Clarke dressed it and the father and son are remaining in town that the doctor may give it all the attention required. The boy is 13 years old and is a real soldier in the endurance of pain.

Did They Fly Over Here?

The Sentinel didn't mention it heard about airships flying over Coquille two or three weeks ago because people so often suffer from hallucinations of that sort; but the Gold Beach Reporter gets the story right down pat after this fashion:

The residents of Agness were awakened Wednesday night of last week by the passage of a flock of five airplanes over their locality about midnight. Mrs. Ellen Fry, who was awake, was attracted by the flashes of light and noise by them, and arising watched them as they passed overhead, going northwest, over the Lake of the Woods and head of Lobster creek country. Other residents of the locality were awakened by the noise of the propellers, but did not get to see the planes. There were five lights and the craft were nearly abreast, at some distance apart. The crafts are supposed to have been en route from aviation headquarters at San Diego to Puget Sound.

OLD VIRGINIA MINSTRELS PLAY TO CROWDED TENT

The Colored Minstrels gave an amusing production under canvas at the corner of Third and Jackson Streets last night. The crowd filled the tent to its capacity. The acts most worthy of comment were those of the Clark Brothers, who opened the performance. Edwards was excellent on the slack wire and proved himself to be an exceptionally good dancer and comedian. A very unique cigar smoking act by Watts, giant and funny fellow was highly commendable and his imitation of a trombone was very clever. The feature of the entire performance was a fire eating and contortion act by Hi Henry Hunt. There was a good band and orchestra which furnished music for the songs through the entire show. The Old Virginia Minstrels leave this morning for Marlin in their two private cars which are also worthy of mention.—Cheyenne Press, Cheyenne, Wyo.
