Connects with lower-tier boats at Coquille
City for Bandon and intermediate points.
Ample barges for handling freight.

Business is a Sound Basis.

Unquestionably the business of the country is in good condition. In all the important centers of manufacture and trade business is better than it was a year ago. It is shown in larger orders for goods, in increased bank clearings, in projects of railway extension.

Wages, on the whole, are better. The output of all business is greater.

Reports of financial transactions in Eastern centers show that money is not lying idle. It is at work. Building operations show improvement, wages are maintained, and in general prices are maintained. All these conditions indicate healthy state of business. Many persons have thought, or professed to think, that re-acton or reverse, from the favorable conditions of the past seven years, was due this year. There has been so much to this effect that timid ones have actually been expecting the predicted consequences. But, contrary, there has been actual improvement since last year.

On all sides there are proofs that the American people believe that their industry and business are on a sound basis. The main trouble in the period from 1892 to 1897 came from the attack on the money standard. That was a dreadful experience, not likely to be renewed—impossible, indeed, of renewal. Sound money assures continuous industry, sound values and steady prices.—Oregonian.

Down in Mexico there is a fellow who owns the largest farm in the world. His name is Don Luis Ferrazas, and he is said to be the richest man in that country. His land holdings cover a space 200x150 miles and comprise 15,000,000 acres. There is kept on this vast expanse a million cattle, 180,000 horses, and 750,000 sheep. A packing plant which uses 150,000 head of cattle and 500,000 sheep yearly is part of the equipment of the establishment. Over 2,000 pure-bred beef bulls have been imported from England and the United States for use on its herds. The sheep have been improved by the use of rams of the leading breeds. It has also several modern fire stations situated at convenient points, for cutting off grass fires, where watchmen are continually on the lookout for troubles of this kind. It is situated in the state of Chihuahua. Over a thousand men are necessary to care for and operate this farm. Mr. Ferrazas must certainly have his hands full, and what a pleasure (?) it would be to pay the taxes on such an estate as his were it in the northwestern part of the United States.—Homestead.

Paul De Laney has spent five years in traveling in Eastern Oregon, Washington, Idaho and California, and has seen every phase of life in this vast region. His first novel was "The Lord of the Desert," which was inspired in his travels through this country. His second novel, and more popular than the first was "The Toilers of the Columbia," but now he has written a better story still—a story that will live. It is a new feature in fiction. It deals with the great range wars, the timberland frauds, and the irrigation projects in a romantic spirit. See this paper about getting the story.

Chamberlain's Cough Remedy the Best and Most Popular.

"Mothers buy it for croupy children, railroad men buy it for severe coughs and elderly people buy it for la grippe," say Moore Bros., Eldon, Iowa. "We sell more of Chamberlain's Cough Remedy than any other kind. It seems to have taken the lead over several other good brands." There is no question but this medicine is the best that can be procured for coughs and colds, whether it be a child or an adult that is afflicted. It always cures quickly. Sold by R. S. Knowlton.

"The Shepherd," Paul De Laney's new novel. Call at this office and let us tell you about it.

Why buy Eastern bacon and hams when you can get the good, wholesome Coos county product at the City Meat Market.

Hops.

The hop market in the northwest is assuming a firmer and a more determined tone as the fact appears to become more patent to brewers that there are not hops enough in the United States to supply the demand until Oct. 1, 1905. The dealers in hops now claim that 40c per lb. will be reached before June 1, and possibly 50.

The hop pool in England is at last an accomplished fact. The last papers were signed Feb. 21, according to a cablegram received by Tacoma dealers, says the News. This hop pool controls 30,000 bales, or practically all the unsold hops in England. These 30,000 bales have been removed from the market entirely. No price is set on them, and it is claimed that at the present time any price could buy them. This pool is expected to have a strengthening effect on the market of the world. The supply of saleable hops is now down to where anyone may figure out their location, and anyone may know about how much money it is going to take to buy them. There are 30,000 bales on the Pacific Coast. There is no pool on these hops, but there might about as well be, for the holders are sticking by each other. It is claimed that it is next to impossible to buy a bale of choice hops within 10c of the quoted market price.

Krebs Bros., of Salem, Or., have issued a circular letter to hop growers denying the report circulated that they were unloading hops at any price and stating that they had not offered a bale for sale in two months and do not expect to sell hops until May or June unless the market advances beyond 35c per lb.

Sixty bales of medium to prime hops of the Linton crop at Eugene, Or., were sold last week to Isaac Pincus & Sons at 26c per lb.—Trade Register.

Freightful Suffering Relieved.

Suffering frightfully from the virulent poisons of undigested food, C. G. Grayson, of Lula, Miss., took Dr. King's New Life Pills, "with the result," he writes, "that I was cured." All stomach and bowel disorders give way to their tonic, laxative properties. 25c at R. S. Knowlton's drug store, guaranteed.

Reports no Change.

St. Petersburg, Mar. 31—General Linevitch reports as follows: "There is no change in the situation, although the enemy is displaying great activity east of the railroad. A heavy snow fell during the night."

St. Petersburg, Mar. 31—General Linevitch reports that the Japanese have begun a general advance of their main army, with the wings extended, and a heavy reconnaissance is being made against the Russian center, the object being the enveloping of the Russian position.

Sanitarium Burned.

San Bernardino, Mar 31—The California Sanitarium was burned this morning. The loss is \$4500. The patients were rescued through the heroic work of Head Nurse Hopkins.

Earl Courtney, a dream prophet in the United States Government Printing Office announces that he will be a candidate for President on the Spiritualistic platform in 1908. It is probable that there will be an opportunity for a candidate for his place in the printing office when the present President hears of his "Pernicious political activity."

Cheated Death.

Kidney trouble often ends fatally but by choosing the right medicine, E. H. Wolfe, of Bear Grove, Iowa, cheated death. He says: "Two years ago I had Kidney Trouble, which caused me great pain, suffering and anxiety, but I took Electric Bitters, which effected a complete cure. I have also found them of great benefit in general debility and nerve trouble, and keep them constantly on hand, since, as I find they have no equal." R. S. Knowlton druggist, guarantees them at 50c.

FOR RENT—A good house and several nice garden lots. Apply at this office.

Centennial Notes.

"Hit the Trail" at the Lewis and Clark Exposition, opening in Portland, June 1.

Captive balloons, airships and an aerodrome will prove very interesting features of the Lewis and Clark Fair. A number of flying contests are being arranged.

Hon. Carlos Cofigny, secretary of state of Cuba, and a number of his distinguished countrymen have announced their intention of visiting the Lewis and Clark Exposition.

Two hundred Igorottes, Moros, Negritos and Visayans will sail from the Philippine islands this week for Portland, where they are to participate in the Exposition.

A feature of the Government Fisheries exhibit at the Lewis and Clark Exposition will be a miniature reproduction of the Columbia river, illustrating the various methods of catching and spawning salmon.

Mrs. Eliza Warren, the oldest living white child who was with the famous Marcus Whitman expedition and a survivor of the Whitman massacre, will visit the Lewis and Clark Centennial.

Ventura county, California, famous for its beens, beets and United States senatorial aspirants, will make a thorough and distinctive exhibit in the California building at the Lewis and Clark Exposition.

Designs for the new passes, stockholder's tickets and commutation tickets for the Lewis and Clark Exposition have been received by the Director of Admissions. The drawings are elaborate and depict scenes closely associated with the history of the great Northwest.

Miss Evelyn K. Clark, granddaughter of former Governor William Clark of Missouri, and a lineal descendant of George Roger Clark and Meriwether Lewis, will be a visitor at the Lewis and Clark Exposition. Miss Clark is prominent in New York society circles.

An exchange says: Pat had a black eye and thus explained it: "Sure'en I got ut in the most inercent way possible. I see Mrs. Murphy, an' I sez to her, sez I, 'It's a fine marn'n', Mrs. Murphy, sez I.' 'It is,' sez she, 'An' where are yez going?' sez I. 'To the bargain store,' sez she. 'An' wid that I went down the strate wid her. Whin we came to de shtore they was a crowd an' sez she: 'Oould the baby a minit till I come back,' an' I helt the kid. An' Murphy kim up. 'How ar' yez?' sez he. 'Oh, I'm holdin' me own,' sez I. 'You're a liar, sez he. An' thin he hit me.'

That the soil of the western part of Oregon is well adapted to growing English walnuts is again demonstrated in the large new orchard on John B. Stump's farm adjoining Monmouth, Polk county. The trees were planted early last year and so far but one tree has died, and it was injured during the plowing. There has been a great number of new walnut orchards started in this part of the northwest during the past twelve months and the industry will be among the principal ones of agriculture a few years hence.—Homestead.

It is said that Mrs. Reader obtained a \$5,000,000 contract from the Sultan of Johore. This Sultan or Rajah has, under direction of the English partial control of 200,000 people and million dollar contracts are unheard of novelties. There seems to be a plot among the reporters to find some woman financier who can beat Mrs. Chadwick's record.

Keep your bowels regular by the use of Chamberlain's Stomach and Liver Tablets. There is nothing better. For sale by R. S. Knowlton.

Don't forget I am still agent for the old reliable De Laval Separator. If you want a separator I can sell you one on any terms you desire; money is no object, so it is up to you. Mr. Dairyman. S. M. NOSLER, Agent, Coquille, Oregon.

Three papers of first-class, northern-grown garden seeds at Knowlton's for ten cents.
Three papers of garden seeds for 10 cents at Knowlton's.

NOTE AND COMMENT.

The proposed tax on coffee will find one honest advocate in Mr. Post of Grand Rapids.

"The true end of every great and free people should be self respecting peace."—Theodore Roosevelt.

Statistics of the Mothers' Congress show that most of the mothers are either grandmothers or spinsters.

Dr. Dowie says he can raise the dead. He might be invited to try his hand on the Santo Domingan treaty.

Philadelphia is trying the efficacy of prayer on dishonest voting. Colorado is watching the experiment with interest.

Shoe manufacturers say the high heel for women must go. That is just what it has been doing for the last year or so.

The President will find the tame bears of Texas small game after the "grey wolves of the Senate" which he has hunted all winter.

"We want men who can do things," says J. Pierpont Morgan. Mr. Morgan will be a poorer man if that kind of men ever get into the Senate.

We do not believe in chloroform extermination for men over sixty but just enough to keep them from being too obstreperous might be advantageous.

By paying a yearly tax of ten dollars in Paris women may wear trousers. In this country they wear them for nothing and no man has the courage to raise an objection.

The circus trust has concluded to cut Denver out of its circuit this year. Denver is indifferent though for there is a continuous vaudeville at the State House.

A Kansas City man has been sentenced to jail for two years for selling his vote for fifty cents. Rigid measures are necessary for the man who tries to cut the price of votes.

It is the unnecessary of life that create the National and private deficits. Although Cuba's treasury is on its last legs their Congress appropriated half a million dollars for a National theatre.

Vice-President Fairbanks is determined to become a thirty-third degree Mason. He probably has something of the same feeling about the Presidency though the opposition is stronger.

Mrs. Reader is willing to assume responsibility for the late lamented Santo Domingan treaty but how about the Santo Domingan treaty that was presented to Congress by President Grant?

The Filipinos are not much alarmed at the report that they are to be captured by the Japanese but it is that junketing party whose expenses they must pay that is troubling them at present.

A United States Senator paid three thousand dollars the other day for a spoon which was made many years before the Senator learned the inconvenience of eating peas with his knife.

When the President deplored the small families of the better class of Americans he had not yet seen the number of transportation passes required for the families of the Congressional junketers this summer.

Secretary Hay, it is said, will resign from the Cabinet on his return from his sea voyage. The country will lose a good man in the Secretary but it will be glad to let go of one who is so obviously bored by his work.

John Warner of South Dakota wants his pension discontinued because he has regained his health. The Pension Officers are inclined to continue it on the ground that while his health may have been restored, his mind has certainly become affected.
