strikers from the street. The cossack finally shot the woman, but his own life paid the penalty. The mob fell upon him, dragged him from his horse and kicked him to death.

Fighting around the barrade was renewed at intervals throughout the night.

In one section of Isetochows the rebels are masters of the situation and the police have fled. Huge placards have been posted announcing the establishment of a revolutionary municipal regime.

Warsaw, Jan. 31.—Two regiments of infantry and two of dragoons have arrived to aid in suppressing the disturbances.

The chief of police has put a ban on visiting and closed private house to all except the residents.

Many casualties yesterday.

Flat Salary Bill Passed the House.

Salem, Or., Jan. 26.—Kay's flat salary bill passed the House this morning with only two dissenting votes. It provides that the salary of the governor shall be \$5,000; secretary of the state, and treasurer and justices of the supreme court, \$4,500 each; attorney-general, \$3,600. The bill will take effect immediately as to officials named except the secretary of the state and treasurer, and as to them it is effective only after Jan. 1, 1907, when the terms of the present incumbents expire.

The senate today passed Malarkey's bill imposing a penalty of from 10 to 40 years for Holman's juvenile court bill. A review of Sichel's bill to whip wifebeaters has been ordered. It is not likely that this measure will be favorably reported by the committee.

Railroad to Crater Lake.

The engineering crew of the Medford and Crater Lake Railroad Co. will complete the location of the line into Medford this week. Then cross-sectioning will commence and the grade stakes set. As stated before in The Mail, as soon as this work is completed, the company expects to commence construction work, and wish to have it completed to the big timber by the coming fall. General Manager Whithead has been busy engaged for several days past in cutting out several sharp curves and in shortening the line when it approaches the Medford terminal.—Medford Mail.

Musical Festival at the Fair.

Portland, Feb. 1.—A magnificent musical festival, to continue for a solid week, is planned as one of the many attractions for the Lewis and Clark Centennial. A monster chorus of amateur voices, recruited from the various singing societies in the state of Oregon, will be gathered and drilled for months prior to the festival. It is probable that at least 1,000 singers will take part. The concert will be held in Festival Hall, a beautiful exposition structure built for such purposes, which is provided with a large stage, and seating capacity of 3,000 people.

A Ship That Dewey Sunk.

Portland, Feb. 1.—The Don Juan de Austria, one of the Spanish fleet which Admiral Dewey sunk in the battle of Manila Bay, has been raised and repaired and will be sent to Portland to be exhibited at the Lewis and Clark fair. The vessel will be anchored during the fair in the Willamette river, adjoining the fair grounds, together with a number of Uncle Sam's newest and finest warships.

Runaway Auto Mashes Hume.

Astoria, Or., Jan. 30.—William R. Hume, manager of the Tongue Point Lumber Company, is in the hospital with a broken jaw and several minor cuts on the head and Superintendent McGladry, of the mill, has a broken nose and a strained hip. Mr. Hume's new automobile is upside down on the beach at Forty-second street, in Uperstown, and it is because of the latter that the former is true.

Hume and McGladry started down town this morning, about 9 o'clock, in Hume's new auto, and when rounding a sharp turn, while running at a good speed on a frosty plank road, control of the machine was lost and it went through the side railing and down to the beach, a distance of 16 feet.

As the machine started to go over Mr. McGladry jumped off and struck on his head in the sand. He was stunned for a moment, but recovering himself quickly found that Hume was underneath the machine that had turned on top of him. A number of people had witnessed the accident and assisted in lifting the machine so that Hume could be pulled from under it. At the time it was believed that he was fatally injured, and it was almost a miracle that he was not.

Both men will recover within a short time.

Women in Saloons a Felony.

Salem, Or., Jan. 27.—Senator Nottingham's bill to close the side entrances of all saloons probably will be postponed, and a new bill will be introduced to make it a felony for a saloonman or any one else to permit a woman to enter a saloon. That, at least, is the understanding of the case at the present time.

When ever Congress is seized with an attack of economy it begins the virtuous work of conserving the public funds by cutting down the appropriations for the District of Columbia. Like a housewife who has spent too much on the piano lamp and recoups on the food furnished the family, Congress economizes where it lives. Instead of the government availing itself generously of the opportunity to one well governed, non-partisan city of the United States it has the manner of treating Washington like a poor relation to be stood aside in times of stringency. The District of Columbia being without a vote or representation in Congress dependent upon the will of Congress for improvements must wait the good temper of that body for appropriations to pay for its schools, to pave its streets, to extend its boundaries, to protect its health, in fact for all its developments and beautification. As the Capitol of the United States, the home of the President and of Congress and as the government owns more than half the real estate in Washington it is entitled to generous provision, instead of the grudging dispensation. Past Congresses have done much for the city and the taxpayers of the District have responded by contributing vast amounts to supplement those advanced by the government. As a consequence the Capitol of the country has already become a beautiful city but it is in the condition now of a growing child whose garments must be let out. Every year its needs increase and the cost of maintaining it grows in proportion? The appropriations of last year are not sufficient for the proper maintenance of the city this year and in spite of this the Congressional appropriation has been reduced three millions of dollars. The sub-committee recommending the appropriations was inspired to make a record of economy and is without a doubt entitled to the record of "Uncle Joe," the watchdog of the Treasury, and the Father of Danville, Illinois, is entitled to most of the credit for the careful pruning of the bill by which practically every item suggested by the commissioners for the development of the District has been stricken out.

Late War News.

Tokio, Jan. 31.—The Japanese have strongly fortified Heikina, the capture of which it is believed will materially weaken the Russian position and probably compel a change of the Russian front in that vicinity.

Mukden, Jan. 31.—The wounded from the right flank continue to pass to the rear. It is officially reported that the wounded number 3500. General Mistonenko's injuries are not serious.

The Japanese are systematically informing the Russian rank and file of the disturbances in Russia, hoping thereby to create disaffection among the soldiers, who eagerly read the communications.

London, Jan. 31.—Oyama reports that the number of Russian dead left on the field since Jan. 25th is not less than 1200.

St. Petersburg in Quiet.

St. Petersburg, Jan. 30 (12:28 P. M.)—Most of the factories and mills of St. Petersburg are in operation today, and the strike to all intents and purpose is ended. A few large establishments have not yet fully resumed operations, owing to the official formalities necessary in registering their thousands of employees.

Portland, Or., Jan. 31.—The Federal grand jury today completed a two weeks investigation of the Butte Creek Lumber and Livestock Company.

The evidence introduced shows that H. H. Hendricks, who was raised in Binger Hermann's family, was appointed United States Commissioner during Hermann's term as Land Commissioner. The company acquired over one hundred claims during Hermann's regime.

When the Road Supervisors of a county set a date upon which to meet with the County Commissioners and devise plans for scientific and systematic construction of roads within their jurisdiction, the indications are favorable for good roads. This course has been decided upon by the Road Supervisors and County Court of Linn County, and there is reason to hope for beneficial results in due time.—Oregonian.

Anti-Gambling Bill.

Following is the text of the bill introduced by Representative Gray in the House, and which at last accounts was in the hands of the committee of cities and towns:

Section 1. Any person who shall conduct, carry on, open, or cause to be opened, either as owner, proprietor, employe or assistant or in any manner whatsoever, whether for hire or not, any game of faro, monte roulette, rouge et noir, lansquette, ronde, vingt-un (twenty-one), poker, draw poker, brag, bluff, thaw, tan or banking or other game played with cards, dice or other device, or any slot machine or other gambling device, whether the same be played for money, checks, credits, or any other representatives of thing of value, in any house, room or shop or other building whatsoever, boat, booth, garden or other place, where persons resort for the purpose of playing, dealing or operating any such game machine or device, shall be guilty of felony, and on conviction thereof shall be imprisoned in the penitentiary for the period of not less than one year nor more than three years.

Chamberlain's Cough Remedy the Mothers Favorite.

The soothing and healing properties of this remedy, its pleasant taste and prompt and permanent cures have made it a favorite with people everywhere. It is especially prized by mothers of small children, for colds, croup and whooping cough, as it always affords quick relief, and as it contains no opium or other harmful drug, it may be given as confidently to a baby as to an adult. For sale by R. S. Knowlton.

NOTE AND COMMENT.

The New York World recommends the establishment of hospitals for drunkards where they may not be degraded by association with criminals. This will, no doubt, have an elevating effect on the criminals but why not substitute the whipping post for the luxurious hospital?

Bishop Satterlee says that "woman's convivial habits in smoking and drinking make her the reverse of an elevating influence." Rev. Dr. Hillis of New York says "the history of the world has been the story of man's attempt to satisfy woman's whims." It looks as if the Bishop and Rev. Hillis had fallen into bad company.

"It's a riot," said Louis XVI as he looked out up on the mob at Versailles. "No, Sir, it is a revolution," replied a courier. Is it a riot or a revolution that the Czar looks out upon at St. Petersburg?

Governor Folk proposes to license lobbyists. A Civil Service examination would be a better plan for reducing their number.

It may be we shall have six expert "commercial attaches" who will keep watch of our consuls. Who then shall we get to watch the attaches?

In the bill for appropriations for the District of Columbia recommended to the House by the District committee the item of playgrounds was among the many other important omissions. All of the large cities are interested now in providing playgrounds for children and while the city of Washington is perhaps less in need of them now than other less sanitary and more crowded cities it is in the interest of future economy to provide them as early as possible. Ground is being condemned and set aside for these purposes in London now at a cost of many millions, which if bought twenty or thirty years ago might have been procured for thousands.

Miss Estelle Wyman who "cross-heeled" a flirting New York man and with one hand on his collar and the other at his back sent him to the pavement, says she learned the trick in San Francisco.

The number of bills introduced in Congress favoring river harbors and post offices seems out of all proportion to the number relating to the regulation of railroad rates.

Salem, Jan. 31.—Cascade county, with the court house at Hood River, has a fair prospect of going into the eastern Oregon sisterhood of counties. The House today unanimously passed the bill to create that county.

Berlin, Jan. 28.—The well-known comedy actor, Forst, went mad this week on the stage of the Municipal Theater at Hamburg while playing the part of Judge in "The Duchess Padua."

Starting but True.

People the world over were horrified on learning of the burning of a Chicago theatre in which nearly six hundred people lost their lives, yet more than five times this number or over 3,000 people died from pneumonia in Chicago during the same year, with scarcely a passing notice. Every one of these cases of pneumonia resulted from a cold and could have been prevented by the timely use of Chamberlain's Cough Remedy. A great many who had every reason to fear pneumonia have warded it off by the prompt use of this remedy. The following is an instance of this sort: "Too much cannot be said in favor of Chamberlain's Cough Remedy, and especially for colds and influenza. I know that it cured my daughter, Laura, of a severe cold, and believe saved her life when she was threatened with pneumonia." W. D. Wilcox, Logan, New York. Sold by R. S. Knowlton.

A piano for sale on easy terms. Will take part in trade. Enquire at this office.
Mackintoshes, Storm Coats, etc., at Strang's.
