Mr. Geo. E. Peoples, an expert butter maker and creamery manager with 16 years experience in California, has leased the Coquille City Creamery from Nosler & Lyons and will fit it up with the latest improved machinery, such as Pasteurizers, cream ripeners, refrigeration and cold storage. Butter made by this method is said to keep three or four times as long as ordinary butter. This will prove a great advantage to the dairy interests of this valley as our shipping facilities are so irregular butter is often off flavor when it reaches the market and has to be sold for second or third grade. The plant will have a capacity of over a ton of butter per day. Mr. Peoples is at present in San Francisco and will return on the next Breakwater with machinery.

The garden seeds which Knowlton sells at three papers for ten cents have been thoroughly tested and are strictly reliable.

The meeting of the Merchants' Protective Association held last Thursday night was an unusually interesting one and the attendance was large. Almost every merchant in town has signified his intention of joining this association. This will, no doubt, be a very profitable organization to both the merchants and their patrons. It is only the ones who do not show an inclination to pay their honest debts at which they are aiming, and if they succeed in making the delinquents pay up, or through co-operation save themselves loss in the future from bad debts, it will work to the benefit of the buyer who pays his debts; because merchants are compelled to place their prices high enough to cover their losses on bad debts. From the lists of bad accounts in the hands of the secretary it appears that our merchants have lost, in the last year, about \$10,000 on bad accounts. At this rate it is certainly time that steps were being taken to prevent a recurrence of this. The association will benefit the buyer who pays his debts as well as the merchants, and may be the means of making honest men of some who could scarcely be called such from their past record.

EDITOR HERALD: Since Senator Coker has seen fit to publish my letter and his reply to it in the Portland Telegram and Coast Mail, I trust you will also publish both letters so that the Senator's constituents may read them and decide for themselves:

1st. Whether or not it was proper for an attorney to take a case in court which he knew would come before him as a Senator in the legislature, and

2nd. Whether the Senator's reply to my letter does or does not imply that the people of Coos county do not know, or are not capable of deciding, what is to their best interests. This is a question of the people having their expressed will regarded or disregarded. I am sure the people know their own mind and I leave the decision to them, feeling assured that they will speak their mind, when the opportunity offers.

ADOLPH HABERLY, Secretary Coos County Law and Order League.

(Myrtle Point Enterprise.)

When Should Glasses be Worn?

When one does not recognize his friends on the street; when he has to turn the light very high to read; when he has to hold the print too far away from the eyes; when his eyes ache or water; when he has head aches, which head ache won't cure; when things look misty or double. When your eyes trouble you this way it is time for you to have your eyes examined.
