He formerly lived in Myrtle Point and Marshfield about thirty years ago, his father being a Methodist minister at the Bay.

### Relief Corps Dinner Tuesday.

The local Woman's Relief Corps gave one of their elegant entertainments at Woodman Hall here last Tuesday. As guests they had the members of the local G. A. R. post, the Relief Corps and G. A. R. from Bandon, some Corps ladies from Myrtle Point and other invited guests of whom the Sentinel scribe was fortunate enough to be one.

Considering the advancing age of the G. A. R. members it was a little astonishing to learn that two of the veterans were unable to be present because they were busy harvesting their hay.

We knew before that the Relief Corps ladies always provided a sumptuous repast, but in their dinner Tuesday to which about a hundred people—thirty-one of whom were from Bandon—sat down, they certainly outdid themselves in providing a feast that everybody enjoyed.

This repast was followed by a pleasant social hour; and then there were informal addresses, in which the pleasure of keeping together in their organizations and enjoying each other's society during the lengthening shadows of life's afternoon were dwelt upon. Certainly the old soldiers and the affiliated Relief Corps always do something worth while when they hold these reunions.

### Professors Turned Under.

A couple of O. A. C. professors were driving into Coos county by auto not long since when one of them who was an amateur in the chaffeur line took the wheel. All went well for a time but presently they were on a down hill grade and he couldn't get the brakes to work. As there seemed to be no other recourse to prevent a smash up at the bottom he headed into the bank on the road side. When this was done the car turned turtle and both the dignified professors were imprisoned under it. One of them managed to wriggle out a good deal bruised, but the other stuck until help arrived. As it was a Ford it was easily lifted from the man pinned beneath and they resumed their journey.

### Coos Bay Road Closed.

The old Coos Bay Wagon Road from the Bay to Roseburg is reported to be impassable for autos. Only one has got through this season so far and it had to be partly rebuilt after scraping off its gear on the rocks. Since this road ceased to be used for a mail route and no more work was done on it, the deterioration has been rapid.

The Middle Fork and Camas Valley road from Myrtle Point to Roseburg is reported in the best shape this summer that it has ever been.

### U. S. Wants Typists.

The Anderson Business College has received several communications from the Federal government urging them to notify their pupils and the public generally that there never was so great a demand for stenographers and typists as at present. In order to fill the positions which are open in the government service now the civil service examinations are being held every Tuesday in 400 cities in the United States.

### Red Cross Dance at Lee.

Mrs. Hardy Mast and Mrs. Aletha Slagle report that the dance they gave at Lee last Saturday evening for the benefit of the Red Cross was a very successful affair, netting about \$80 for that good work. There were nearly 300 present, coming from all parts of the county. A great many went from Coquille who report a very enjoyable evening; also from Bandon, Shoresacres, Myrtle Point and elsewhere.

### Cost Five Plunks Apiece.

A couple of Marshfield boys, William Smith and Everett Norstrom, were joy riding about town here on Sunday, not only exceeding the speed limit but with their muffler wide open. Marshal Epperson arrested them and made each of them put up \$5 for his appearance in Recorder Lawrence's court Monday. Of course they didn't appear but the city has \$10 to soothe its wounded honor.

### Not As It Sounded.

"All right behind there?" called the conductor from the front of the street car.

"Hold on!" cried a shrill voice. "Wait till I get my clothes on!" The passengers craned their necks. A small boy was struggling to get a basket of laundry aboard.

### Dancing Class.

Mrs. O. N. Barry, of Los Angeles, California, wishes to announce to the people of Coquille and vicinity that she is forming adult and children's classes in dancing, and she would like to meet all who are interested at the Ke-Keel Club rooms Monday, July 23, between 1 and 5 o'clock p. m.

### Improvements at Scenic.

Manager Pendleton informs us that he is going to make some big improvements at the Scenic, which will make it much more commodious, comfortable and popular. The gallery is to be remodelled and enlarged so that it will seat about a hundred more people than it does now. The chairs on the lower floor will be used up there and the main auditorium will be re-seated with first class opera chairs that will make it a much more attractive place to spend an evening than ever before.

Besides, its seating radius will then be so greatly increased that it will be available for use on occasions for which it was not considered heretofore.

In relation to improvements in the picture service at the Scenic, Mr. Pendleton says: "We will improve our service by taking on 'Greater Vitagraph,' 'Paramount' has co-operated with 'Artcraft' and has sent us a list of stars (see it at the Scenic lobby) to pick from for the year. 'Triangle Plays' on Thursdays are always good. 'Universal' has promised us a feature of not less than five reels every Friday night.

"We are going to furnish plays by the best companies in the field. The theater has been thoroughly fumigated. We welcome you all."

### More Prosperous Than Ever.

Coos Bay Times:—Leo J. Cary was here from Coquille last evening on business, returning today. He says that Coquille is more prosperous today than at any time in its history. Mr. Cary filled in as foreman of the Myrtle Point-Coquille road work until a competent man could be secured. He says that every good roads advocate should stand firmly behind Roadmaster Murdock in the present controversy.

### Grafting a Rabbit's Spine.

Dr. A. W. Mayo-Robinson reports to the British Medical Journal the successful use of a piece cut from a rabbit's spinal cord as a graft between the cut ends of the median nerve in a man's arm, from which two and a half inches had been removed. He also grafted a bit of the rabbit's sciatic nerve to fill a gap in the ulnar nerve. The paralysis, for which the operation had been performed, gradually disappeared, and in six years the muscles of the lower arm and hand were performing their duties normally.

### Shoe Lace Taps.

When the tap comes off a shoe lace take a little black sealing wax and press it carefully around the end of the lace and shape it to a point. This is a very good remedy and will last quite a long time.

### Juvenile Court Cases.

In the juvenile court last Monday George Lemmos, of Hauser, was committed to the Oregon Training School at Salem.

This morning the case of May R. Johnson, a waif and a delinquent waif, was heard and she was discharged for lack of testimony against her.

The case of the Abberson family which includes both Juvenile delinquency and indigency is set for hearing next Monday morning.
