Our item about the departure of Mr. and Mrs. Hamilton last week lacked two words that would have made the meaning clearer. The afternoon he left, Dr. Hamilton informed us that he had received an offer of a salary of \$1,250 per month to act as surgeon and physician for a lumber company at Gray's Harbor. SAVES CHILD FROM BEAR.

Uncle Seizes Little Boy Tuddling Toward the Wild Animal. Leavenworth, Wash.—A little three-year-old boy running toward a big brown bear caused quick action on the part of William Peopmeller, a Chumstick rancher, the other day. Mr. Peopmeller was loading a car of wood at the siding, and his little nephew was playing about the car when Mr. Peopmeller was attracted by his two dogs barking in the underbrush about 100 feet distant. He observed the bear coming out of the canyon and also saw the child going to meet it. The child had not seen the animal, but was going over to where the dogs were. Mr. Peopmeller reached the child and, with it under his arm, ran a short distance to the house and got his rifle. He got a few shots at the animal before it again entered the brush, but failed to hit it.

Tuesday Lyceum Lecture

J. C. HERBERMAN.

J. C. Herberman, the Chautauqua lecturer, will arrive in Coquille Tuesday to present the third number of the local lyceum course. Since leaving the University of Washington where he was head of the department of public speaking, Mr. Herberman has been constantly engaged by lyceum and Chautauqua bureaus for platform work. His great lecture, "Life's Balance Sheet," has been delivered probably five hundred times to as many delighted audiences all over the country. The following letter which is one of the many similar communications that have been received, gives some notion of the esteem in which he is held by those who have heard him. This particular letter is of interest because it comes from a town that is having the same course as ours.

Paonia, Colo., Jan. 6, 1917. Gentlemen: "Mr. J. C. Herberman lectured here two nights ago and it certainly was fine. Many people have told me it was the best entertainment we have had so far and that is saying quite a good deal because we've had the Hawaiians and the Lyndon-Gordon company, both having been received with great enthusiasm. In fact, we thought so much of him that we made arrangements for him to lay over a short time and give us another lecture." Signed Geo. Van Deren.

The Coquille course has been good throughout but it is safe to say that a fine, inspirational lecture such as Mr. Herberman's will make a more lasting impression than any other entertainment that might be offered. For those not holding season tickets the price of admission will be fifty cents, school children, thirty-five. The date is Tuesday, February 27, at 8:15 p. m.

Coquille and Myrtle Point.

This week's basket ball game will be tomorrow (Saturday) night between Coquille and Myrtle Point on the Masonic floor here. Next Friday, March 3, Bandon closes the season on the local floor. On March 9 Coquille goes to North Bend for the last game on her schedule.

The first game Saturday evening will be between the Sophomore and Junior high school girls' teams and will be called at 7 o'clock. The second game will follow between the second teams of Coquille and Myrtle Point while the main event will follow that.

Buck Attacks Cattle. A four pronged buck has been annoying cattle on farms in Frankstown township. It was first seen at the Bagshaw farm, where it mingled with the herd in the barnyard. When the kids objected to this intrusion the antlered monarch growled several of them silently and disappeared in the mountains. A day later the buck joined the cattle in a field of the Ell Moore farm and after an encounter with them was driven off with difficulty. He did not seem to be in the least timid.
