THE Fillion Concert Party tours the west this summer under the exclusive management of the Ellson-White System of Chautauquas. The personnel of this "Music of the Masters" Concert company includes the renowned French virtuoso of the violin and piano, Ferdinand Fillion; Edna McEachern, concert pianist of the Moscow (Russia) Conservatory of Music; and Fern Goltra, prima donna Lyric soprano of the Chicago Grand Opera Company.

## The Wassers Company Brings Joyous Entertainment to Chautauqua

THE Wassers Company are joyful entertainers. They are happy themselves, and they make every one else happy. When the Wassers come on to the Chautauqua platform afternoon and evening they drive the blues away.

The Wassers were formerly prominent entertainers at Northwestern University, and their work attracted so much comment that they were booked on the Eastern Chautauquas, meeting with an enthusiastic reception.

## How Little It Costs To Attend Chautauqua On the Season Ticket Plan

You wouldn't buy a ticket at every station if you were going on a long trip would you? Don't attend Chautauqua that way either. Buy a through ticket. It saves you money. Single admissions are nearly three times the amount of a season ticket.

## Myrtle Point Chautauqua Week July 15-20

### It Sent a Man to the Asylum.

Sheriff Gage showed us the other day a sample bottle of the stuff that sent Landlord Freeze, of the Powers Hotel, to the insane asylum a few weeks ago. It was in the shape of a three ounce bottle of Bliss Oil, a household liniment for scalds, chilblains, headache and other various ailments human flesh is heir to. On the label of this blissful decoction it is stated that it contains 75 percent of alcohol. The size and shape of the little vial would preclude the idea that it was put up to be sold for beverage purposes; and besides the fact that it is made in London, England, relieves it from the imputation of being intended to evade the prohibition law. Freeze bought the liniment at wholesale, a sack full at a time, and drank so much of it that he went bughouse.

### K. of P. To Go To Portland.

H. G. Wortman, grand chancellor of the Knights of Pythias of Oregon, was in town Monday calling on the Knights. The object of his visit was to secure the consent of the Coos county lodges to forego the state meeting which was to have been held in Marshfield this summer. With 500 members of the order already enlisted and the draft likely to take more it was desired to call the meeting off this year; but the constitution and by-laws will not permit it, so the next best thing is being attempted—to hold the meeting where it can be convened at the least expense and make it a strictly business affair.

If this agreement can be made the meeting will be held in Portland, which is the easiest of access from all points in the state, and Coos county will doubtless secure the honor at some future time.

Mr. Wortman's home is in Medford, and he drove over from Roseburg Monday morning. He says he found the roads in very good condition.

### Loaded Down with Booze.

Chas. Fowler, who says he has been employed at a logging camp near Powers was taken into custody at his room at the Lloyd Hotel at Marshfield Sunday night, says the Times. Three bottles of liquor were found in his possession. He was taken to the city jail and later Ben Brown put up a \$100 check for his appearance.

Officer Matthews saw Fowler going into the Lloyd and thought that he was badly loaded down, inside and out. He was refused admission to Fowler's room; however, until he got out a search warrant.

### His Apple Crop a Failure.

J. D. Benham was in Tuesday from his fruit ranch above Fairview and reports that it is only a hay ranch this year as the fruit crop is almost a total failure. Out of a dozen varieties of apples he will get but a partial crop from his Baldwins, a few Winter Rose and a full crop of Winter Bananas. All the others are a total failure. Mr. Benham stated that his Winter Bananas had never failed to have a full crop. Early haying is practically completed in that section. They had a fair crop this year.

### Notice About Draft Numbers.

The following is published at the request of County Clerk Oddy:

Owing to numerous enquiries regarding the serial numbers which have been placed on the Registration cards on file in the County Clerk's office, will state that these numbers will be used in the Draft.

In compliance with the War Regulations a list of all persons registered together with the Serial Red Ink numbers has been offered to the Press and by watching the papers closely you will be able to ascertain your number.

However, the War Regulations provide that the County Clerk shall notify each person that is drawn, by mail, and advising him at what time to appear before the Local Board for examination, and if he is excused or discharged it will be necessary for him to secure a certificate of exemption or discharge from the Local Board; therefore all inquiries addressed to this office requesting their serial number, will be answered at the time prescribed by the Regulations requiring the Clerk to notify each person drawn.

The method and manner of making the draft will be prescribed by later regulations from the War Department which is not in the hands of the Local Board at this time. L. W. Oddy, Clerk of the Local Board, County of Coos, State of Oregon.

### Here From Humboldt.

D. C. Reese and party arrived in Coquille yesterday from Humboldt county, California, and will perhaps locate in this section. Mr. Reese drove up by the inland route in a Ford and says the roads along the California-Nevada line are among the worst he has ever driven over. However, they came through without a serious mishap and can now look back with some degree of pleasure to the nine days spent on the way. They expected to look over some of the O. & C. grant lands but upon arriving in the state found these were not ready for entry so came on to Coos and may locate here.
