

Navigation of the North Fork.

Regulations to govern the floating of loose timber and logs and other methods of navigation on that portion of the North Fork of the Coquille river, Oregon, between its mouth and Gravel Ford, at the junction of the North and East Forks.

In pursuance of the authority conferred by act of Congress approved May 9th, 1900, entitled "An Act authorizing the secretary of war to make regulations governing the running of loose logs, steamboats, and rafts on certain rivers and streams," the following regulations are prescribed for the North Fork, whereon the floating of loose logs is the principal method of navigation.

REGULATIONS:

That during the one hundred and forty-four hours extending midnight of each Wednesday to midnight of the following Tuesday, loose timber and logs, and sack rafts (so called) of timber and logs, may be run, and parties engaged in this business may use the waterway in such reasonable manner as may be necessary for the proper transaction of such business, providing that during any other period than that designated above, said parties shall so arrange their work as to leave the channel of said section of the river free from floating logs and timber and shall not obstruct or delay any other navigation interest.

Newport News, Feb. 1.—With representatives of the Argentine Republic and British governments, among others on board the submarine boat Simon Lake "X" today was submerged 38 feet and returned to the surface in 30 seconds. This cuts in half the record held by the French type of submarine, which is one minute.

Another record was broken in filling the ballast tanks for the submergence. The tanks were filled in 9 1/2 minutes, the best previous time being 15 minutes, made by a French submarine. The Simon Lake "X" made a speed of 9 1/2 knots an hour with decks awash, and, submerged, traveled 8 1/2 knots.

Tokio, Feb. 4.—General Oyama reports that Thursday the Russians bombarded the Japanese right wing at several points, and two assaults by small forces on the center were also repulsed, Friday.

Since February 2nd enemy has been attacking the left wing with two rifle brigades, which were repulsed with a loss of 700. The Japanese witnessed the removal of 300 Russian dead.

The Russian dead interred since the battle of Hookoutai, in the neighborhood of Sumpa, alone number 900.

Lampa Creek Mill.

Messrs Cody and Addis, of Duluth, Minnesota, arrived here yesterday and proceeded down to Lampa creek where these gentlemen with Col. Wm. Coach have large timber interests and will in the near future proceed to erect a large mill.

Those gentlemen having a market in view for at least eight million feet of lumber per year, and they have the timber to keep them going several years at that rate, which assures us that this will be an industry of no mean proportions which will be a great benefit to community in doing its part toward the development of our section.

After attending church one day the editor of a West Virginia paper went to his sanctum and penned the following:

"Ladies should take off their hats in church. No preacher can inspire a man who is looking into a lopsided aggregation of dead birds, stuffed weasels, chameleon skins, ribbons, beads, jets, sticks, straw, paper flowers, corn tassels, and thistle down. It makes a sinner feel lost in the wilderness.

A Letter From "Uncle Sam."

Red Bluffs, California, February 2, 1905.

EDITOR HERALD: I am reminded by the semi-weekly visits of your excellent paper that we are not forgotten by the HERALD force. Long may they wave! My wife and I left Eugene on Jan. 9th, and arrived here the following day, where we are having a very nice visit with Mr. and Mrs. G. W. Cannon, a brother of my wife, and who had not met for almost forty years. It is no secret that these two grandmas were giddy girls together. Oh my! Just many years ago. "Are they talking of old times?" Now, Mr. Editor, I am astonished to think you should ask such a question. To tell the truth (confidentially) the days and nights are all too short when talking of fifty years or more ago.

Our son John, and his family, well-known in Coos county, left for Jamaica to enter the missionary field, the same time we departed for California, and after many delays caused by the cold weather and snow storms, they reached Baltimore in time to take the steamer on the 18th. As a faithful chronicler of events, I must relate an adventure that for a time was quite exciting to the whole family. About 9 a. m., Mrs. Handsaker and dear little Lois, their babe, was placed on the vessel, with the understanding that they would not sail until 3 p. m. John had some business on hand, and imagine, if you can, what his feelings were when at 12 o'clock he returned and found that the ship had been gone forty minutes. The agents saw at once that they were to blame and proposed to give him free passage on another vessel from Philadelphia, but of course he would not for a moment listen to this proposition. But to make a long story brief will say that with the aid of the 'phone system of communication, some of the pilots down the bay was notified, and the captain of the steamer was ordered to return, which he did, meeting the excited minister on board a tug on which he had been placed, many miles from the port. "If our family was small it was a happy one," we are assured.

They expected to make the voyage to Kingston in about five days, but up to this time, probably on account of delayed mails, we have not received news of their arrival. Since our arrival here the weather has been quite wet, "the most we ever saw" say the pioneers.

After making our home in Oregon for more than 50 years, we shall return in a few days, as we believe it the best state in the union. Please address the HERALD to Eugene. With kind regards, "UNCLE SAM" HANDSAKER.

Riverton Pick-ups. There is a rumor that one of our business firms will soon change hands.

Mr. Elwood and family have moved on the Nosler ranch on Iowa slough.

Mr. A. H. Post and family, late residents of Curry county, have leased the Riverton hotel for one year. From all appearances now, we believe they have now entered upon a business for which they are fully qualified. Moreover we believe they are the right people in the right place. Give them a call and see.

Many new faces are now seen upon our streets. The coal mine attracting many strangers to our town.

Several coal mines are being opened in the neighborhood of this place for the purpose of supplying local demands. DONNA ANNA.

Sperry Flour Co.

Dear Sirs: My parents have used Sperry's Flour for several years and they like it best because it makes the lightest, sweetest and whitest light bread.

It does not require so much kneading and makes more bread to a sack than any other brand. Makes the best biscuits, cakes and other pastry, because it rises quickly and is cheaper, for you can always depend on every sack being good.

Therefore we think Sperry's Flour is the very best flour made, for with other brands of flour you will sometimes get a poor sack. Yours very truly, Bessie DeLong.
