

PRETTY DOUBLE WEDDING

OCCURS AT E. A. WHEELER HOME IN SILK CREEK.

Four Young Silk Creek People United in Holy Bonds of Matrimony Sunday Afternoon.

Four well known Silk Creek young people were participants in a pretty double wedding which took place Sunday afternoon at the E. A. Wheeler home in Silk Creek.

The contracting parties were Franklin Wheeler and Miss Faye Deardoff, Albert Wheeler and Miss Elyda Moe. The gentlemen are sons of Mr. and Mrs. F. A. Wheeler and the young ladies are well known in the Silk Creek district.

The Wheeler home was prettily and tastily decorated for the occasion with flowers of different kinds. The young people stood up under a beautiful floral bell.

Rev. J. Mark Comer performed the ceremony.

About sixty-five guests, mostly relatives, were present. Among those from outside were Hamilton Veatch, of Row River and V. Donovan and family of Myrtle Creek.

Little Girl Dies.

Miss Violet V. Lewis, daughter of Mr. and Mrs. Franklin T. Lewis, of Diason, died Monday at the Thomson hotel of congestion of the brain. When the parents learned how seriously ill the little tot was they hurried her down from Diason a few days before her death in order to be closer to medical attendance. The baby was one year of age and was only sick a short time. The funeral was held Tuesday, Rev. A. S. Mason officiating, and interred in the I. O. O. F. and A. F. and A. M. cemetery.

GROVE'S WATER SUPPLY

OVER MILLION GALLONS OF WATER RECEIVED DAILY.

Volume of Pure, Crystal Mountain Water Sufficient for City of 10,000 People.

A quantity of water sufficient to supply the needs of a city of 10,000 people is received daily at Cottage Grove's water reservoir. A few people, even among residents of the city, have realized the volume of the city's water supply. In exact figures, the amount received daily is 1,325,000 gallons. The source of the water supply is Laying creek, which is twenty miles east of here in the forest reserve. The source will always be free from contamination and the creek is fed with nothing but the purest, crystal mountain water. The water is brought to the city in 12-inch mains. To supply the city there are about twenty miles of mains connected with the reservoir.

COMMITTEE SUBMITS LAWS.

Bills Provide for Every County Getting Benefit of Its Own Money.

Under the provisions of the good roads bills proposed by Gov. West's highway committee for submission to the initiative, every county will receive from the state as much money as it appropriates for good roads. The county bonding act will permit counties to pledge their credit to get the money necessary. The governor, secretary of state and state treasurer are to be, by the present plan, the state highway fund board and are to direct all expenditures.

Copies of these bills have been mailed to each member of the state highway committee appointed by Governor West. With each set of bills is a letter from President C. T. Frall, of the state good road association, calling attention to the difference between the new and the old legislation, and the slight changes that have been made in the bill to adapt them to initiative vote, since the state committee met and approved the measures in Portland.

The state bonding act providing \$2,000,000 a year for ten years will take the place of the proposed 1.2 mills tax which was to have supplied \$1,000,000 a year to a state highway fund.

An amendment to the state constitution will be submitted permitting the state to issue highway bonds. It is now provided that the state may not loan money or incur indebtedness in excess of \$50,000 except to repel invasion or put down insurrection. The bonds will be 30 year 5 per cent gold bonds, and it is provided that they may be issued by the legislature if for any reason the measure is unsuccessful in initiative vote.

In initiating the highway bills the state wide committee appointed by Governor West will be asked to cooperate, it is said. Each Oregon county

THE SENTINEL INAUGURATES GREAT BARGAIN

SUBSCRIPTION CAMPAIGN; ONE YEAR FOR \$1.00

EXHIBIT DRAWS BIG CROWDS.

Many Inquiries About Willamette at Omaha Land Show.

The Willamette Valley exhibit is attracting attention at the Omaha Land show. On the first day of the show about 500 called at the "Willamette Valley Exhibit" booth to talk over the Willamette valley with the representatives and receive literature from the different sections and counties.

All who talk to the "boothers" seem to be much interested in this country and are anxious to come out here. The majority of folks visiting such a land show come from the farm and are looking for some place where they can follow their occupation and not have to suffer from the climate conditions. Mr. Freeman, who is in charge of the exhibit, is certain that they will do a great deal of good for the valley and get a large number of families here from all parts of the east.

DEPOT EXHIBIT BUILDING

COTTAGE GROVE PRODUCTS FOR TRANSIENTS TO GAZE UPON.

Commercial Club Making Preparations for Glass Exhibit Building at S. P. Depot.

A glass exhibit building to display the products of the Cottage Grove country for the education and edification of visitors and passengers that alight from trains while stopping at the depot, was one proposition brought before the Commercial club at its regular meeting Monday evening.

The famous Felix Carrin exhibit and other products representative of this particular section of the valley would be placed in the exhibit room in such a manner as to attract attention, both from inside and outside the depot.

The cost of such a building is estimated to be about \$250, and as such an exhibit is considered one of the most profitable ways of advertising, it is not thought that much trouble will be encountered in securing sufficient donations.

The first difficulty to be overcome is the securing of a suitable position at the S. P. depot for such a building. Agent King stated at the Club meeting that the depot now sits out in Main street several feet, and that an exhibit building at that end, which would be the most conspicuous location, is impossible at present. Securing a satisfactory position for the building may delay its erection.

A bubble fountain for the use of the traveling and general public, with a tablet setting forth facts about Cottage Grove's water system, was suggested as an adjunct to the building.

It is understood that the S. P. people promised to build a new depot as soon as Main street was graded. The company so far has given no intimation that it intends to make good on that proposition. It may be that an effort will be made to get the railway to fulfill its agreement before anything permanent is done with the exhibit building.

First Train Into Tillamook.

Last week marked the beginning of an important epoch in the history of Tillamook county, the first through train from Portland arriving at Tillamook City on that day.

A large crowd of Tillamookers, with the band, greeted the incoming train and regardless of the heavy downpour of rain everyone was exceedingly happy.

The visitors were entertained for a half hour by the Commercial club, after which they departed on the return trip to Portland.

is represented by its good roads committee, except Multnomah, which has five. Each committee will be asked, therefore, to oversee the work of getting signatures to the initiative measures in his county. The work in Multnomah county and Portland will be directed personally by the officers of the good roads association. In the matter of expenditure for good roads it is said that the Oregon good roads program now contemplates the use of \$2,000,000 a year in building roads where now the loss from bad roads is \$2,000,000 a year. There will be, according to the present plan, no state highway commission, but the highway commissioner and the state highway department will have supervision of road building under the terms of the proposed state laws.

In Order To Place the Paper in Every Home in the Community the Price Is Reduced One-Third for Twelve Days.

ONE THOUSAND NEW NAMES WANTED

This Is the Biggest Genuine Weekly Newspaper Bargain Ever Offered Residents of the Willamette Valley.--Biggest and Best for the Least Money.--Offer Open Twelve Days Only.

The publishers of THE SENTINEL want a subscriber in every home in the city and surrounding country.

In order to secure this circulation a great reduction subscription campaign will be put on for twelve days, beginning tomorrow, Saturday, October 21st, and continuing until November 1st.

The price of subscription during that period will be reduced from \$1.50 to \$1.00. Positively no subscriptions taken at that price after that date.

This is your golden opportunity to get the best weekly published in this section of the state. Look over this sample copy. You'll acknowledge that you can't beat it at any price. Then do not hesitate a moment to take immediate advantage of this unusual bargain—one you may never have again. Certainly you will never have a more attractive one.

THE SENTINEL is now the biggest, newsiest and best printed weekly newspaper in this part of the country and it intends, not only to maintain that position, but to advance beyond the possible reach of competition.

Better get your dollar in at once. The twelve days will be up almost before you realize it.

Believing in sticking by old friends, present subscribers will be allowed to take advantage of this offer by bringing their subscriptions up to date and paying a year in advance.

HE JOINS FAST COMPANY A WAKE-EM-UP MEETING

RAY BAKER DRAFTED BY PHILADELPHIA AMERICANS.

Former Local Twirler Is Rapidly Advancing to the Front in Great American Game.

Ray Baker, formerly a resident of this city, has been drafted from the Raymond, Wash., team by the Philadelphia Americans.

Ray Baker is a son of J. H. Baker, and is well known here because of his fast work with the local team two years ago, when he was a favorite with the fans.

Baker pitched for the Eugene team last year, and was drafted by the Philadelphia team because of his fast work this year with Raymond, where he was known as their crack twirler.

Baker is only 19 years of age, but possesses a phenomenal amount of speed. It is likely that he will be farmed out by Philadelphia next season, but he is headed towards fast company and his friends here expect that he will attract notice even in the big leagues before long.

Sentinel Sent to China.
A copy of the Sentinel will hereafter be sent to China. The Sentinel this week received a subscription for the paper which will be mailed to the Orient. The recipient is an American, however.

Many copies of the Sentinel are sent each week to foreign countries, and a still larger number are sent to east-sterners who have subscribed because they are interested in this country, or are sent to them by friends who wish them to become interested. Many more local people will probably take advantage of the Sentinel's bargain offer to supply their eastern friends with news from this rich and fertile country.

Planning for Poultry Show.

An enthusiastic meeting of the Lane County Poultry association was held Monday evening at Eugene, when details of the annual poultry show, which is to be held December 18-23, were discussed, and a number of committees were appointed to further the enterprise. Every indication points to a most successful show this winter. There were several chicken fanciers over from Springfield to attend the meeting.

The association has been assured that William F. Braze, of Victor, New York, a chicken expert of national reputation, will be in Eugene to act as judge of the birds exhibited. On the same trip he will judge shows in Los Angeles, Seattle and Clarkston, Washington.

MINNESOTA SOCIETY PROPOSED

Immigrants From the Gopher State May Organize.

The increasing number of citizens of Cottage Grove who formerly claimed Minnesota as their home, has suggested to several former Gopherites the idea of forming a Minnesota society, with semi-annual sessions. There are enough eligibles to form quite a respectable association. A call for a meeting has not yet been issued, but probably will be some time in the near future.

There is already a Kansas society here, and several other states are represented in sufficient numbers to make societies feasible.

One citizen has made the pretty suggestion that all states organize and meet in the park on the same day, each state having a separate booth and a banner done in the state colors.

PROMINENT FARMER DIES

RESIDENT OF VALLEY SINCE 1880 PASSES AWAY.

Trip to Mountains of No Avail—Geo. W. McCoy Succumbs to Lingerin Illness.

Geo. W. McCoy died last Friday at his home in Gowdsville, after a lingering illness. Mr. McCoy had not been feeling well for a year or more and had returned but a few days before his death from a trip east of the Cascades, made in an attempt to recuperate his failing health. The mountain air did not give him the relief expected and the end was not unexpected. Old age and heart trouble were the primary causes of death.

Mr. McCoy was 70 years of age, and had lived in the valley since 1880. He had seen and been a part of the wonderful growth of the valley. He owned a fine place at Gowdsville at the time of his death and had faith in the Willamette soil.

The funeral was held Saturday afternoon at 1:30 from Veatch's chapel. Rev. J. Mark Comer, officiating. Interment was made in the A. F. & A. M. and I. O. O. F. cemetery.

RALLY FOR NEWCOMERS

TENDERFEET WELCOMED BY METHODIST CONGREGATION.

Another Get-Together Affair Proves Successful.—Large Audience at Festivities.

A royal welcome was extended to newcomers at the Methodist church Wednesday evening. The tenderfeet were present in large numbers, but there were plenty of the pioneers to keep everyone feeling acquainted.

Rev. J. W. Gardner acted as master of ceremonies. Frank Phillips spoke on behalf of the men of the church, talking up the work they had done and telling of the work planned to be done. He proved an entertaining speaker.

Miss Jessie Berg spoke on behalf of the ladies and pleaded for the ladies to get together for the year to come.

S. L. Mackin told of first impressions of the newcomer in an interesting and able manner.

A human interest recitation was delivered by Miss Mildred Pringle and was much enjoyed. Later Miss Pringle gave an account of the work of the young ladies' societies of the church.

Lloyd Stratton sang a loudly applauded solo, accompanied by Mrs. Sutcliffe.

Very fine music was rendered by quartette and orchestra. The quartette was composed of Mesdames Conner and Brund and Messrs. Harris and Humphrey. The orchestra was composed of Mesdames Sutcliffe and Bisby and Messrs. Woodrum and Scoville.

Pastor Sutcliffe made some very appropriate remarks during the evening.

PRESIDENT GRAY INVITED

TO MEET WITH COMMERCIAL CLUB AT EARLY DATE.

Officials of Oregon Electric Company Expected to Come and Look Local Situation Over.

Head officials of the Oregon Electric railway are expected to be in the city at an early date to look over the local situation with a view of reporting as to whether they think this city has the business and resources to justify the Electric in extending its line to the city. The Commercial club, at its meeting Monday night, instructed Secretary Anderson to invite Mr. Gray and associates to meet with the club at an early date. It is learned from a reliable source that Mr. Gray will take the first available opportunity to accept the invitation. It will be the aim of the Commercial club to show Mr. Gray that the city and country through which the road would pass are of such business importance as to warrant another railway. Co-operation of all citizens will be asked in this effort and a public mass meeting will probably be called.

Services Attract Attention.

The special services at the M. E. church Sunday attracted large audiences. Fully 300 attended the evening service and listened to Pastor Sutcliffe's discourse on "Courting by Proxy, or Isaac's Beautiful Wife." Sixty members of the Oddfellows and Rebekahs attended in a body. At this service the Mesdames Beager and Caldwell rendered a beautiful duet. A large attendance was also present at the morning service, when the pastor took as his subject, "Choked Grain." Mr. Sutcliffe's discourses were well prepared and ably delivered.

GETTING OUT MUCH GOLD

YELLOW STUFF CATCHING ON PLATES AT CHAMPION.

Bohemia Mining District Giving Indications of the Big Future that is Before It.

Fourteen thousand dollars in gold in 60 days is what has been caught on the plates at the Champion mill in the Bohemia district, according to information that comes from a source of information that is reliable.

This seems like a big bunch of the yellow stuff, and it is, but there is nothing fabulous about it. It will not even pay very large dividends on the amount of money invested, after expenses are deducted. It does, however, indicate in a way the things that are going on in the great Bohemia district. It encourages Cottage Grover in the belief that the district is some day going to be the scene of some of the largest operations in the country. It gives an indication of steady and increasing development, all of which means more business for Cottage Grove, the source of supplies and outlet for the products of the mines. Besides many residents of the city are heavily interested in property in the district, and good returns from other properties are indications of what they may expect some day.

Find Mountain Road Very Good.

County Commissioners Hemphill and Price returned last night from a two days' trip to the Vesuvius mine in the Bohemia district, where they examined the road leading up to it from Cottage Grove, recently built by Supervisor Hard. They found it to be a very good mountain road.—Eugene Register, 13th.

Ranch Brings \$45,000.

The E. Reushaw property, better known as the Pruitt ranch, three miles northeast of Medford on the Eagle Point road, has been sold to G. W. and H. T. Hubbard, of Urbana, Ill., for \$45,000. The ranch embodies forty acres in all, twenty acres in New-towns, eleven years old, and the balance in young trees.—Medford Sun.

Pears Bring \$3.15.

Howell pears, comprising a carload shipped by the Rogue River Valley Fruit and Produce company, August 31, in ear 1369, brought a record price last Friday, when the fancy's brought the top notch price of the season at \$3.15 the box.—Medford Sun.

Dirt Will Fly.

It is the Register's prediction that dirt will fly on the Southern Pacific out of Eugene towards the coast within the next ten days. Enough eight-of-way has been secured to warrant going ahead with a contract on the first twenty-five miles.—Eugene Register.
