

MINOR MENTION.

Telling About People and Events in the City and County.

D. Perazi left for Ashland on Wednesday.

Fork advanced to \$15 a hundred at Portland Tuesday.

Neil Hawley, of Lee, was in the city last Saturday.

Fred A. Baker was in from Brewster valley yesterday.

J. E. Norton made a business trip to the Bay yesterday.

Monday Charles Harlock went over to the Bay on business.

Sam Stout, of the McKinley district, was in town yesterday.

F. E. McKenna was up at Myrtle Point on business yesterday.

Geo. W. Moore, of Bandon, was a business visitor here Monday.

Robert Carter went out with Guy Kelley Monday morning to enter the army.

T. M. Hermann, of Broadbent, went out yesterday for a visit with his brother, Binger, at Roseburg.

Miss Christina McIntosh, chief operator at the telephone headquarters here, spent Sunday over at the Bay.

The Coquille Orchestra will give a dance at Heazlet Hall tomorrow (Saturday) evening. Admission 75 cents.

Go to the Seaside next Monday night and see "The Bugler of Algiers," and at the same time help out the Honor Guard.

P. C. Levar, who severed his connection with Herald three weeks ago, is seriously ill with a complication of troubles.

Mrs. Hugh Porter Walls and Miss Elma McDonald returned Saturday evening from a several months' stay in California.

County Surveyor McCulloch has completed work on the survey of the road from Glasgow to the North Slough country.

The Honor Guard dance at Heazlet's hall last Saturday night proved a very successful affair netting the Guard treasury \$76.

The program for Memorial Sunday and Decoration Day services here on the 27th and 30th will be printed in next week's Sentinel.

G. J. Armstrong, who is supervising the repair of the Hoffman bridge above Myrtle Point, was in town Tuesday for a load of lumber.

City Recorder J. S. Lawrence expects to leave Monday morning for the Grand Lodge I. O. O. F. to be held in Eugene beginning the 23rd inst.

Assessor J. P. Beyers went over to Marshfield Tuesday to look over some pieces of property on which a readjustment of assessment is being considered.

The Simpson Estate Company at North Bend has planted five acres of spuds on its vacant lots at Oldtown and will thus do its bit to reduce the H. C. L.

A big lot of butter box material from a Bandon mill for the Coos Bay Creamery came up here by boat Wednesday and was transferred to the railroad.

Harry Totier came over from the Bay Tuesday to spend the balance of the week at home. He is one of the Southern Pacific bridge crew for this division.

Flour dropped 90 cents a barrel and sugar 25 cents a sack in Portland Wednesday, which is a welcome change from the way things have been going lately.

The annual spring clean-up has been postponed until the road is in such condition that the dump on the hill east of town that a team and wagon can get to it.

J. L. Smith went up to Reedsport this morning to pick out a pure bred bull and some cows offered for sale there which will be placed on Coos county dairy farms.

W. E. Wilson, assistant superintendent of the Portland division of the Southern Pacific, was over here inspecting the local line of that system the first of the week.

People who have been over at the Bay recently tell us that from the wavering steps of some of the men on the street there, it appears to be doubtful whether the bone dry law is being enforced there as well as it might be.

Let it rain, it makes the grass grow, the cows will give more milk and we will have our second shipment of ladies and misses' hats in by the time it clears up. The Ladies Bazaar.

Mrs. J. C. Single and son Calvin went over to Marshfield Tuesday, there to take the Adeline Smith for Oakland, where Mr. Single is located and where they will make their future home.

The County court will meet tomorrow (Saturday) to open the bids for the construction of the Coquille-Fairview, the Empire-Sunset Bay and the Coos Bay North section of the coast highway.

A petition for the probate of the will of Mrs. Elizabeth Thomas was filed in the Probate court last Saturday. The estimated value of the estate is \$4,500 real and \$1,050 personal property.

C. McC. Johnson came up Saturday night from Bandon and reports work on the renovating and remodeling of the woolen mill going ahead in good shape with the opening of the mill but a short time ahead.

Last Monday night well have been termed "Cupid's Day" at the county clerk's office. There were six marriage licenses issued that day and they weren't for the avoidance of military service either.

Judge Watson was over at Marshfield Monday to discuss the Coos City bridge question with the Coos Bay Port Commission. The commission split fifty-fifty on the bridge question and nothing was done.

Six young men from Bandon came up on one of the boats Tuesday afternoon with a fair-sized jag on. One of them was so hilarious that Marshal Epperson locked him up for a few hours to calm down.

W. G. Chandler, who was the architect of the court house annex, and Wm. Goodrum, both of Marshfield, have been chosen as candidates for instructors at the training school for U. S. Army officers at San Francisco.

H. M. Law left Monday morning for Corvallis where he will attend the district conference of his church which will be held at McFarland Chapel which is near the latter city. He expects to be absent about two weeks.

John Durham, who recently completed the organization of a Moose lodge of 235 members at Powers, was in town three or four days this week, but decided not to start a campaign for new members of the local lodge here at present.

The "Busy Corner" was certainly busy Saturday selling that \$10 a barrel flour they advertised in the Sentinel last week. Their sales were largely in excess of what they anticipated, all they had of the brand being taken to the amount of 320 sacks.

Superintendent Baker informs us that he has just received word from State Superintendent Churchill, that under a new law enacted this year, no alien who has not been admitted to citizenship will be permitted to vote at a school meeting in any district in this state.

Mrs. V. L. Hamilton and son, Earl, came in from Portland Wednesday evening to join the doctor, who has resumed his practice here. He has about completed plans for opening a fully equipped hospital in Coquille and will be ready to announce them soon.

Mrs. R. S. Knowlton, Mrs. O. H. Knowlton and Miss Naomi Knowlton got home from San Francisco Tuesday noon. Miss Naomi has been attending the University of California during the school year just ended and her mother has been keeping house for her.

Mrs. T. H. Mehl and children left by yesterday morning's train for California where they will visit in Oakland for several weeks. About the first of July they expect to go north to join Mr. Mehl, who is in the employ of the Dollar company near Vancouver, B. C.

Capt. James Polhemus, engineer in charge of government work on this section of the Oregon coast, was in town Tuesday evening. He was on his return from Bandon where he had been making arrangements for a bucket dredge to operate on the upper river this summer.

This morning J. Percy Wells, who was principal of the city schools here ten years ago, called on the Sentinel in company with County Superintendent Raymond E. Baker. Mr. Wells is now district leader for O. A. C. in the food preparedness campaign in Coos, Curry, Douglas, and Lane counties.

O. A. Mintony received word this week from his son, Clare, that after his withdrawal from the Canadian regiment in which he enlisted, he came back into the United States to Minot, South Dakota, and within thirty minutes from arriving there he had enlisted in the National Guard and secured a job pending the calling out of the militia company.

Beginning May 1, the charge for car storage at the Gardner & Larsen Garage will be \$3 per month, 25 cents for a single night.

Although the weather bureau promised to let us off here in the Pacific Northwest this week with only "occasional local showers," Jupiter Pluvius kept the sprinkling pot running all night last Monday and again on Tuesday and Wednesday to the not inconsiderable delay of garden and farm work and the re-education of a lot of grass and weeds we tried to put out of business Monday evening.

Ned Kelley this morning received a letter from his son, Guy, who had passed all the examinations for the navy successfully and left yesterday morning for the navy yard at Brewster in charge of a squad that was being sent up there. He says you can bet on the Irish for coming to the top; also that the drill he received here with the citizen crowd helped him in passing. He had just seen Matt Kerrigan who said he was doing fine.

Roy M. Avery, who has been connected with the Herald here for most of the past year, was over here Saturday and informed his friends that he had enlisted in the United States navy. He will not help handle the big guns, though, or do any of the ordinary midshipman work on the dreadnaughts, but goes in as a printer, each battleship carrying a small printing office for printing orders and other work in connection with the daily routine.

We have the nicest assortment of ladies and children's white canvas shoes, pumps and slippers we have ever carried and our prices are cheaper than last year, come in and see them at The Ladies Bazaar.

AUTO HEADLIGHTS.
How to Eliminate the Dangerous Glare in Front of You.

Elimination of glare from automobile headlights is ridiculously easy when the headlights are hung on forked brackets, according to George S. Witte, sales manager of a large motorcar corporation. He says:

"The problem of headlight glare, which is not only inconvenient to approaching motorists, but positively dangerous, and which has caused so many accidents, has been the subject of deep study for more than a year by a committee of members of the Society of Automobile Engineers. At the conclusion of its investigations the committee made recommendations for a standard headlight which would throw a concentrated beam of light for a distance of 200 feet and yet with its highest point not more than forty-two inches from the ground.

"The solution is to set the lamp so that the upper edge of the beam, which, if the lamp is a good one, is clearly defined, will be parallel to the ground. When the lamp is set square the center line of the beam is parallel to the ground, but the distance between the edges of the beam grows greater as the distance from the lamp grows greater.

"It is, however, easy to understand that if the upper edge of the shaft of light is parallel to the ground the light will extend for as great a distance as the lamp is capable of throwing it, but will be sufficiently low so that it will not strike the eyes of a person approaching, whether afoot or in a vehicle."

How to Pitch Camp in an Automobile While Vacationing.

"Comfort is to be found in the camp car," says a writer in the Woman's Home Companion. "If you know how to arrange for it. The bed should be in the car if you have no tent, as the charm of sleeping on the ground soon palls, and berths in the machine are easier to arrange than a portable shelter. We used a springy bed of canvas and light frame made to extend across the top of the front seat and allow space for the pillows over the back seat. This affords a waterproof roof for the sleepers in case of rain, and even if a storm should come up the campers can remain snug and warm by buttoning the flaps from the top to the body of the car. Mosquito netting instead of side flaps may be desirable in some camp sites."

Our Dangerous Snakes.

The only dangerous snakes in the United States, according to the Scientific Monthly, are: First, those bearing a rattle; second, those having a series of dark brown hour glass shaped markings on a lighter brown background.

\$25.00 IN GOLD!

This is the Prize Offered For the Needed Name—Can You Supply It?

F. E. Conway is experiencing considerable difficulty in securing a name for the new Dairy Products Company which he is organizing. The new company will manufacture, deal in and loan on dairy products. Several names have been selected but in each instance it was found they were already registered. A name is needed to complete the organization.

Pending the selection of a suitable name, Mr. Conway has already purchased and taken over in his own name the Coquille Valley Creamery on behalf of the new company. The words "Buttercup," "Daisy," "Meadowlark," "Bluebell" and "Darifood" were selected but a search of the records revealed the fact that these names were already registered. In fact, it was learned that practically all the suitable names of flowers and birds were registered.

From a commercial standpoint, the selection of a suitable name for the brand of the manufactured products is a very important matter. In view of this fact the F. E. Conway Mortgage Co., on behalf of the new Dairy Products company, is offering \$25.00 in gold for a suitable name. The new company will manufacture butter, cheese and condensed milk, and what it wants is a name for the brand of these products. The name or word submitted for the brand of the products must also be a suitable one for the name of the new company, such as Meadowlark Dairy Products Co., or Darifood Products Company.

It is required, if possible, that the name for the brand and the company be one word, reasonably short, easily spoken and remembered, universally known, suggestive of Dairy Products and one that has not already been registered or is not in use, but which is registrable. The name may be a "coined" word. It is more likely that a "coined" word such as U-Need-A-Biscuit would not be taken and therefore less trouble encountered in registering it.

An idea for a brand should accompany each name, although not absolutely required. Anybody anywhere is eligible to compete, and there is no limit to the number of words or names anyone can submit. All names must be in the office of the Darifood Products Company's office, Coquille, Oregon, not later than June 1, 1917, in order to be considered.

Take that sick car to A. A. Paull, Coquille Garage. Satisfaction guaranteed.

You Must Not Think

That the sole purpose of this school is to equip men and women for office positions. Only a small proportion of students who attend any commercial school actually go into the office or counting rooms.

An education along business lines combined with a thorough drill in academic branches will more properly fit any one to meet the responsibilities of life regardless of their chosen vocation.

Our schools specializes in just this kind of education. Its instructors are modern business men and women. They will train you in problems that you will meet in every day life.

When you complete your work in this school you can face the world and have the assurance that you are now able to adapt yourself to the business conditions that surround you and that you can take your place in the every day life of a community.

To those who have passed through the grammar school and who have neither time nor inclination for a university training, we cordially invite an investigation of our various branches.

KRYPTOK
INVISIBLE BI-FOCAL

It used to be true that bifocal glasses were troublesome and old-looking, and trying to the eyes. It is not true of Kryptok—the new bifocals that look and wear like plain glasses, but give perfect near-and-far vision.

V. R. WILSON,
Optometrist
Coquille, Oregon

To the Farmers & Dairymen:

Do you know what your cows earn you? What it has cost you in labor, interest on investment and material to market your crop. Was some part of your business conducted at a loss? Could you have made more money by knowing readily the exact relation of your different crops from a financial standpoint?

We conduct a Home Study Course in Bookkeeping for Farmers. It is endorsed by County Agricultural Agent J. L. Smith and by the most prominent and successful business men of Coos County.

It will cost you nothing to ask for particulars. Let us mail you something that will interest you and prove valuable.
