

COURSE OF STUDY READY

PROOF SHEETS RECEIVED BY SUPERINTENDENT.

Pamphlets Will Be Issued By the Last of Month.—Instructions to Teachers Briefly Told.

Superintendent of Public Instruction L. R. Alderman has received proofs of the state course of study and the manual will be ready for distribution on August 30. A shorter course in technical grammar has been provided, complete courses in drawing, nature study, agriculture, industrial work and music are included. The manual opens with a course of study in physiology and hygiene, in which course special emphasis is laid upon practical hygiene, and in this Mr. Alderman says:

"In carrying on the work outlined in this course of study, I hope the teachers of Oregon will, first of all, look to the health of the boys and girls. See to this, and then if there is any time, teach the other work offered in this course. The primary object of this study of physiology in our schools should be to teach an intelligent care of the body."

Teachers are advised to return to the old-time recess of not less than 15 minutes during the morning session, and again in the afternoon, but it is stated that the recess will do no good unless the teacher makes a supervision of the playground a serious part of the day's work. The more simple facts of sanitation are expected to be taught. In speaking of this Mr. Alderman says that it is of more value to the boy who expects to live in the country, to know that the well should be dug in a place where it will not receive the drainage from barnyards, etc. In civil government the work is confined to a study of the constitutional convention and the constitution itself. The work in history, reading, spelling, geography and writing is practically the same as in the old course of study. A modern course of study in drawing is offered and one that will be very helpful to teachers.

Budget From Lorane.

Miss Grace Thomas spent Sunday with relatives and friends at Comstock.

Thirty-one friends and relatives spent Sunday at G. G. Schneider's—15 children and babies and 16 grown-ups. Several freezers of ice cream helped to make the day pass pleasantly for all.

Mrs. Wallace has returned to Cottage Grove after visiting friends for a few days.

R. A. Beebe came over from Pleasant Hill Sunday.

The ice cream social and dance given last Thursday evening by the grangers was a decided success.

Mrs. Hiram Griggs is visiting her sister, Mrs. Mart Foster.

Born—On August 7, to Mr. and Mrs. G. C. Schneider, a 9½ pound daughter. Mrs. S. H. McKernon returned home

Sunday, after staying a few days at her daughter's, Mrs. Mart Foster's.

Born—On August 16, to Mr. and Mrs. Martin Foster, a 10-pound boy.

W. W. Jackson, one of Lorane's merchants, is moving his store to his lot near his fine new residence he has been building this summer.

Of Interest to Lumbermen.

President Griggs, of the National Lumber Manufacturers' Association, has initiated a campaign in behalf of universal standard of sizes of lumber. The argument is convincing and unanswerable. The standardization of sizes in practically every line of industry was undertaken many years ago, and the lumber trade of the country should make a start in this direction at once.

Timberman. W. D. Dennis, general manager of the Carlton-Coast Railroad, is justly proud of his road. Built primarily for a logging road, but incorporated as a common carrier, Mr. Dennis has adopted the characteristics of the latter in the well ballasted roadbed, easy curvatures and low grades. The steel is sixty-pound high section, and the equipment two Baldwin locomotives and twenty flat cars and ten pairs of logging trucks. Later a passenger coach will be run over the line. V. C. London is superintendent of the road.

Timberman. Bids will be opened at Leavenworth, Wash., August 28 for 10,000,000 feet of timber within the Wenatchee national forest. The timber is yellow pine and Douglas fir and is on two tracts, respectively, 661 acres, near Peshastin Creek, and 563 acres in the basin of the Wenatchee river.

Land Will Be Restored.

The latest stretches of land originally included in the Klamath project to be restored to the public domain after having been withdrawn for reclamation purposes, second form, under the act of congress of June 17, 1902, are to be thrown open to settlement August 25th. They will be open to entry, selection or filing on September 27th.

The land in question is released upon application of Secretary of the Interior Walter L. Fisher for restoration, made on June 29th, and referred to the general land board. The reason given for the opening of the major portion of the land, in the Sand Hollow country, is that its elevation is too high to be reached by the government irrigation canals, being even above the Modoc Canal survey, which is the highest situated canal included in the project.

The total amount of land to be thrown open at this time aggregates a little over 11,000 acres. Of this amount 4,000 acres skirt the west side of Lower Klamath Lake, extending from Teeter's landing nearly to Calor, which is just this side of the state boundary line.

The remainder of the land, amounting to over 7,000 acres, is situated in the Sand Hollow district.

Col. Levi Geer of London transacted business in the city on Tuesday.

THINGS SEEN AND HEARD

One loafing about the passenger station of the Espee finds an occasional "item of interest." The other day The Sentinel watched Baggage Master W. O. Asher weighing and checking out seventeen large trunks for one traveling salesman. They were going to Roseburg, a distance of 65 miles, and called for \$8.75 excess charges. They belonged to Mr. Beard of Chicago, who has a man traveling with him to assist in unpacking and packing his samples. Another salesman who makes this territory heavily burdened is Dobbie of Frisco. He carries sixteen sample trunks and two cases. The other day he went from Cottage Grove 16 Medford, and contributed over \$20 for excess. The man who carries four or five sample trunks now-a-days is considered "a small drummer." Ofttimes the hotels find it difficult to provide sample rooms for these knights of the road, and especially this the case when two or three of the "big fellows" drop in at the same time.

"On my word and honor I here and now declare that as long as I remain a resident of Cottage Grove, it will be my constant aim to boost it all the time; I will do all I can for any public work or improvement that has the good of the community for its object. I will submit to the majority rule and won't knock and howl my head off when things are not always my way. I realize that if this community is good enough to make any money in, it is the proper place to spend it again. I am resolved that I will hereafter buy every thing at home that I can, that I will patronize my home paper, and that I will always try to say something good about my town and my people or will keep my bazoo shut." Clip this pledge out and paste it in your hat.

Try Your Luck at Hampton's.

Commencing at noon Friday, we will place 50 packages of merchandise in our east show window to go, without contents being exposed, at 25 CENTS EACH. These packages will contain extraordinary values in seasonable goods, but, to be honest, the greater part is odds and ends, and in some instances you will get a dollar for a quarter. One package will contain an order for \$1.50 worth of merchandise of any kind carried by us. This is an opportunity to try your luck. You are certain to get more than your money's worth. HAMPTON & CO.

Summer Itch Now Relieved.

Instant relief for all kinds of summer skin trouble is found in that simple wash—D. D. D. Prescription for Eczema. Get a 25¢ trial bottle today and prove for yourself the merits of this wonderful prescription. We always recommend it for Summer Itch. The Modern Pharmacy.
