### Festus of Vitellius.

Vitellius is said to have spent as much as 404 sestertia (about \$4,228 of English money) on his daily supper, and the celebrated feast to which he invited his brother cost \$40,850. It consisted of 2,000 different dishes of fish and 7,000 of fowls, with other equally numerous meats. His daily food was of the most rare and exquisite nature. How to Hire a Cook. My father had an odd but quite effective way of doing things. He once sent to an employment office and told the proprietor to send him the very best cook obtainable. A portly and quite overwhelming woman appeared. My father asked her if she could boil a potato. She was speechless. "Very well," said my father, "go and boil one, and cook me a mutton chop." The portly person sailed away and shortly a perfect potato and a faultless mutton chop appeared. "Good," said my father, "you are engaged." That cook was in our family for twenty years.—E. H. Sothorn's "The Melancholy Tale of 'Ma'."

Hearing of Wickedness in City, Girl Carries Revolver.

Appleton, Wis.—"Up home most of the people carry revolvers, and I thought I had better take one with me when I came to Appleton. It is dangerous in the big cities, they told me, and I wanted to be safe."

This was the excuse given by a young woman from Norway, Mich., who caused a mild panic on a street car here when a big revolver which she carried in a handbag dropped to the floor of the car. The girl stooped and hastily picked up the weapon, placing it in her handbag, but the conductor, who saw her, fearing trouble, called a policeman. Investigation showed that the girl wanted work, and she was turned over to the civic relief head of the city.
