"I wish they'd had Electricity when I was a boy"

"I was forever turning the grindstone, churning, or sawing kindling when I wanted to go swimming or fishing—never had a chance to rest—always milking, cutting feed or grinding corn."

Electricity has taken the drudgery out of farm labor. Almost every routine task on the farm, in the dairy or about the house, can now be done by a G-E motor in a fraction of the time formerly required and without physical exertion. Costs less than hiring farm hands, too!

Aeroplane Flies Up Coast.
About 9 o'clock Friday evening an aeroplane was seen passing over Port Orford. It was travelling up the coast and attention to it was first traced when its lights were noticed in the vicinity of Humburg mountain. It was going at a good rate of speed, and quickly passed over the Heads, just west of town, and disappeared in the distance. It was an aeroplane flying north and further than this nothing is known about it.—Port Orford Tribune.

A Much Married Couple.
The following from the Portland Telegram will be of interest to many of our readers as Miss Hermann, the bride, who found so many obstacles in the way of getting married, is the daughter of Schiller Hermann and a granddaughter of Hon. Binger Hermann:

Three times during the past week did John Roy Kenney and Flora Herman stand before a preacher and hear the words, "I pronounce you man and wife," uttered, before they felt certain in their own minds that they were really man and wife.

This unusual procedure, likewise necessitated two marriage licenses and a lot of trouble before they finally embarked aboard the good ship Matrimony.

On June 23 they took out a marriage license and arranged to get married. They wanted the ceremony performed first by the preacher of one denomination and then by one of another denomination. The first pronounced them man and wife, but the second minister refused to go through with the ceremony.

Undaunted the couple decided to retain the first marriage licenses as a memento of their unusual experience, so Thursday evening they wended their way back to the court house and secured a second license. They said they had finally made all arrangements to have a double ceremony performed by virtue of the second license.

Mr. Kenne is a resident of Gresham, while the bride gave her residence at 600 East Twenty-fifth street, Portland.
